Wolfheze,2018-10-01 From a Traditionalist perspective the cultural history of the Modern Era amounts to the genesis of the Dark Age The Traditionalist meta historical narrative deconstructs the modernist myth of historic progress as an anti intellectual superstition It exposes the quintessential features of Modernity namely secular nihilism historical materialism socio political egalitarianism and collective narcissism as structural inversions of Traditional values The historic accumulation of these inversions set the stage for a final showdown between Tradition and Modernity In terms of ancient prophecy and Traditionalist philosophy the Great War represents the apocalyptic sunset of the world of Tradition This work follows the forgotten path of the philosophia perennis to trace the historic onset of the Dark Age It clears away a century deep deposit of progressive illusions and politically correct axioms The restored road of Traditional thought will lead a new generation of scholars to their rightful inheritance an intellectual tabula rasa on which history can be written anew
