Maya And Teotihuacan:

The Maya and Teotihuacan Geoffrey E. Braswell, 2009-07-21 The contributors to this volume present extensive new evidence from archaeology iconography and epigraphy to offer a more nuanced understanding of the interaction between the Early Classic Maya and Teotihuacan Winner Choice Outstanding Academic Book 2005 Since the 1930s archaeologists have uncovered startling evidence of interaction between the Early Classic Maya and the great empire of Teotihuacan in Central Mexico Yet the exact nature of the relationship between these two ancient Mesoamerican civilizations remains to be fully deciphered Many scholars have assumed that Teotihuacan colonized the Maya region and dominated the political or economic systems of certain key centers perhaps even giving rise to state level political organizations Others argue that Early Classic rulers merely traded with Teotihuacan and skillfully manipulated its imported exotic goods and symbol sets to increase their prestige Moving beyond these traditional assumptions the contributors to this volume present extensive new evidence from archaeology iconography and epigraphy to offer a more nuanced understanding of the interaction between the Early Classic Maya and Teotihuacan Investigating a range of Maya sites including Kaminaljuyu Cop n Tikal Altun Ha and Oxkintok they demonstrate that the influence of Teotihuacan on the Maya varied in nature and duration from site to site requiring a range of models to explain the patterns of interaction Moreover they show that the interaction was bidirectional and discuss how the Maya in turn influenced Teotihuacan

The Maya and Teotihuacan Geoffrey E. Braswell, 2004-03-01 Debate has been fierce about the date and extent of influence of the central Mexican culture of Teotihuacan on the Maya This volume which aims to bring the debate up to date comprises thirteen essays that draw on recent archaeological evidence particularly burials and ceramic assemblages to recreate the region s ethnicity during the Early Classic period Evidence of interaction is also found in carved monuments and architectural design Includes an extensive bibliography

Teotihuacan Charles River, Charles River Charles River Editors, 2014-04-22 Includes pictures Includes footnotes and a bibliography for further reading On January 31 378 AD a massive army arrived at the gates of the city of Tikal one of the Ancient Maya s most important settlements in the Yucatan Peninsula The events that transpired became known by the Spanish name Entrada Entry referring to the entry of Teotihuacan While there is no clear record of the events due to the sheer scale of destruction that took place it s clear that neither Tikal nor the Maya as a whole had ever seen anything like it because these foreign soldiers not only conquered but also subsequently ruled Tikal despite the fact they had come from Teotihuacan located about 630 miles 1 013 kilometers away In the process the Teotihuacanos not only changed Tikal but the direction of the Mayan civilization for centuries to come At the time Teotihuacan was the biggest city in South America and was located in the Valley of Mexico near today s Mexico City Thriving between 100 750 AD it was one

of the largest cities in the ancient world with a population estimated at upwards of 150 000 250 000 over three times the size of contemporary Mayan capitals Furthermore Teotihuacan was a supremely well planned and efficient city that was able to field massive armies and extend its power far beyond its home base to create a unified empire unlike anything in the region before it In fact the city's residents seemed so sure of its power that there were apparently no walls or military fortifications around Teotihuacan Thanks to that power Teotihuacan not only served as a vital center for trade in Ancient Mesoamerica but also spread its architecture art religion and culture all of which subsequently influenced the famous Mesoamerican civilizations that followed including the Aztec and Maya Although Teotihuacan reached the height of its power and influence about 1500 years ago the city is still an endless topic of fascination and debate in addition to being Mexico's most toured archaeological site The origins of the city remain mysterious as do the city's founders and scholars are still coming up with theories to explain the city's demise All the while later Mesoamerican civilizations remembered Teotihuacan and the Aztec even considered the city's ruins a site of worship Teotihuacan The History of Ancient Mesoamerica's Largest City covers the history of the city as well as the speculation and debate surrounding it Along with pictures footnotes and a bibliography you will learn about Teotihuacan like you never have before in no time at all *An Overview of the Mayan World* Gualberto Zapata Alonzo, 1988 *The Ancient Maya, 6th Edition* Robert J. Sharer, Loa P. Traxler, 2006 The rich findings of recent exploration and research are incorporated in this completely revised and greatly expanded sixth edition of this standard work on the Maya people New field discoveries new technical advances new successes in the decipherment of Maya writing and new theoretical perspectives on the Maya past have made this new edition necessary **Ancient Maya** Arthur Demarest, 2004-12-09 In this new archaeological study Arthur Demarest brings the lost pre-Columbian civilization of the Maya to life In applying a holistic perspective to the most recent evidence from archaeology paleoecology and epigraphy this theoretical interpretation emphasises both the brilliant rain forest adaptations of the ancient Maya and the Native American spirituality that permeated all aspects of their daily life Demarest draws on his own discoveries and the findings of colleagues to reconstruct the complex lifeways and volatile political history of the Classic Maya states of the first to eighth centuries He provides a new explanation of the long standing mystery of the ninth century abandonment of most of the great rain forest cities Finally he draws lessons from the history of the Classic Maya cities for contemporary society and for the ongoing struggles and resurgence of the modern Maya peoples who are now re-emerging from six centuries of oppression

Teotihuacan Esther Pasztory, 1997 This book is the first comprehensive study and reinterpretation of the unique arts of Teotihuacan including architecture sculpture mural painting and ceramics Comparing the arts of Teotihuacan not previously judged artistic with those of other ancient civilizations Ester Pasztory demonstrates how they created and reflected the community's ideals Most people associate the pyramids of central Mexico with the Aztecs but these colossal constructions antedate the Aztecs by more than a thousand years The people of Teotihuacan who built the pyramids as part of a city of

Robertson, 1996 **The Teotihuacan Trinity** Annabeth Headrick, 2013-03-15 Northeast of modern day Mexico City stand the remnants of one of the world's largest preindustrial cities Teotihuacan Monumental in scale Teotihuacan is organized along a three mile long thoroughfare the Avenue of the Dead that leads up to the massive Pyramid of the Moon Lining the avenue are numerous plazas and temples which indicate that the city once housed a large population that engaged in complex rituals and ceremonies Although scholars have studied Teotihuacan for over a century the precise nature of its religious and political life has remained unclear in part because no one has yet deciphered the glyphs that may explain much about the city's organization and belief systems In this groundbreaking book Annabeth Headrick analyzes Teotihuacan's art and architecture in the light of archaeological data and Mesoamerican ethnography to propose a new model for the city's social and political organization Challenging the view that Teotihuacan was a peaceful city in which disparate groups united in an ideology of solidarity Headrick instead identifies three social groups that competed for political power rulers kin based groups led by influential lineage heads and military orders that each had their own animal insignia Her findings provide the most complete evidence to date that Teotihuacan had powerful rulers who allied with the military to maintain their authority in the face of challenges by the lineage heads Headrick's analysis also underscores the importance of warfare in Teotihuacan society and clarifies significant aspects of its ritual life including shamanism and an annual tree raising ceremony that commemorated the Mesoamerican creation story *Night and Darkness in Ancient Mesoamerica* Nancy Gonlin, David Millard Reed, 2021-12-01 Night and Darkness in Ancient Mesoamerica is the first volume to explicitly incorporate how nocturnal aspects of the natural world were imbued with deep cultural meanings and expressed by different peoples from various time periods in Mexico and Central America Material culture iconography epigraphy art history ethnohistory ethnographies and

anthropological theory are deftly used to illuminate dimensions of darkness and the night that are often neglected in reconstructions of the past. The anthropological study of night and darkness enriches and strengthens the understanding of human behavior, power, economy, and the supernatural. In eleven case studies featuring the residents of Teotihuacan, the Classic period Maya inhabitants of Rio Ul a, and the Aztecs, the authors challenge archaeologists to consider the influence of the ignored dimension of the night and the role and expression of darkness on ancient behavior. Chapters examine the significance of eclipses, burials, tombs, and natural phenomena considered to be portals to the underworld; animals hunted at twilight; the use and ritual meaning of blindfolds; night-blooming plants; nocturnal foodways; fuel sources; and lighting technology and other connected practices. *Night and Darkness in Ancient Mesoamerica* expands the scope of published research and media on the archaeology of the night. The book will be of interest to those who study the humanistic, anthropological, and archaeological aspects of the Aztec, Maya, Teotihuacanos, and southeastern Mesoamericans, as well as sensory archaeology, art history, material culture studies, anthropological archaeology, paleonutrition, socioeconomics, sociopolitics, epigraphy, mortuary studies, volcanology, and paleoethnobotany.

Prehistoric Mesoamerica Richard E. W. Adams, 1996. In this revised edition of *Prehistoric Mesoamerica*, Richard E. W. Adams updates his widely adopted text with material from recent archaeological fieldwork to present a balanced summary and overview of the region that is today Mexico, Guatemala, Belize, and Honduras. Following an introduction to Mesoamerican studies, a brief geographic sketch of the region, and a summary of the major features of its civilizations, Adams examines in detail each period of cultural history: the first immigrants, the Olmec and their contemporaries, Maya beginnings, and classic civilization, the great cities of Teotihuacan and Monte Alban, the rise and fall of the Toltec, and the civilizations of the Tarascans, Zapotecs, Mixtecs, Totonacs, and Aztecs.

Teotihuacan Matthew Robb, 2017-09-26. Founded in the first century BCE near a set of natural springs in an otherwise dry northeastern corner of the Valley of Mexico, the ancient metropolis of Teotihuacan was on a symbolic level a city of elements. With a multiethnic population of perhaps one hundred thousand at its peak in 400 CE, it was the cultural, political, economic, and religious center of ancient Mesoamerica. A devastating fire in the city center led to a rapid decline after the middle of the sixth century, but Teotihuacan was never completely abandoned or forgotten; the Aztecs revered the city and its monuments, giving many of them the names we still use today. *Teotihuacan: City of Water, City of Fire* examines new discoveries from the three main pyramids at the site: the Sun Pyramid, the Moon Pyramid, and at the center of the Ciudadela complex, the Feathered Serpent Pyramid, which have fundamentally changed our understanding of the city's history. With illustrations of the major objects from Mexico City's Museo Nacional de Antropología and from the museums and storage facilities of the Zona de Monumentos Arqueológicos de Teotihuacan, along with selected works from US and European

collections the catalogue examines these cultural artifacts to understand the roles that offerings of objects and programs of monumental sculpture and murals throughout the city played in the lives of Teotihuacan's citizens Published in association with the Fine Arts Museums of San Francisco Exhibition dates de Young San Francisco September 30 2017 February 11 2018 Los Angeles County Museum of Art LACMA March June 2018 The Aztecs, Maya, and Their Predecessors: Archaeology of Mesoamerica Muriel Porter Weaver, 1972 *The Collapse of Ancient States and Civilizations* Norman Yoffee, George L. development of social complexity are being reassessed Ultimately the contributors to this edited volume challenge the status quo regarding how and why social complexity arose by providing revolutionary new understandings of social inequality and socio political evolution
