called literary studies New Accents is intended as a positive response to the initiative offered by such a situation Each volume in the series will seek to encourage rather than resist the process of change To stretch rather than reinforce the boundaries that currently define literature and its academic study From Islands to Portraits Sergio Perosa,2000

Throughout the long course of literature islands have accumulated uncanny connotations of death together with peculiarities of linguistic definition and expression Since the age of discovery after the Caribbean Islands America itself and later the archipelagos and atolls in the Pacific became known to travellers and conquistadores islands have been sought searched explored and physically possessed as women cultural recognition takes the form of sexual and physical possession Venus was born from the sea and is identified with an island These are the themes of the first two variations discussed in this book
