North-west, West and South-west** Cyclists' Touring Club, 1895 Consuming Painting Allison Deutsch, 2021-02-01 In Consuming Painting Allison Deutsch challenges the pervasive view that Impressionism was above all about visual experience Focusing on the language of food and consumption as they were used by such prominent critics as Baudelaire and Zola she writes new histories for familiar works by Manet Monet Caillebotte and Pissarro and creates fresh possibilities for experiencing and interpreting them Examining the culinary metaphors that the most influential critics used to express their attraction or disgust toward painting Deutsch rethinks French modern life painting in relation to the visceral reactions that these works evoked in their earliest publics Writers posed viewing as analogous to ingestion and used comparisons to food to describe the appearance of paint and the painter s process The food metaphors they chose were aligned with specific female types such as red meat for sexualized female flesh confections for fashionably made up women and hearty vegetables for agricultural laborers These culinary figures of speech Deutsch argues provide important insights

into both the fabrication of the feminine and the construction of masculinity in nineteenth century France Consuming Painting exposes the social politics at stake in the deeply gendered metaphors of sense and sensation Original and convincing Consuming Painting upends traditional narratives of the sensory reception of modern painting This trailblazing book is essential reading for specialists in nineteenth century art and criticism gender studies and modernism *My Little Orsay* Marie Sellier,2002-03 New Monthly Magazine, and Universal Register ,1852 *The New Monthly Magazine and Universal Register* ,1852 **The New Monthly Magazine and Humorist** ,1852 **Godard** Richard Roud,2019-07-25 Richard Roud s Godard first published in 1967 as Number One in the seminal Cinema One series was the first monograph on the great film maker to be published in English and one that reveals a unique intimacy between the author and his subject Roud s provocative and far reaching analysis shows an intuitive understanding of the aesthetic intellectual and political context in which Godard worked paying particular attention to his political cinema including the ferocious masterpiece Weekend 1967 In his foreword to this reissue Michael Temple provides an overview of film criticism on Godard arguing that more than forty years since its publication Roud s book remains at the forefront of writings on the director Temple pinpoints how Roud was uniquely placed as a contemporary of Godard s to follow the film maker s career from one explosive film to the next charting the course of the Godardian star even as Roud s own career as a critic and festival programmer was unfolding He contends that Roud s study was a pure product and a faithful reflection of a certain tendency in British film culture at the end of the 1960s cin phile progressive European intellectual metropolitan For Temple Roud s work remains a lucid summary of what Godard had already achieved by the end of the 1960s and provides a suggestive model of cultural criticism with which to approach subsequent aspects of Godard s multimedia artistic adventure **Sandra Gustafson's Great Eats Paris** Sandra Gustafson,2007-05-03 For more than 20 years savvy travelers have trusted Sandra Gustafson for insider tips and great value abroad Completely revised updatedand in a new portable sizethis beloved guide offer in the know advice on the best deals and most unique places to eat and stay in the City of Light For this edition Sandra revisited each of the recommended restaurants and scoured the city for great new discoveries With its lively detailed and personal reviews Great Eats Paris is the antidote to the lowest common denominator travel advice and the perfect companion for anyone in search of the authentic Paris *Genie Civil* ,1889 **France and the Coming of the Second World War, 1936-1939** Anthony Adamthwaite,2021-12-16 First published in 1977 France and the Coming of the Second World War investigates the policies that led to the collapse of French power The book argues that this collapse was the result of social political and economic troubles that buffeted French leaders It uses a wealth of documents to explore common debates such as Britain s culpability for France s inability to prevent Germany s reoccupation of the Rhineland It also puts forward the threat of Italy and the Mediterranean as France s main preoccupation rather than Germany and central Europe France and the Coming of the Second World War uses an extensive range of archival material and includes the private papers of Daladier Bonnet and a

*Children's Emotions in Europe, 1500 - 1900* Jeroen J. H. Dekker, 2024-04-04 This book gives you the historical sensation of coming face to face with the bodily expression and regulation of children's emotions over time The study does this by encouraging you to look through the eyes of well known artists like Albrecht Dürer Domenico Ghirlandaio Jan Steen Antony van Dyck Rembrandt and Titian in early modern Europe and Jean Baptiste Simon Chardin Thomas Lawrence Jean Honor Fragonard Philipp Otto Runge Willem Bartel van der Kooij Paul Gauguin Auguste Renoir and Jozef Israëls in the late 18th and 19th centuries These sources are supplemented by works from less famous artists as well as popular emblem books child advice manuals observations from the emerging child sciences and personal documents Jeroen Dekker observes

children's emotions mainly in the child's world and in the domestic emotional space and connects them with history's ongoing underlying discourse on education and the emotions. This discourse was developed by theologians, philosophers and moralists like Augustine, Aquinas, Erasmus, Descartes, Jacob Cats, John Locke and Jean-Jacques Rousseau, by Romantic educationalists like Friedrich Fröbel and Ellen Key and by scientists like Charles Darwin and William James who emphasized the biological instead of the moral fundament of children's emotions. The story of children's emotions is told in the context of cultural movements like the Renaissance, Humanism, the Reformation, the Enlightenment, Romanticism and the starting Age of Child Science. *Children's Emotions in Europe 1500-1900* crucially highlights the continuous co-existence of regulation-oriented and child-oriented educational views on children's emotions. *Oeuvres de feu M.
