Mona Lisas Veil:

Mona Lisa's Veil Randolph Roark, 2001 **Mona Lisa** Martin Kemp, Giuseppe Pallanti, 2017-05-26 Read this book and the world's most famous image will never look the same again For the world's greatest cultural icon still has secrets to reveal not the silly secrets that the Leonardo loonies continue to advance but previously unknown facts about the lives of Leonardo his father Lisa Gherardini the subject of the portrait and her husband Francesco del Giocondo From this factual beginning we see how the painting metamorphosed into a universal picture that became the prime vehicle for Leonardo's prodigious knowledge of the human and natural worlds We learn about the new money of the ambitious merchant who married into the old gentry of Lisa's family We discover Lisa's life as a wife and mother her association with sexual scandals and her later life in a convent We meet for the first time previously undiscovered members of Leonardo's immediate family and discover new information about his early life The tiny hill town of Vinci is placed before us with its widespread poverty We find out about the career and possessions of his father a notable lawyer in Florence The meaning of the portrait that resulted from these human circumstances is vividly illuminated through Renaissance love poetry and verses specifically dedicated to Leonardo We come to understand how Leonardo's sciences of optics psychology anatomy and geology are embraced in his poetic science of art Recent scientific examinations of the painting disclose how it evolved to assume its present appearance in Leonardo's experimental hands Above all we cut through the suppositions and the myths to show that the portrait is a product of real people in a real place at a real time This is the book that brings back a sense of reality into the creation of the portrait of Lisa del Giocondo And the actual Mona Lisa it turns out is even more astonishing and transcendent than the Mona Lisa of legend

Publisher's description **Mona Lisa** Max von Schillings, 1914 **The Voice of the Indian Mona Lisa** Heidi Rika Maria Pauwels, 2023-08-31 An exploration of the young enslaved woman behind the Indian Mona Lisa who became an accomplished poetess and Rajput prince's concubine *Marcel Duchamp and the Architecture of Desire* Penelope

Haralambidou, 2017-03-02 While much has been written on Marcel Duchamp one of the twentieth century's most beguiling artists the subject of his flirtation with architecture seems to have been largely overlooked Yet in the carefully arranged plans and sections organising the blueprint of desire in the Large Glass his numerous pieces replicating architectural fragments and his involvement in designing exhibitions Duchamp's fascination with architectural design is clearly evident As his unconventional architectural influences Nicéron Lequeu and Kiesler and diverse legacy Tschumi OMA Webb Diller Scofidio and Nicholson indicate Duchamp was not as much interested in built architecture as he was in the architecture of desire re constructing the imagination through drawing and testing the boundaries between reality and its aesthetic and philosophical

possibilities Marcel Duchamp and the Architecture of Desire examines the link between architectural thinking and Duchamp's work By employing design drawing and making the tools of the architect Haralambidou performs an architectural analysis of Duchamp's final enigmatic work Given 1 The Waterfall 2 The Illuminating Gas demonstrating an innovative research methodology able to grasp meaning beyond textual analysis This novel reading of his ideas and methods adds to but also challenges other art historical interpretations Through three main themes allegory visuality and desire the book defines and theorises an alternative drawing practice positioned between art and architecture that predates and includes Duchamp

The Shadow Drawing Francesca Fiorani, 2020-11-17 Insightful and beautiful A wonderful study of how Leonardo's art and science are interwoven Walter Isaacson author of Leonardo Da Vinci A New York Times Book Review Editors' Choice Shortly after Leonardo da Vinci's death his peers and rivals created the myth of the two Leonardos there was Leonardo the artist and then later in life Leonardo the scientist In this pathbreaking biographical interpretation the art historian Francesca Fiorani tells a very different and much more interesting story Taking a fresh look at Leonardo's celebrated but challenging notebooks and other sources Fiorani shows that Leonardo became fluent in science when he was still young man As an apprentice in a Florence studio he was especially interested in the science of optics He aspired to use this knowledge to capture as no artist before him had ever done the interior lives of his subjects to paint the human soul in its smallest tenderest motions and vicissitudes And then he hoped to take one further step to gather his scientific knowledge together in a book that would be even more important than his paintings In *The Shadow Drawing* Fiorani revises our understanding of Leonardo the artist's most renowned paintings and reconstructs the wisdom Leonardo the author hoped to impart The result is both a stirring biography and a bold reconsideration of how the Renaissance understood science and art and of what was lost when the two were sundered Fiorani's lively intellectual adventure gives us new understanding and appreciation of Leonardo's cross-fertilization of art and science It is a perceptive biography of Leonardo exploring the frontiers of science but also a brilliantly informative guide to his paintings Ross King author of Brunelleschi's Dome Leonardo and the Last Supper and *Mad Enchantment: Leonardo Da Vinci* Charles Nicholl, 2005-04-07 Leonardo is the greatest most multi-faceted and most mysterious of all Renaissance artists but extraordinarily considering his enormous reputation this is the first full-length biography in English for several decades Prize-winning author Charles Nicholl has immersed himself for five years in all the manuscripts paintings and artefacts to produce an intimate portrait of Leonardo He uses these contemporary materials his notebooks and sketchbooks eye-witnesses and early biographies etc as a way into the mental tone and physical texture of his life and has made myriad small discoveries

about him and his work and his circle of associates Among much else the book identifies what Nicholl argues is an unknown portrait of the artist hanging in a church near Lodi in northern Italy It also contains new material on his eccentric assistant Tomasso Masini on his homosexual affairs in Florence and on his curious relationship with a female model and or prostitute from Cremona A masterpiece of modern biography The Keepsake for ,1844 Leonardo Da Vinci, 1452-1519 Frank Zöllner,2000 Life and work of the renowned painter scientist and philosopher of the Renaissance period Canadian Drygoodsman and "Women's Wear" ,1921 **Living with Leonardo: Fifty Years of Sanity and Insanity in the Art World and Beyond** Martin Kemp,2018-05-01 Approaching the 500th anniversary of Leonardo s death the world renowned da Vinci expert recounts his fifty year journey with the work of the world s most famous artist A personal memoir interwoven with original research Living with Leonardo takes us deep inside Leonardo da Vinci scholar Martin Kemp s lifelong passion for the genius who has helped define our culture Each chapter considers a specific work as Kemp offers insight into his encounters with academics collectors curators devious dealers auctioneers and authors as well as how he has grappled with legions of Leonardo loonies treaded vested interests in academia and museums and fended off fusillades of non Leonardos Kemp explains his thinking on the Last Supper and the Mona Lisa retells his part in the identification of the stolen Buccleuch Madonna and explains his involvement on the two major Leonardo discoveries of the last 100 years La Bella Principessa and Salvator Mundi His engaging narrative elucidates the issues surrounding attribution the scientific analyses that support experts interpretations and the continuing importance of connoisseurship Illustrated with the works being discussed Living with Leonardo explores the artist s genius from every angle including technical analysis and the pop culture works he inspired such as The Da Vinci Code and his enduring influence 500 years after his death Veiled Desires Maureen Sabine,2013-08 Ingrid Bergman s engaging screen performance as Sister Mary Benedict in The Bells of St Mary s made the film nun a star and her character a shining standard of comparison She represented the religious life as the happy and rewarding choice of a modern woman who had a complete understanding of both erotic and spiritual desire How did this vibrant and mature nun figure come to be viewed as girlish and naive Why have she and her cinematic sisters in postwar popular film so often been stereotyped or selectively analyzed so seldom been seen as women and religious In Veiled Desires a unique full length in depth study of nuns in film Maureen Sabine explores these questions in a groundbreaking interdisciplinary study covering more than sixty years of cinema She looks at an impressive breadth of films in which the nun features as an ardent lead character including The Bells of St Mary s 1945 Black Narcissus 1947 Heaven Knows Mr Allison 1957 Sea Wife 1957 The Nun s Story 1959 The Sound of Music 1965 Change of Habit 1969 In This House of Brede 1975 Agnes of God 1985 Dead Man Walking 1995 and Doubt 2008 Veiled Desires considers how the beautiful and charismatic stars who play chaste nuns from Ingrid Bergman and Audrey Hepburn to Susan Sarandon and Meryl Streep call attention to desires that the veil concealed and the habit was thought to stifle In a theologically and psychoanalytically informed

argument Sabine responds to the critics who have pigeonholed the film nun as the obedient daughter and religious handmaiden of a patriarchal church and the respectful audience who revered her as an icon of spiritual perfection She provides a framework for a more complex and holistic picture of nuns on screen by showing how the films dramatize these women's Christian call to serve sacrifice and dedicate themselves to God and their erotic desire for intimacy agency achievement and fulfillment

Practicing Art/Science Philippe Sormani, Guelfo Carbone, Priska Gisler, 2018-07-11 Over the last two decades multiple initiatives of transdisciplinary collaboration across art science and technology have seen the light of day Why by whom and under what circumstances are such initiatives promoted What does their experimental character look like and what can be learned epistemologically and institutionally from probing the multiple practices of art science at work In answer to the questions raised Practicing Art

Science contrasts topical positions and insightful case studies ranging from the detailed investigation of art at the nanoscale to the material analysis of Leonardo's Mona Lisa and its cracked smile. In so doing this volume brings to bear the practice turn in science and technology studies on the empirical investigation of multifaceted experimentation across contemporary art science and technology in situ. Against the background of current discourse on artistic research the introduction not only explains the particular relevance of the practice turn in STS to tackle the interdisciplinary task at hand but offers also a timely survey of varying strands of artistic experimentation. In bringing together ground breaking studies from internationally renowned scholars and upcoming researchers in sociology art theory and artistic practice as well as history and philosophy of science *Practicing Art Science* will be essential reading for practitioners and professionals in said fields as well as postgraduate students and representatives of higher education and research policy more broadly.
