Monde A La Derive:

Dictionnaire étymologique des mots français dérivés du grec J-B. Morin, 1809 **Taalstudie**, 1886 **Plotin** Dominic J. O'Meara, 2004 Présente la composition des Ennéades et le contexte intellectuel dans lequel vivait Plotin Étudie une sélection de textes plotiniens par rapport à plusieurs questions philosophiques fondamentales : l'âme et le corps, le rationnel sensible et intelligible, l'intellect, l'Un, le discours sur l'ineffable, la production de la rationalité, le mal, la beauté, l'éthique et le mysticisme **L'Ecole à la dérive**, **Dérive de l'espace public à l'ère du divertissement** Charles Perraton, Étienne Paquette, 2011-04-22T00:00:00-04:00 Assistons-nous et participons-nous à l'invention d'une nouvelle forme de vivre ensemble ? Sommes-nous en train de perdre ce qu'il nous reste de conscience politique ? Pour répondre à ces questions, les auteurs explorent différentes perspectives de façon à nourrir une réflexion générale et un débat sur notre actualité. Les textes réunis pour cette occasion parlent des possibilités qu'ouvre la pensée la question de l'espace public, le rôle du divertissement [L'Être en forme](#) Mariana Larison, 2016-12-02T00:00:00+01:00 Ce livre offre une interprétation du sens et de l'orientation du dernier projet philosophique de Maurice Merleau-Ponty. Il développe cette interprétation à partir de trois grandes questions : qu'est-ce qui produit le tournant d'une phénoménologie de la perception vers une ontologie du sensible en quoi consiste cette ontologie et comment la comprendre ? Centre notamment sur les cours donnés par Merleau-Ponty au Collège de France dans les années 50 publiés et inédits, l'auteur procède en analysant et en tirant les conséquences des études merleau-pontiennes sur la conception philosophique de la Nature de Descartes, Husserl en passant par Schelling, Kant, Hegel et Bergson. Elle développe la dernière conception du philosophe, du statut des vivants et du sujet, et tente de mettre au jour le sens philosophique de cette nouvelle ontologie du sensible, sens qu'il trouve dans une nouvelle conception phénoménologique de la forme et dans une lecture singulière de la dialectique. Ce qui implique son tour de main très original de concevoir par rapport à la tradition et la pensée de Merleau-Ponty des années 40 le projet phénoménologique lui-même [La dérive des sentiments](#) Yves Simon, 2014-04-01 Prix Médicis 1991 Le monde d'aujourd'hui avec ses fractures, ses drames politiques, ses ruptures de liberté venues de l'Est. L'histoire de deux individus, Simon et Marianne, qui essaient d'inventer une histoire d'amour. Simon est un drôle de type, il a publié deux romans sous pseudonyme et il s'apprête à publier un troisième, mais critiqué par un autre Simon, est un rêveur et de tranges blessures habitent sa mémoire, ainsi on le devine obsédé par un fils qu'il aurait eu autrefois et qu'il n'a jamais vu. Avec Marianne, il voudra retrouver le goût d'une passion qui ne s'use pas. D'autres personnages étranges l'entourent : Kaspar, George, Becker, K.G.B. qui critique un roman dans lequel défilent toutes les convulsions de l'ancienne Europe, une concubine excentrique qui s'appelle Madame Dior, Rosa et Marcella et Lucien et Alice et tant d'autres qui se déplacent dans ce livre comme autant de somnambules. Peut-être ne sont-ils pas seulement les personnages du roman que l'on est en train de lire, mais aussi ceux du roman que Simon le narrateur est en train d'écrire. C'est dire que ce livre voudrait être une fable sur l'époque, mais aussi sur la création littéraire **Discern(e)ments**, 2022-06-08 A bilingual collection of essays on the aesthetics of Gilles Deleuze

certain aspects de l'islam et même l'histoire coloniale belge Nous avons également tenu à rassembler autour de ce travail spécialistes du monde arabo musulman et spécialistes de l'Orient ancien témoignant ainsi de l'activité des orientalistes belges dans leur ensemble Le Tractatus de Wittgenstein et l'Éthique de Spinoza Markus Aenishänslin, 2012-12-06 Wittgenstein et Spinoza construisent l'un dans le Tractatus l'autre dans l'éthique des systèmes philosophiques réunissant le monde l'homme et Dieu dans lesquels ils s'opposent sur de nombreux points C'est ainsi par exemple que suivant Spinoza l'homme est assuré que rien ne se produit sans cause alors que Wittgenstein rejette la possibilité de rapports d'ordre causal entre les événements Le présent travail dissèque dans une première partie l'œuvre de Wittgenstein il analyse dans une deuxième partie la doctrine de Spinoza et il compare enfin dans la troisième partie les deux systèmes dont il fait ressortir les points de concordance et de dissemblance dans leurs constructions respectives Il traite les œuvres philosophiques que sont le Tractatus et l'éthique comme si elles relevaient de sciences telles que la mécanique l'astronomie etc et utilise des modèles géométriques appropriés leur interprétation L'étude comparative du Tractatus et de l'éthique qui ne cessent d'exercer leur influence sur la pensée humaine permet de conclure que le Tractatus œuvre du XX^e siècle renoue avec le rationalisme du XVII^e siècle exprimé par Spinoza *The Place de la Bastille* Keith Reader, 2011 From the bustling Marché d'Aligre market to the comparatively new Opéra Bastille the Place de la Bastille is among the Paris's most richly protean areas Also known as the Faubourg Saint Antoine the Bastille quarter has long been a bastion of working class solidarity and a regular site of political agitation such as the infamous storming of the Bastille Home to a popular and sometimes raffish nightlife scene in the early twentieth century it now serves an ethnically and socially mixed community while bearing many traces of its vibrant past From the earliest days to the present Keith Reader offers here a fascinating look at the rich historical and cultural geography of the Place de la Bastille For readers keen to explore this remarkable area firsthand the book also includes a map and walking tour
