Meltdown in Tibet Michael Buckley, 2014-11-11 Tibetans have experienced waves of genocide since the 1950s Now they are facing ecocide The Himalayan snowcaps are in meltdown mode due to climate change accelerated by a rain of black soot from massive burning of coal and other fuels in both China and India The mighty rivers of Tibet are being dammed by Chinese engineering consortiums to feed the mainland s thirst for power and the land is being relentlessly mined in search of minerals to feed China s industrial complex On the drawing board are plans for a massive engineering project to divert water from Eastern Tibet to water starved Northern China Ruthless Chinese repression leaves Tibetans powerless to stop the reckless destruction of their sacred land but they are not the only victims of this campaign the nations downstream from Tibet rely heavily on rivers sourced in Tibet for water supply and for rich silt used in agriculture This destruction of the region s environment has been happening with little scrutiny until now In Meltdown in Tibet Michael Buckley turns the spotlight on the darkest side of China s emergence as a global super power

La paga Furio Colombo, 2011-02-14 Quali sono le conseguenze dello spaventoso baratro che separa i bonus di chi gestisce fondi d'investimento e gli stipendi dei dipendenti? Qual è il futuro del rapporto tra paga, voto, mercato e democrazia? C'è il rischio che le politiche neoliberiste escludano dalla vita democratica milioni di persone che subiscono la dipendenza crescente del lavoro dalla finanza pagandone i costi dei fallimenti. Il lavoro quindi sotto assedio, sempre più difficile difenderlo tra chi non si fida più dei sindacati e chi cerca di spingerli sempre più indietro. Inoltre le politiche neoliberali stanno erodendo alcune garanzie fondamentali come il diritto alle cure sanitarie attaccato da chi vuole affidarle come negli Stati Uniti al mercato aprendo scenari inquietanti.

[killing for culture](#) David Kerekes, David Slater, 2016-06-03 Unlike images of sex which were clandestine and screened only in private, images of death were made public from the onset of cinema. The father of the modern age, Thomas Edison, fed the appetite for this material with staged executions on film. Little over a century later, the executions are real and the world is aghast at brutalities freely available online at the click of a button. Some of these films are created by lone individuals using shaky camera phones. Luka Magnotta, for instance, and the teenagers known as the Dnipropetrovsk maniacs. Others are shot on high-definition equipment and professionally edited by

organized groups such as the militant extremists ISIS KILLING FOR CULTURE explores these images of death and violence and the human obsession with looking and not looking at them Beginning with the mythology of the so called snuff film and its evolution through popular culture this book traces death and the artifice of death in the mondo documentaries that emerged in the 1960s and later the faux snuff pornography that found an audience through Necrobabes and similar websites However it is when videos depicting the murders of Daniel Pearl and Nick Berg surfaced in the 2000s that an era of genuine atrocity commenced one that has irrevocably changed the way in which we function as a society
