Mondrain Twentieth Century Masters Series:

Twentieth-century Modern Masters Sabine Rewald, 1989 Published in conjunction with the exhibition held at The Metropolitan Museum of Art NYC Dec 1989 Apr 1990 The last great private collection of the art of the School of Paris 81 paintings drawings and bronzes by Bonnard Braque Dali Dubuffet Matisse Miro Picasso and Giacometti among others With accompanying essays and additional illustrations a total of 281 95 in color 10x12 1/4 Annotation copyrighted by Book News Inc Portland OR *Art of the 20th century* Dorothea Eimert, 2016-03-09 The 20th century was a revolutionary period in art history In the span of a few short years Modernism exploded into being disrupting centuries of classical figurative tradition to create something entirely new This astoundingly thorough survey of art's modern era showcases all of the key artistic movements of the 20th century from Fauvism to Pop Art featuring illustrative examples of some of the most renowned works of the era along with illuminating companion essays by expert critics and art historians A vivid window into the collective psyche of the modern world's great artists *Art of the 20th Century* is a must have for any fan of contemporary art **LOMA**, 1971 **Encyclopedia of Twentieth Century Architecture** R. Stephen Sennott, 2004 For more information including the introduction a full list of entries and contributors a generous selection of sample pages and more visit the Encyclopedia of 20th Century Architecture website Focusing on architecture from all regions of the world this three volume set profiles the twentieth century's vast chronicle of architectural achievements both within and well beyond the theoretical confines of modernism Unlike existing works this encyclopedia examines the complexities of rapidly changing global conditions that have dispersed modern architectural types movements styles and building practices across traditional geographic and cultural boundaries *Artbibliographies Modern*, 1999 **Twentieth-century European Painting** Ann-Marie Cutul, 1980

Paintings and the Past Ivan Gaskell, 2019-05-13 This book is an exploration of how art specifically paintings in the European manner can be mobilized to make knowledge claims about the past No type of human made tangible thing makes more complex and bewildering demands in this respect than paintings Ivan Gaskell argues that the search for pictorial meaning in paintings yields limited results and should be replaced by attempts to define the point of such things which is cumulative and ever subject to change He shows that while it is not possible to define what art is other than being an open kind it is possible to define what a painting is as a species of drawing regardless of whether that painting is an artwork or not at any given time The book demonstrates that things can be artworks on some occasions but not necessarily on others though it is easier for a thing to acquire artwork status than to lose it That is the movement of a thing into and out of the artworld is not symmetrical All such considerations are properly matters not of ontology what is and what is not an artwork but of use that is how a thing might or might not function as an artwork under any given circumstances These considerations necessarily affect the approach to paintings that at any given time might be able to function as an artwork or might not be able to function as such Only by taking these factors into account can anyone make viable knowledge about the past This

lively discussion ranges over innumerable examples of paintings from Rembrandt to Rothko as well as plenty of far less familiar material from contemporary Catholic devotional works to the Chinese avant garde Its aim is to enhance philosophical acuity in respect of the analysis of paintings and to increase their amenability to philosophically satisfying historical use Paintings and the Past is a must read for all advanced students and scholars concerned with philosophy of art aesthetics historical method and art history

The Netherlands: A History Derek B. Lange,2018-07-27 Here in this stirring vivid book historian Derek B Lange uses The Hague as the focal point for a sweeping panoramic history of the Netherlands One seventeenth century visitor called The Hague the mightiest village in Europe an epithet that could still be used today to describe this seat of Dutch government and home to its royal family That same visitor also called it one of the most beautiful villages in Europe no less correct for the same circumstances that rendered The Hague mighty despite its size also rendered the Netherlands wealthy The Netherlands owed its vast riches to the sea and it used that wealth not

only to attain power but also to attract artistic talent As the country came to be a leader on the world stage the so called Golden Age of the Netherlands encouraged the production of art and architecture of remarkable allure that is still on display today The history and people of this small country are explored through its rise to international prominence and then its development into one of the most tolerant and progressive countries in the world Tremaine Houses Volker M. Welter,2019-11-19 This volume analyzes the extraordinary patronage of modern architecture that the Tremaine family sustained for nearly four decades in the mid twentieth century From the late 1930s to the early 1970s two brothers Burton G Tremaine and Warren D Tremaine and their respective wives Emily Hall Tremaine and Katharine Williams Tremaine commissioned approximately thirty architecture and design projects Richard Neutra and Oscar Niemeyer designed the best known Tremaine houses Philip Johnson and Frank Lloyd Wright also created designs and buildings for the family that achieved iconic status in the modern movement Focusing on the Tremaines houses and other projects such as a visitor center at the meteor crater in Arizona this volume explores the Tremaines architectural patronage in terms of the family s motivations and values exposing patterns in what may appear as an eclectic collection of modern architecture Architectural historian Volker M Welter argues that the Tremaines patronage was not driven by any single factor rather it stemmed from a network of motives comprising the clients practical requirements their private and public lives and their ideas about architecture and art *About Modern Art* David Sylvester,2001-01-01 Internationally renowned art critic David Sylvester here muses on key artists of the twentieth century and their nineteenth century forebears In the process he offers profound insights into their practice of art and how we look at modern art Focusing on the spectator s instinctive emotional and physical response to paintings by such artists as Picasso Matisse de Kooning Newman and Warhol Sylvester brings an inspiring sense of the relevance and importance of art to life Essays on Pollock Twombly and Serra among others were selected by Sylvester to be added to this updated edition Book jacket **The 20th Century Go-N** Frank N. Magill,2014-03-05 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography New York Magazine ,1987-04-06 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **New York Magazine** ,1987-03-23 New York magazine was born

in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **A Dictionary of the Avant-Gardes** ,2013-05-13 A Dictionary of the Avant Gardes recognizes that change is a driving force in all the arts It covers major trends in music dance theater film visual art sculpture and performance art as well as architecture science and culture **Mondrian's Philosophy of Visual Rhythm** Eiichi Tosaki,2017-11-15 This volume investigates the meaning of visual rhythm through Piet Mondrian s unique approach to understanding rhythm in the compositional structure of painting drawing reference from philosophy aesthetics and Zen culture Its innovation lies in its reappraisal of a forgotten definition of rhythm as stasis or composition which can be traced back to ancient Greek thought This conception of rhythm the book argues can be demonstrated in terms of pictorial strategy through analysis of East Asian painting and calligraphy with which Greek thought on rhythm has identifiable commonalities The book demonstrates how these ideas about rhythm draw together various threads of intellectual development in the visual arts that cross disparate aesthetic cultural practices As an icon of early 20th Century Modernism Mondrian s neoplasticism is a serious painterly and philosophical achievement In his painting Mondrian was deeply influenced by Theosophy which took its influence from Eastern aesthetics particularly East Asian and Indian thought However Mondrian s approach to visual rhythm was so idiosyncratic that his contribution to studies of visual rhythm is often under recognized This volume shows that a close inspection of Mondrian s own writing thinking and painting has much to tell scholars about how to understand a long forgotten aspect of visual rhythm Rodin s famous criticism of photography athlete in motion is forever frozen can be applied to Muybridge s zoopraxiscope the Futurists rendition of stroboscopic images and Duchamp s Nude Descending a Staircase Through a comparative study between Mondrian s painting and these seminal works this volume initiates a new convention for the cognition of the surface of painting as visual rhythm Mondrian s simultaneous emphasis on the static and the rhythmic is hardly fodder for a publicist Eiichi Tosaki has taken on the challenge of elucidating Mondrian s theories of rhythm and particularly his conception of static rhythm The result is a tour de force that will forever alter the reader s encounter with the works of Mondrian Prof Kathleen Higgins
