Parliament,1838 **The Glitter of Gold** Marc Flandreau,2004-03-04 This book studies the so far unexplored operation of the international monetary system that prevailed before the emergence of the international gold standard in 1873 Conventional wisdom has it that the emergence of gold as a global anchor was both an inescapable and desirable evolution given the exchange rate stability it provided and Britain's economic predominance This study draws on a wealth of archival sources and abundant new statistical evidence fully detailed in the appendix to demonstrate that global exchange rate stability always prevailed before the making of the gold standard This was despite the heterogeneity among national monetary regimes based on gold silver or both The reason for the stability before the establishment of the gold standard is France's bimetallic system France by being in a position to trade gold for silver and vice versa effectively pegged the exchange rate between gold and silver at its legal ratio of 15 5 Part I of the book studies exactly how this mechanism worked Part II focuses on the respective behaviour of private concerns and arbitrageurs on the one hand and authorities such as the Bank of France on the other hand in order to underline the constraints and opportunities that were associated with bimetallism as an international regime Finally Part III provides a new view on the collapse of bimetallism and its replacement by a gold standard It is argued that bimetallism might well have survived and that the emergence of the gold standard was by no means inescapable Rather it resulted from a massive coordination failure at both national and international levels a failure that was a preview of the interwar collapse of the gold standard **Essays and Addresses on Economic Questions (1865-1893).** George Joachim Goschen (Viscount),1905 **Present Phases of the Currency Question** Horace White,1877 **Mr. George Combe's Doctrines on the Currency Question, Examined and Refuted** James Horsburgh Macdonald,1856 *The Currency Question, considered in relation to the Act of the 7th & 8th Victoria, chap. 32, commonly called the Bank Restriction Act ...
