Good Intentions Are Not Enough: Why We Fail At Helping Others Robin Boon Peng Low, 2016-10-18 Disaster strikes transforming cities and towns into graveyards and wastelands in a matter of minutes But help is on its way news channels and social media relay the information to all corners of the globe in real time mobilising hundreds of people and organisations to aid Yet with standard relief packages regardless of the location and a lack of effort taken to match volunteers skills with tasks just how effective are we at helping others Many people want to do good but they like to do it at their convenience These attempts at helping often fail and the blame invariably falls on the disaster victims rather than looking at the suitability of aid provided Such help offered without a thorough understanding of the context or the impact of actions can create situations that leave the victims worse off than before So how can we create real sustainable impact Most communities have a lot of unused human capacity

When offering help many aid providers fail to engage the local communities thus excluding a critical group of people with the knowledge of local ways and needs This book elaborates on a simple principle essential to effective aid Never Help Engage Enable Empower and Connect It is important that we fully understand the problem before we try to solve it and who better to help us with solutions than the local community Junior High and Middle School Talksheets-Updated! Crumroy, Stan Kukawka, Frank M. Witman, Paul D. Witman, 2023-09-19 A field tested guide to the management and finance of church congregations revised for a new generation Clergy are generally equipped to preach and provide spiritual care But when it comes to budgets insurance fire safety and church management many find themselves at a loss The Church Administration and Finance Manual is the classic guide to running a church written to answer key questions for clergy and lay leaders Not simply a theoretical resource the Manual provides suggestions for almost every aspect of parish administration position descriptions financial forms materials for stewardship and Christian education building use and safety issues employee record keeping and much more This revised edition offers guidance on many new topics that are of vital importance to churches including protecting children information security approaches to preventing and responding to violence planned giving social media and hybrid work and worship Whether clergy are just out of seminary or well seasoned in parish life the Manual is full of excellent guidelines tools and forms for improving the management of the parish Family Sexual Abuse Michael Quinn Patton, 1991-02-26 In the battle against family sexual abuse most studies and research findings have examined the problem on a national level but what about the studies that have been done at the local level With contributions from practitioners and researchers Family Sexual Abuse deftly explores the results of eleven research projects covering such issues as sibling incest the background of sexual offenders effects of sexual

abuse on children effects of offender removal from the home effects of reunification and the prognosis for incest offenders after treatment While large national studies provide information on major trends in family sexual abuse this five year look at Minnesota studies reflects the real impact of interventions in the context of local practitioners dealing with local problems As such these studies clearly demonstrate the significant contributions small studies and specific program evaluations can make to both research and practice in the field of family sexual abuse Family Sexual Abuse is a resource no practitioner or researcher in this field can afford to be without This book in contrast to most studies and research findings in the field of family sexual abuse which examine the problem on a national level presents the findings of 11 frontline enquiries conducted by practitioners and researchers under the auspices of the Family Sexual Abuse Project FSAP in Minnesota in the period 1985 1990 It is precisely this focus on the application of current knowledge and the lack of it interacting with changing social policy at a local level which provides this book with its distinctive contribution Journal of the British Association for Counselling In comparison to most edited volumes these articles are consistently well written This volume is worthwhile because these articles do not pretend to tell a simple story In his conclusion Michael Patton argues that the composite findings weave a mosaic of enormous complexity and in doing so these articles raise many questions and encourage much thought Journal of Marriage and the Family This is an extremely useful book for practitioners in the field of child sexual abuse with the bonus of practical advice for both researchers and practitioners on how to study the problems of child sexual abuse Child Abuse Review The spirit in which this book is written is the essence of a positive approach to research dissemination It aims to report on and share with a wide audience the findings of eleven small scale research studies undertaken in the state of Minnesota between 1985 and 1990 The book s appeal lies in its focus on wider application of knowledge to local policy and practice in the field of child protection A major feature of the work is the spirit of collaboration and openness to peer review in which the work was undertaken The book s rather dry title undervalues its rich and varied content Each chapter stands on its own or the book can be read as a whole Its strength is in the variety of material methodologies and issues presented Of particular interest to the reader is the study which investigates the extent of abuse among American Indian families The work was set up within an ethically sensitive framework and it provides an excellent model for the development of an anti racist research methodology Other chapters focus on the provocative issues of abuse indicators intergenerational and sibling abuse The accounts provide a clear unambiguous account of work undertaken and they raise important if uncomfortable questions about each of the areas under discussion There are five main strengths of this book First it challenges older and newer myths about the extent and nature of sexual abuse second it makes a considered analysis of the effects of abuse from a range of perspectives third it adds to our understanding of the reasons why men and women sexually abuse their children fourth it evaluates a range of treatment models and finally it clearly states issues for policy practice and further research The book also raises important issues in relation to methodology namely the need to

triangulate methods and to have specialist training for researchers involved in this area of research so that the voice of survivors can be heard and attended to The book will be of interest to a wide audience It merits extensive readership and debate It should be able to achieve both not least because of its accessible and thought provoking style British Journal of Social Work This book breaks new ground by investigating the impact of sexual abuse interventions at the local level This five year look at 11 independent research projects in Minnesota encompasses the spectrum of issues including the identification and effects of sexual abuse sibling incest the effects of family reunification and the treatment of sexual offenders and abuse survivors A significant contribution to the field Child Welfare

Preparing Couples for Love and Marriage Cameron Lee, James L. Furrow, 2013-10-15 Good preparation enables couples to take a first step together in facing their future challenges While no one can smooth away all the rough spots in the marital road ahead couples can be coached to pay attention to warning signs see the bumps before they hit them and deal more skillfully with inevitable conflicts This book provides pastors with a framework and tools for this ministry The good news is that you don't need any formal background in counseling because the kind of work we're talking about isn't counseling it's coaching a coach who can help couples to respond positively to the differences between them It's not about having the answers but is it about helping couples manage difficulties before they become serious threats to the marriage
