Jacquemin,H.W. de Jong,2012-12-06 This book originated at a meeting of American and European specialists in industrial organization at the Instituut voor Bedrijfskunde Nijenrode The Netherlands in August 1974 The conference endeavored to bring together re searchers in a field where paradoxically the underlying phenomena studied are increasingly coordinated and internationalized yet the observers remain pre dominantly isolated Only rarely do they resort to comparisons between coun tries and still less frequently to an analysis from a transnational outlook As the contributions to this collection demonstrate it has become clearer and clearer that whether or not as a result of a random process or of technological conditions or of deliberate enterprise strategy the determinants of market structures and their changes as time passes have created fundamentally similar effects in different countries resulting in industrial structures of the same kind Thus the largest firms and plants are found in the same sectors and the most concentrated industries are more or less the same from one country to the other The studies of Prais Reid Jacquemin Philips and Linda likewise show that a broad trend toward concentration has been manifest **Merger Standards Under U.S. Antitrust Laws** American Bar Association.
