This Must Be the Place Jesse Rifkin, 2023-07-11 Winner of the New York City Book Awards A Kirkus Best Book of July An InsideHook Book You Should Be Reading This July A fascinating history that examines how real estate gentrification community and the highs and lows of New York City itself shaped the city's music scenes from folk to house music Take a walk through almost any neighborhood in Manhattan and you'll likely pass some of the most significant clubs in American music history But you won't know it almost all of these venues have been demolished or repurposed leaving no record of what they were how they shaped music scenes or their impact on the neighborhoods around them Traditional music history tells us that famous scenes are created by brilliant singular artists But dig deeper and you'll find that they're actually created by cheap rent empty space and other unglamorous factors that allow artistic communities to flourish The 1960s folk scene would have never existed without access to Greenwich Village's Washington Square Park If the city hadn't gone bankrupt in 1975 there would have been no punk rock Brooklyn indie rock of the 2000s was only able to come together because of the borough's many empty warehouse spaces But these scenes are more than just moments of artistic genius they're also part of the urban gentrification cycle one that often displaces other communities and eventually the musicians themselves Drawing from over a hundred exclusive interviews with a wide range of musicians deejays and scenesters including members of Peter Dinklage's The Roots Mary White Zombie Moldy Peaches Sonic Youth Treacherous Three Cro Mags Sun Ra Arkestra and Suicide writer historian and tour guide Jesse Rifkin painstakingly reconstructs the physical history of numerous classic New York music scenes This Must Be the Place examines how these scenes came together and fell apart and shows how these communal artistic experiences are not just for rarefied geniuses but available to us all

Miscellaneous publications Berthold Laufer, 1927. **"Twice the Thrills! Twice the Chills!"** Bryan Senn, 2019-02-28. In the mid-1950s, to combat declining theater attendance, film distributors began releasing pre-packaged genre double bills, including many horror and science fiction double features. Though many of these films were low budget and low end, others such as *Invasion of the Body Snatchers*, *Horror of Dracula*, and *The Fly* became bona fide classics. Beginning with Universal International's 1955 pairing of *Revenge of the Creature* and *Cult of the Cobra*, 147 officially sanctioned horror and sci-fi double bills were released over a 20-year period. This book presents these double features year by year and includes production details, historical notes, and critical commentary for each film. **Monsters, Monstrosities, and the Monstrous in Culture and Society** Diego Compagna, Stefanie Steinhart, 2020-01-28. Existing research on monsters acknowledges the deep impact monsters have, especially on Politics, Gender, Life Sciences, Aesthetics, and Philosophy. From Sigmund Freud's essay *The Uncanny* to Scott Poole's *Monsters in America*, previous studies offer detailed insights about uncanny and immoral monsters. However, our anthology wants to overcome these restrictions by bringing together multidisciplinary authors with very different approaches to monsters and setting up variety and increasing diversification of thought as guiding patterns. Existing research hints that monsters are embedded in social and scientific exclusionary relationships but very seldom copes with them in detail. Erving Goffman's doesn't explicitly talk about monsters in his book *Stigma*, but his study is an exceptional case which shows that monsters are stigmatized by society because of their deviations from norms, but they can form groups with fellow monsters and develop techniques for handling their stigma. Our book is to be understood as a complement and a further development of previous studies. The essays of our anthology pay attention to mechanisms of inequality and exclusion concerning specific historical and present monsters based on their research materials within their specific frameworks in
