Monster Of The Madidi:

The Monster of the Madidi Simon Chapman, 2001 The hard evidence amounted to a grainy photo published in a 1929 London newspaper Sitting on a packing case propped up with a large stick was what purported to be the body of a giant ape the Mono Rey It was said to have inhabited the dense jungles of northern Bolivia around the Madidi river but the last person to explore the region the redoubtable Major Percy Harrison Fawcett back in the 1920s had since disappeared without a trace For Simon Chapman however the jungle is the only place to be and the denser and more remote the better Which is why Chapman along with two eccentric companions took an all too collapsible canoe into the swamps and rainforests of Bolivia to find the mythical monster of the Madidi By turns gripping comic and touching and with a superb awareness of the natural world The Monster of the Madidi marks the debut of an exceptional new travel writer
