Seven Montanas Ednor Therriault, 2019-09-17 The vast space of the American West that has been designated as the state of Montana is such a diverse and varied landscape that it s been said it could easily be sliced up into several smaller states And with its smorgasbord of industry history culture and the various worldviews held by its residents getting a bead on Montana s personality is a challenge That may be because Montana in fact has several fairly distinct personalities This book examines those personalities through the lens of seven geographic and cultural regions commonly recognized in the state While Montanans share a few attitudes and love of the land that attracts them to Big Sky country it s the differences between the regions that truly give the state its unique flavor Through interviews photos history and personal observations Therriault profiles each region and in the process gives a more complete view of the state as a whole Along the way the reader will learn why some people choose to live where they do how they view the rest of the state and what some of the factors are that give each region its singularity *Dressing In Feathers* S. Elizabeth Bird, 2018-02-02 One hundred members of NatChat an

electronic mail discussion group concerned with Native American issues responded to the recent Disney release Pocahontas by calling on parents to boycott the movie citing its historical inaccuracies and saying that Disney has let us down in a cruel irresponsible manner Their anger was rooted in the fact that although Disney had claimed that the film's portrayal of American Indians would be authentic the Pocahontas story the movie told was really white cultural myth The actual histories of the characters were replaced by mythic narratives depicting the crucial moments when aid was given to the white settlers As reconstructed the story serves to reassert for whites their right to be here easing any lingering guilt about the displacement of the native inhabitants To understand current imagery it is essential to understand the history of its making and these essays mesh to create a powerful interconnected account of image creation over the past 150 years The contributors who represent a range of disciplines and specialties reveal the distortions and fabrications white culture has imposed on significant historical and current events as represented by treasured artifacts such as photographic images taken of Sitting Bull following his surrender the national monument at the battlefield of Little Bighorn nineteenth century advertising the television phenomenon Northern Exposure and the film Dances with Wolves Well illustrated this volume demonstrates the complacency of white culture in its representation of its troubled relationship with American Indians
