Enlightenment Political Thought and Non-Western Societies Frederick G. Whelan, 2009-05-07 Frederick G Whelan a leading scholar of Enlightenment political thought provides an illuminating and incisive interpretation of key eighteenth and nineteenth century European political thinkers accounts and assessments of the societies and political institutes of the non Western world These writers opened up a major new comparative dimension for political theory and its project both to explain and evaluate different political regimes While the intellectual confrontation of European thinkers with alien cultures tended on the whole to confirm Westerners sense of the superiority of their own institutions it was also characterized during the Enlightenment more so than later by convictions regarding a common humanity and a corresponding sympathetic curiosity about different ways of life however primitive or exotic they might appear This book will be of interest to students and scholars of both political philosophy and thought as well as historians of this important period of history *Western Political Thought in Dialogue with Asia* Cary J. Nederman, Takashi Shogimen, 2008-12-16 Given the rise of globalization and coinciding increase in cultural clashes among diverse nations it has become eminently clear to scholars of political thought that there exists a critical gap in the knowledge of non Western philosophies and how Western thought has been influenced by them This gap has led to a severely diminished capacity of both state and nonstate actors to communicate effectively on a

global scale The political theorists area scholars and intellectual historians gathered here by Takashi Shogimen and Cary J Nederman examine the exchange of political ideas between Europe and Asia from the Middle Ages to the early twentieth century They establish the need for comparative political thought showing that in order to fully grasp the origins and achievements of the West historians of political thought must incorporate Asian political discourse and ideas into their understanding By engaging in comparative studies this volume proves the necessity of a cross disciplinary approach in guiding the study of the global history of political thought

Great Political Thinkers William Ebenstein, 1956

China in Early Enlightenment Political Thought Simon Kow, 2016-08-25 China in Early Enlightenment Political Thought examines the ideas of China in the works of three major thinkers in the early European Enlightenment of the late seventeenth to early eighteenth centuries Pierre Bayle Gottfried Wilhelm Leibniz and the Baron de Montesquieu Unlike

surveys which provide only cursory overviews of Enlightenment views of China or individual studies of each thinker which tend to address their conceptions of China in individual chapters this is the first book to provide in depth comparative analyses of these seminal Enlightenment thinkers that specifically link their views on China to their political concerns Against the backdrop especially of the Jesuit accounts of China which these philosophers read Bayle Leibniz and Montesquieu interpreted imperial China in three radically divergent ways as a tolerant atheistic monarchy as an exemplar of human and divine justice and as an exceptional but nonetheless corrupt despotic state The book thus shows how the development of political thought in the early Enlightenment was closely linked to the question of China as a positive or negative model for Europe and argues that revisiting Bayle s approach to China is a salutary corrective to the errors and presumptions in the thought of Leibniz and Montesquieu The book also discusses how Chinese reformers of the late nineteenth and early twentieth centuries drew on Enlightenment writers different views of China as they sought to envisage how China should be remodeled

Does China Matter? Barry Buzan,Rosemary Foot,2004-03-18 Developing the key work of Gerry Segal this book examines China in the context of the world economy the Asian economy as a global military power as a regional military power within world and Asian politics and within the contemporary world and Asian culture

Hegel and the State Franz Rosenzweig,2023-11-30 Franz Rosenzweig 1886 1929 is one of the most significant German Jewish philosophers of the twentieth century Published in German in 1920 and now finally available in English for the first time Hegel and the State is a major contribution to the understanding of Hegel s political and social thought and a profound analysis of the intellectual currents that shaped the German state in the late nineteenth and early twentieth centuries Through careful readings of Hegel s early handwritten manuscripts Rosenzweig shows that Hegel was wrestling with the problem of how to reconcile the subjectivity and freedom of the individual within a community and ultimately the political state According to Rosenzweig the route out of this conundrum chosen by Hegel shaped his mature political philosophy where he saw the relationship between the individual and the state as reciprocal At a deeper level the significance of Hegel and the State lies in the way that Rosenzweig explains the failure of Hegel s quasi communitarian view of the state to emerge due to the authoritarian direction of the newly unified German state under Bismarck Anticipating the political and moral disaster that was to follow Rosenzweig concludes by questioning the very viability of any theory of the state that relies on the pillars of bureaucratic militarism and a government supported capitalist business culture With the inclusion of a Foreword by Myriam Bienenstock and a substantial Afterword by Axel Honneth Hegel and the State is a ground breaking work of early twentieth century philosophical and political thought It is essential reading for students of Hegel German Idealism Jewish philosophy and the origins of critical theory It will also be of interest to those in related subjects such as the history of sociology and German and intellectual history
