an arid climate doesn't have to mean a yard full of rocks with a few cacti plunked in. With careful plant selection and thoughtful design you can create a low water landscape that's an oasis for humans and wildlife alike. There are hundreds of plants well suited to xeric conditions and with the proper care they create a living desert landscape that will stop passersby in their tracks. Let *Dry Climate Gardening* be your guide to crafting a climate appropriate outdoor living space that's the envy of the neighborhood whether you live in the American Southwest, the Mediterranean region or any other arid climate. Inside you'll find: The best arid adapted plants to feature in your landscape; Information on which plants struggle in dry climates and how to avoid them; The five desert seasons and which are best for planting; How to handle desert soils; Plant care techniques specific to dry climates including pruning, fertilizing and more; How to design a planting for maximum impact and minimal water needs; Plant profiles and charts for every category from trees and shrubs to groundcovers, vines, succulents and perennials; Sample garden designs and plant lists you can adapt to your own space. With water restrictions and the number of gardeners dealing with drought conditions on the rise, we all need to get more creative in the way we grow. Water wise landscaping is a must for millions of gardeners. In *Dry Climate Gardening* you'll learn how to do it with care and style.
