Treacy, 1999 **Proceedings in Print**, 1997 **Carbocyclic and Heterocyclic Cage Compounds and Their Building Blocks: Synthesis, Structure, Mechanism, and Theory** K.K. Laali, 1999-04-15 Carbocyclic and Heterocyclic Cage Compounds and their Building Blocks is the first independent Supplement in the series The collection of essays presented is very much at the forefront of research in this active area and

the topics discussed complement and evolve from the more general treatment in earlier volumes of the Series Furthermore it was appropriate to produce a collection of work at the cutting edge of the field where progress in heterocyclic cage compounds are discussed together in a single volume thus avoiding the organic versus organometallic barriers in an effort to raise more awareness concerning their similarities and differences Since phosphalkynes serve as building blocks for a host of phosphorus carbon cage compounds discussion of the versatile chemistry of phosphalkynes is relevant Likewise discussion of the versatile chemistry of phosphalkenes is appropriate since they function as synthetic precursors to phosphalkynes and are the products of electrophilic addition to phosphalkynes *NASA Conference Publication* ,1999
