Objections To Miracles Have No Basis In Reason:

The Divine Unity of Scripture Adolph Saphir, 1892 These lectures of Dr Saphir were delivered in Kensington at the close of 1889 and beginning of 1890 They are in some respects the most important of all his writings as they give in connected form his matured views of the relation of the two great divisions of the Bible No preacher or writer of our day had such a clear insight into the spirit and connection of the sacred writings This was the great charm of his preaching which made it so attractive to many earnest minded Christians of all churches Preface Hume and the Problem of Miracles: A Solution M.P. Levine, 2012-12-06 This book developed from sections of my doctoral dissertation The Possibility of Religious Knowledge Causation Coherentism and Foundationalism Brown University 1982 However it actually had its beginnings much earlier when as an undergraduate at the University of Virginia I first read Hume's *Of Miracles* and became interested in it Fascinated would be too strong My teacher put the following marginal comment in a paper I wrote about it Suppose someone told you that they had been impregnated by an angel whispering into their ear Wouldn't you think they had gone dotty She had spent time in England I thought about it I agreed that I would not have believed such testimony but did not think this had much to do with Hume's argument against belief in miracles What surprised me even more was the secondary literature I became convinced that Hume's argument was misunderstood My main thesis is established in Part I This explains Hume's argument against justified belief in miracles and shows how it follows from and is intrinsically connected with his more general metaphysics Part II Part I It should give the reader a more complete understanding builds on of both the structure of Hume's argument and of his crucial and questionable premises Chapters 5 and 11 are perhaps the most technical in the book but they are also the least necessary They can be skipped by the reader who is only interested in Hume on miracles **The Historical Argument for the Resurrection of Jesus During the Deist Controversy** William L. Craig, 2024-02-22 This volume provides the historical background to its companion volume *Assessing the New Testament Evidence for the Historicity of the Resurrection of Jesus* It traces the history of historical apologetics for Jesus' resurrection from the first century through the twentieth century focusing on its apogee during the Deist controversy in Europe It explores which of the traditional arguments on behalf of the historicity of Jesus' resurrection are obsolete and which still merit consideration today It includes a discussion of the problem of miracles both their possibility and identification which forms the backdrop for any contemporary case for the resurrection *The Lutheran Church Review* Henry Eyster Jacobs, Theodore Emanuel Schmauk, 1899 **Reason to Believe** Richard Purtill, 2009-09-03 Is religious belief reasonable Of course the so called New Atheists such as Richard Dawkins and Sam Harris energetically say No Many others including some believers insist that faith is utterly beyond reasoned argument Faith they declare is believing something that reason tells you can't be so In this way they think they shield belief from rational criticism But philosopher Richard Purtill will have none of that approach to religion In this newly updated classic work Purtill carefully applies the power of the mind to understanding whether there is a

rational basis for certain religious beliefs His focus is on widely held Christian beliefs although much of what he says applies also to other religious traditions Purtill assesses the common objections to religious belief the claims that religious tenets are nonsensical wishful thinking the result of gullibility immoral or refuted by modern discoveries Then he considers the arguments in favor of Christian belief by studying the nature of faith of the universe of morality of happiness and the world with God in it He also scrutinizes certain beliefs involving claims of Christian revelation the credentials of revelation the idea of God Jesus as God s Son organized religion and the last things death judgment heaven and hell The two appendices tackle the Christian doctrine of the Atonement and the influence of certain Christian writers on the revival of Christian belief in the 20th century An updated For Further Reading section is included Reason to Believe is not a work of revealed theology or religious devotion it is a highly readable book on the philosophy of religion aimed at the reader who wants to think seriously about religion but who doesn t know all the philosophers and theologians jargon and who may or may not be a committed believer

Gospel Perspectives, Volume 5 David Wenham,2004-03-29 In their search for the historical Jesus scholars have rightly focused their attention on the evidence of the four canonical gospels but they have often given insufficient attention to the importance of other early Christian writings This volume by an international team of authors writing under the auspices of the Tyndale House Gospels Research Project seeks to shed light on the gospels from outside the gospels It includes essays on Paul s use of the Jesus tradition the evidence of other New Testament writers the Gospel of Thomas the apocryphal gospels the apostolic fathers and on Jewish and classical traditions The essays break new ground in various respects and the volume as a whole which is concluded by Dr Richard Bauckham with an article on the problems and prospects of studying non canonical gospel traditions should prove a significant stimulus to ongoing research in this neglected area

Divine Providence Bruce R. Reichenbach,2016-09-08 We ask God to involve himself providentially in our lives yet we cherish our freedom to choose and act Employing both theological reflection and philosophical analysis the author explores how to resolve the interesting and provocative puzzles arising from these seemingly conflicting desires He inquires what sovereignty means and how sovereigns balance their power and prerogatives with the free responses of their subjects Since we are physically embodied in a physical world we also need to ask how this is compatible with our being free agents Providence raises questions about God s fundamental attributes The author considers what it means to affirm God s goodness as logically contingent how being almighty interfaces with God s self limitation and the persistent problems that arise from claiming that God foreknows the future Discussion of these divine properties spills over into the related issues of why God allows or even causes pain and suffering why if God is all knowing we need to petition God repeatedly and encounter so many unanswered prayers and how miracles as ways God acts in the world are possible and knowable Throughout the author looks at Scripture and attends to how providence deepens our understanding of God and enriches our lives

The Essence of Christianity Ludwig Feuerbach,2014-10-31 Example in this ebook 1 The Essential Nature of Man

Religion has its basis in the essential difference between man and the brute the brutes have no religion It is true that the old uncritical writers on natural history attributed to the elephant among other laudable qualities the virtue of religiousness but the religion of elephants belongs to the realm of fable Cuvier one of the greatest authorities on the animal kingdom assigns on the strength of his personal observations no higher grade of intelligence to the elephant than to the dog But what is this essential difference between man and the brute The most simple general and also the most popular answer to this question is consciousness but consciousness in the strict sense for the consciousness implied in the feeling of self as an individual in discrimination by the senses in the perception and even judgment of outward things according to definite sensible signs cannot be denied to the brutes Consciousness in the strictest sense is present only in a being to whom his species his essential nature is an object of thought The brute is indeed conscious of himself as an individual and he has accordingly the feeling of self as the common centre of successive sensations but not as a species hence he is without that consciousness which in its nature as in its name is akin to science Where there is this higher consciousness there is a capability of science Science is the cognisance of species In practical life we have to do with individuals in science with species But only a being to whom his own species his own nature is an object of thought can make the essential nature of other things or beings an object of thought Hence the brute has only a simple man a twofold life in the brute the inner life is one with the outer man has both an inner and an outer life The inner life of man is the life which has relation to his species to his general as distinguished from his individual nature Man thinks that is he converses with himself The brute can exercise no function which has relation to its species without another individual external to itself but man can perform the functions of thought and speech which strictly imply such a relation apart from another individual Man is himself at once I and thou he can put himself in the place of another for this reason that to him his species his essential nature and not merely his individuality is an object of thought Religion being identical with the distinctive characteristic of man is then identical with self consciousness with the consciousness which man has of his nature But religion expressed generally is consciousness of the infinite thus it is and can be nothing else than the consciousness which man has of his own not finite and limited but infinite nature A really finite being has not even the faintest adumbration still less consciousness of an infinite being for the limit of the nature is also the limit of the consciousness The consciousness of the caterpillar whose life is confined to a particular species of plant does not extend itself beyond this narrow domain It does indeed discriminate between this plant and other plants but more it knows not A consciousness so limited but on account of that very limitation so infallible we do not call consciousness but instinct Consciousness in the strict or proper sense is identical with consciousness of the infinite a limited consciousness is no consciousness consciousness is essentially infinite in its nature 1 The consciousness of the 3 infinite is nothing else than the consciousness of the infinity of the consciousness or in the consciousness of the infinite the conscious subject has for his object the infinity of his own nature To be continue in this ebook *Letters on the Grounds and Objects*

of Religious Knowledge John Rely Beard, 1856 Theological Lectures William Cunningham, 1878 **An Evangelical Adrift** Geertjan Zuidwegt, 2022-09-09 An Evangelical Adrift is a theological biography of John Henry Newman 1801 1890 that reconstructs the most formative period in his development the years between his teenage conversion to evangelicalism in 1816 and the beginning of the Tractarian Movement in 1833 By the early 1830s Newman had explicitly rejected much of the theology he espoused in the late 1810s and early 1820s and developed a highly original deeply personal and quite radical alternative whose fundamental notions continued to shape his thought in later life To date there is neither a historically accurate nor a theologically sophisticated account of this change the period in which it occurred is neglected its significance is overlooked its nature and content are misrepresented and its scope is narrowed The present study offers a compelling alternative to both mainline and revisionist interpretations Based on detailed historical and theological analysis of the whole range of primary sources including much neglected published and unpublished material it meticulously reconstructs Newman s youthful adoption of gradual departure from and theological alternative to evangelicalism Against most mainline studies it argues that this was a fundamental transformation affecting nearly every aspect of Newman s theology Against Turner and other revisionists it argues that this change was the product of careful and consistent theological reasoning and reflection and that anti liberalism was just as integral to it as anti evangelicalism *The Canadian Monthly and National Review* Graeme Mercer Adam, George Stewart, 1876 **Christian Collection: Scripture, History, Theology, Spirituality and Fiction** Saint Augustine, Pope Gregory I, Martin Luther, Friedrich Nietzsche, Thomas Paine, Leo Tolstoy, Athanasius of Alexandria, Gregory of Nyssa, John of Damascus, Thomas à Kempis, St. Teresa of Ávila, Brother Lawrence, David Hume, Ludwig Feuerbach, Charles Spurgeon, Andrew Murray, G.
