Redeeming Creation The Biblical Basis For Environmental Stewardship:

Redeeming Creation Fred H. Van Dyke, David C. Mahan, Joseph K. Sheldon, Raymond H. Brand, 1996-03-06 Biologists Fred Van Dyke David C Mahan Joseph K Sheldon and Raymond H Brand provide hope for today s environmental crisis and bring Scripture into dialogue with current scientific findings and commitments *Redeeming Creation* Fred Van Dyke, 1993-06-01 *Christian Faith and Environmental Stewardship* Daniel K. Lagat, 2019-03-15 This book covers the contribution of Christianity in the care stewardship and management of the environment It uses ideas from the logical position of a Christian created in God s image redeemed by God and given responsibility to subdue and keep the earth arguing that a Christian has the responsibility and mandate to care for the environment It shows that successful stewardship happens when a Christian is aware of God s intention for creation exerts effort to increase it and is expected to give an account to God for their actions toward it The book presents environmental concerns in Kenya as an opportunity for change describing situations and why they could become opportunities for change Seven worldviews are presented that discourage Christians who want to do environmental stewardship and Christian theological doctrines are discussed that could be used to cause ecclesial participation in environmental stewardship Finally the book envisions a Conserving Church with specific activities the church can do to successfully influence people to do environmental stewardship **The Nature of Environmental Stewardship** Johnny Wei-Bing Lin, 2016-12-29 Environmental issues appear deceptively simple science tells us what the problems are and how to solve them and for Christians the Bible motivates us to care for creation And yet both in society in general as well as in the Christian church in particular we cannot seem to agree on what to do regarding environmental issues In *The Nature of Environmental Stewardship* climate scientist Johnny Wei Bing Lin argues that determining the content of environmental stewardship far from being a straightforward exercise is a difficult and complex endeavour He sets forth a general taxonomy drawing from worldviews ethical theories science epistemology science policy studies politics and economics that can help us better understand what excellent creation care consists of and how to bridge the differences people have regarding environmental issues *Creation and the Environment* Calvin Redekop, 2003-04-01 Recent years have seen a shift in the belief that a religious world view specifically a Christian one precludes a commitment to environmentalism Whether as stewards of God s creation or champions of environmental justice church members have increasingly found that a strong pro ecology stand on environmental issues is an integral component of their faith But not all Christian denominations are latecomers to the issue of environmentalism In *Creation and the Environment* Calvin W Redekop and his co authors explain the unique environmental position of the Anabaptists in particular the Mennonites After a brief survey of the major forces contributing to the world s present ecological crisis *Creation and the Environment* explores the uniquely Anabaptist view of our relationship to what they see as the created order In rural Amish and Mennonite communities they explain the environment especially the land is considered part of the Kingdom God plans to establish on

earth In this view the creation is part of the divine order with the redemption of humankind inextricably linked to the redemption and restoration of the material world The well being a purpose of creation and human history are thus seen as completely interdependent Contributors Donovan Ackley III Claremont Graduate School Kenton Brubaker Eastern Mennonite University Thomas Finger Claremont Graduate School Karen Klassen Harder Bethel College Kansas James Harder Bethel College Kansas Lawrence Hart Cheyenne Cultural Center Clinton Oklahoma Theodore Hiebert McCormick Theological Seminary Karl Keener Pennsylvania State University Walter Klaassen Conrad Grebel College David Kline Holmes County Ohio Calvin W Redekop Conrad Grebel College Mel Schmidt Dorothy Jean Weaver Eastern Mennonite University Michael Yoder Northwestern College Iowa

Christians, the Care of Creation, and Global Climate Change Lindy Scott, 2008-03-01 Christians the Care of Creation and Global Climate Change is a wake up call for Christians and others It is a cogent and persuasive call to love God and our neighbors by caring for creation especially in light of the dramatic climate changes occurring before our eyes This book is not the final word on the subject but it is a sincere invitation to examine the scientific evidence for global warming and to respond with individual and collective faithful actions CONTRIBUTORS Douglas Allen Jeffrey K Greenberg P J Hill Sir John T Houghton A Duane Litfin Ben Lowe Vincent E Morris L Kristen Page Lindy Scott Noah J Toly

The Spirit Renews the Face of the Earth Amos Yong, 2009-04-01 The twelve chapters here represent both Pentecostal reflections responses to the science religion discussion and Pentecostal contributions to the ongoing exchange by biblical studies specialists historians and theologians among those trained in other disciplines Together the essayists model an actual dialogue in which Pentecostal scholarly reflection is impacted by science religion discourses on the one hand while Pentecostals reach deep into their own tradition to explore how their pre understandings and commitments might enable them to speak with their own voice into pre existing conversations on the other hand From publisher s description

Does God Care for Oxen? Ruben Alvarado, 2023-06-21 The doctrine of stewardship is one of the most oft proclaimed in the church today On its basis we understand it to be our Christian duty that we exercise stewardship over the planet God s creation Yet this doctrine is also among the least examined Critically important assumptions are made without any serious attempt to discover whether they are supported by Scripture and whether they can support the massive superstructure erected upon them For very serious claims are made on the basis of these assumptions whereby the church is

called to subscribe to a massively intrusive program to rectify offenses to nature it being the suffering victim of a rapacious human race Does the Bible call Christians indeed humanity to take up the role of planetary stewardship in order to preserve nature from mankind s hurtful intervention That is the question up for examination in this book **Salvation Means**

Creation Healed Howard A. Snyder, Joel Alan Scandrett, 2011-07-13 The Bible promises the renewal of all creation a new heaven and earth based on the incarnation life death and resurrection of Jesus Christ For centuries this promise has been sidelined or misunderstood because of the church s failure to grasp the full meaning of biblical teachings on creation and new creation The Bible tells the story of the broken and restored relationship between God people and land not just God and people This is the full gospel and it has the power to heal the church s long theological divorce between earth and heaven Jesus resurrection in the power of the Holy Spirit is the key and the church as Christ s body is the primary means by which God is reconciling all things through Jesus Christ Jesus ultimate healing of all creation is the great hope and promise of the gospel and he calls the church to be his healing community now through evangelism discipleship and prophetic mission
