The Foreign Office, Commerce and British Foreign Policy in the Twentieth Century John Fisher, Effie G. H. Pedaliu, Richard Smith, 2017-02-16 This book addresses the interface of the British Foreign Office foreign policy and commerce in the twentieth century Two related questions are considered what did the Foreign Office do to support British commerce and how did commerce influence British foreign policy The editors of this work collect a range of case studies that explore the attitude of the Foreign Office towards commerce and trade promotion against the backdrop of a century of relative economic decline while also considering the role of British diplomats in creating markets and supporting UK firms This highly researched and detailed examination is designed for readers aiming to comprehend the role that commerce played in Britain's foreign relations in a century when trade and commerce have become an inseparable element in foreign and security policies

of the First World War *The Political Economy of Empire in the Early Modern World* S. Reinert,P. Røge,2013-09-24 This collection of essays draws on fresh readings of classic texts as well as rigorous research in the archives of Europe s greatest imperial power Its contributors paint a powerful picture of the nature and implementation of political economy in the long eighteenth century from the East to the West Indies *Australia's Boldest Experiment* Stuart Macintyre,2015-06-01 In this landmark book Stuart Macintyre explains how a country traumatised by World War I hammered by the Depression and overstretched by World War II became a prosperous successful and growing society by the 1950s An extraordinary group of individuals notably John Curtin Ben Chifley Nugget Coombs John Dedman and Robert Menzies re made the country planning its reconstruction against a background of wartime sacrifice and austerity The other part of this triumphant story shows Australia on the world stage seeking to fashion a new world order that would bring peace and prosperity This book shows the 1940s to be a pivotal decade in Australia At the height of his powers Macintyre reminds us that key components of the society we take for granted work welfare health education immigration housing are not the result of military endeavour but policy planning politics and popular resolve *The Genesis of a Policy* Honae Cuffe,2021-11-16 The years 1921 57 marked a period of immense upheaval for Australia as the nation navigated economic crises the threat of aggressive Japanese expansion and shifting power distributions with the world transitioning from British leadership to that of the US This book offers a reassessment of Australia s foreign policy origins and maturation during these tumultuous years Successive Australian governments carefully observed these global and regional forces The policy that developed in response was an integrated one that is one that sought to balance Australia s particular geopolitical circumstances with great power relationships and in assessing the value of these relationships ensure that the nation s trade security and diplomatic interests were served Amid the economic and strategic uncertainty of the interwar years the Australian government acknowledged the shifting power distributions in the global and Asia Pacific orders and that neither the policies of Britain nor the US completely served the national interest The nation accordingly sought to intervene within the policies of the great powers to ensure its particular interests were secured This geopolitically informed interventionist approach which had its genesis in the 1930s is traced throughout the 1940s and 1950s highlighting Australia s gradual and uneven transition from the British world order to that of the US and the frank assessments made about which relationship best served Australia s interests The *Genesis of a Policy* identifies a comprehensive and pragmatic approach albeit not always effectively executed in Australian foreign policy tradition that has not been previously examined *The Greater Second World War* Andrew N. Buchanan,Ruth Lawlor,2025-04-15 The Greater Second World War challenges the traditional temporal and geographic frameworks of World War II expanding the timeline to include a series of regional conflicts and revolutions that began in 1931 and continued into the mid 1950s These conflicts bookended a central paroxysm defined by the intervention of the United States into every theater of the war rendering it genuinely global The essays within this volume bring top level accounts of US European and

Axis strategic maneuvering into conversation with social histories of bottom up agency in ways that destabilize conventional narratives Working with novel and overlapping scales of time and space and attuned to ongoing and lively debates about the place of the nation state in global history after 1945 the scholars featured in *The Greater Second World War* seek to not only describe the war's beginnings in Asia and Africa rather than in Europe but also trace its ends to the shatter zones of the Soviet frontier the struggles for sovereignty in contested spaces and the long reaches of US imperialism well into the late twentieth century Together their contributions reveal how the cascading imperial and economic crises of the mid twentieth century triggered a series of discrete local and regional struggles that took on the character of a singular unified world war after the entry of the United States into every theater and almost every corner of the world Contributors Marco Maria Aterrano Th W Bottelier Pablo del Hierro Alexandre Fortes Kelly A Hammond Ashley Jackson Naina Manjrekar David Motadel Tejasvi Nagaraja Martin Thomas
