Group of International Communists

FUNDAMENTAL PRINCIPLES OF COMMUNIST PRODUCTION AND DISTRIBUTION

"As simple as the basis for the domination of the working class is, as simple is the formulation for the abolition of wage slavery, so simple is the practical implementation of the abolition of wage slavery. This abolition can only consist in the abolition of the separation of work and the work product, that the right of disposal over the work product and the means of production is again given to the workers."

Redesigning The Communist Economy:

Redesigning the Communist Economy Paul M. Johnson, 1989 A comprehensive survey of economic reform in Eastern Europe with special reference to the 1960s and 1970s **The European Economy 1914-2000** Derek Aldcroft, 2002-01-10

As in earlier editions of this work Professor Aldcroft presents a succinct and lucid account of the development and problems of the European economy throughout the twentieth century The text divides into several clearly defined sub periods the aftermath of the First World War and reconstruction in the 1920s the depression and recovery of the 1930s the impact of the Second World War and the new division of Europe the postwar boom of the 1950s and 1960s the growth slowdown of the 1970s and the pervasive problems of inflation and unemployment Eastern Europe in the Postwar World NA

NA, 2016-04-30 **Economic Transformations in East and Central Europe** David F. Good, 1994-09-22 This book provides an invaluable guide to understanding the current problems of this volatile region demonstrating that the area's economic history over the last century has vital legacies for its economic future The European Economy Since 1914 Derek Aldcroft, Steven Morewood, 2012-12-07 The fifth edition of The European Economy provides a succinct and lucid account of the development and problems of the European economy since the first world war It covers the whole of Europe including Russia and Turkey The text divides into several clearly defined sub periods the impact and aftermath of the first world war and recovery and reconstruction during the 1920s the depression and the recovery of the 1930s the impact of the second world war and the new political division in Europe the post war boom of the 1950s and 1960s and then into the growth slowdown of the 1970s and the persistent problems of inflation and unemployment It then analyses the demise of the centrally planned economies of eastern Europe and the move to a more united Europe and then discusses the financial and economic problems that have emerged in the early twenty first century This new edition has been extensively revised new chapters have been added and the reading lists updated Though the volume is designed as a basic introductory text the authors elicit some of the lessons that can be learnt from a study of past development one of which is the limited power of governments to influence the course of events and to combat the operation of market forces **The Neoliberal Revolution in Eastern Europe** Paul Dragos Aligica, Anthony John Evans, 2009-01-01 Very few studies have ventured to explore the shift in economic ideas that were such a critical factor in shaping and understanding the East European transition process Paul Dragos Aligica and Anthony J Evans have seized upon the potential that this crucial case has to illuminate the larger phenomenon of diffusion and adoption of economic ideas Two different but related research agendas are developed the study of the spread of neoliberalism as seen from the perspective of Eastern European post communist evolutions and the study of Eastern European transition as seen from an ideas centered perspective Combining a distinctive synthesis of the existing data about the spread of neoliberal economic ideas in Central and Eastern Europe with an analysis of the processes at work the authors challenge a series of misunderstandings and myths about the spread of neoliberal economic ideas The disputed

topics include the myth of an Eastern European rush to embrace the theories and ideas that may be considered the mark of market fundamentalism the notion that a harsh neoliberal dogmatism was somehow imposed on the region from outside the idea that the standardization and regimentation of economic thinking was a result of the spread of the Western way of doing economics and the belief that the Eastern Europeans passively embraced this uniformity and standardization due to pressure from the Westerners This unusual synthesis will appeal to scholars in economics political science communist post communist studies and new institutionalism as well as policymakers

The European Economy Since 1914 Derek Howard Aldcroft, Steven Morewood, 2013 The European Economy Since 1914 provides an invaluable guide to the major economic

changes in both Western and Eastern Europe during the twentieth century

The European Economy 1914-1990 Derek Aldcroft, George Penelis, 1993-05-27 This new edition of The European Economy 1914 1980 has been up dated and revised to

take account of the decade 1980 90 and as such covers some of the most dramatic and profound economic events of the

twentieth century The European Economy 1914 1990 includes two additional chapters one dealing with the Western

European economies and in particular

Nation, State and the Economy in History Alice Teichova, Herbert Matis, 2003-05-08

Originally published in 2003 this book addresses the rarely explored subject of the reciprocal relationships between

nationalism nation and state building and economic change Analysis of the economic element in the building of nations and

states cannot be confined to Europe and therefore these diverse yet interlinked case studies cover all continents Authors

come to contrasting conclusions some regarding the economic factor as central while others show that nation states came

into being before the constitution of a national market The essays leave no doubt that the nation state is an historical

phenomenon and as such is liable to expiry both through the process of globalisation and through the development of a cyber

society which evades state control By contrast developments in southeastern Europe the former USSR and parts of Africa

and the Far East show that building the nation state has not run its course

How China is Reshaping the Global Economy Rhys Jenkins, 2022-06-16 China s growing economic involvement in Sub Saharan Africa and Latin America has

been a source of major controversy The official Chinese position maintains that the growth of bilateral relations is of mutual

benefit and provides a good example of South South cooperation Critics on the other hand see the economic relations

between China and other developing countries as highly unequal with most of the benefits accruing to China and a few local

elites They also point to negative socio economic political and environmental consequences How China is Reshaping the

Global Economy Development Impacts in Africa and Latin America throws more light on these controversies through a

comparative study of China s impact on the two regions It looks not just at bilateral relations between China and the two

regions but also analyses the changes in the global economy brought about as a result of the shift in economic activity from

North America and Western Europe to Asia This book looks at the factors which led to rapid economic growth in China and

the way in which this has affected global manufacturing commodity markets the international presence of Chinese companies

and financial flows. It examines the different forms of Chinese economic involvement in Sub Saharan Africa and Latin America, the main drivers and economic, social, political and environmental consequences. It ends with a comparison of the two regions that highlights the importance of different histories and political and institutional contexts in determining the impacts of China. Since the first edition of *How China is Reshaping the Global Economy*, China's role in the global economy has continued to expand and the Chinese government's foreign policy has become more assertive. The global presence of China has been marked by the expansion of the Belt and Road Initiative to almost 150 countries and the trade war between the US and China as well as increased Western concerns over the activities of major Chinese companies such as Huawei. This new edition documents these changes and their implications for SSA and LAC.

How China is Reshaping the Global Economy Rhys Owen Jenkins, 2019. China's growing economic involvement in Sub Saharan Africa and Latin America has been a source of major controversy. This book sheds light on these controversies through a comparative study of China's impact on the two regions.

Redesigning Defense DIANE Publishing Company, 1994-04. Reshaping Rogue States Alexander T.J. Lennon, Camille Eiss, 2004-07-09. An analysis of the policies of preemption and regime change as well as an examination of US policy options for dealing with each country in the axis of evil. In January 2002, President George W. Bush declared Iran, Iraq and North Korea constituents of an axis of evil. US strategy toward each of these countries has clearly varied, yet similar issues and policy options have emerged for US relations with all three. *Reshaping Rogue States* seeks to improve our understanding of Iran, Iraq and North Korea as well as of current and future policy options to combat the threats these nations pose. The book's comprehensive analysis of preemption and regime change debates the circumstances under which each policy might be justified or legal under international law. Prominent strategists and policymakers consider alternatives to preemption including prevention, counterproliferation and cooperative security and draw conclusions from efforts to bring about regime change in the past. *Reshaping Rogue States* also reviews the differing policy challenges presented by each so-called axis member. Specifically, it considers how the United States might strike a balance with North Korea through multilateral negotiations, the changes within Iran that call for changes in US policy and the dilemmas the United States faces in post-Saddam Iraq, including continuing insurgency, instability and the feasibility of democracy.

Strategic Triangles Reshaping International Relations in East Asia Gilbert Rozman, 2022-06-09. Rozman shows how East Asia's international relations over three decades can be best understood through the lens of triangles, analyzing relations between the key nations through a series of trilateral relationships. He argues that triangles present a convincing answer to the question of whether we had entered a new era of bipolarity like the Cold War or an age of multipolarity. Triangulation emerged as a dynamic in East Asia in the aftermath of the Cold War and was accelerated in the course of the Xi and Trump administrations. Even as Sino-US competition and confrontation deepened, triangles had a substantial presence. East Asian triangles share an unusual mixture of three distinct elements: deep-seated

security distrust extraordinary economic interdependence and a combustible composition of historical resentments and civilizational confidence The combination of the three makes the case for triangularity more compelling Rozman argues The legacy of communism the pursuit of reunification on the Korean Peninsula and moves to expand beyond the US Japan alliance have all driven the way triangles have evolved Only as bipolarity intensified in the 2020s was triangularity losing ground The degree of turnabout is analyzed for all of the cases considered Rozman evaluates each key triangle of states in turn and assesses how the relationship impacts the region more widely This book provides an essential framework for understanding the current state and trajectory of East Asian international relations for students and policymakers The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Reshaping the European Union Klaus Weber, Henning Ottmann, 2018-01-29 Das Buch schlägt eine tiefgreifende Reform der EU vor Defekte der EU werden identifiziert Die Vorschläge basieren auf den Konzepten begrenzter Supranationalität und einer ausgewogenen Sicht des Nationalstaats Die EU wird vor allem gebraucht für Frieden Wohlstand Kompensation der relativ geringen Größe und begrenzten Macht ihrer Mitgliedstaaten und zur Bewahrung grundlegender Prinzipien der westlichen Zivilisation Eine ausgewogene Sicht des Nationalstaats bedeutet Erhaltung der Vorteile des gut gestalteten Nationalstaats im Vergleich zur EU sowie Vermeidung von Nationalismus und Krieg Das Buch schlägt auch eine Neugestaltung der EU Rechtsetzung und der EU Verträge eine untergeordnete Rolle der Europäischen Kommission einen Court of Appeal und eine geänderte Zusammensetzung der Europäischen Zentralbank vor Möglichkeiten des Überlebens der Eurozone werden diskutiert Bei praktischer Realisierung dieser Vorschläge könnte sich die EU zukünftig in einem besseren Zustand befinden

The Political Economy of Asian Transition from Communism Sujian Guo, 2017-11-28 A comparative study of the political economy of the transition from communism in East and Southeast Asian countries China North Korea Vietnam Laos and Cambodia addressing the key theoretical questions generated from the debate between shock therapists and gradualists While accurately defining the pre reform model this book explores the causal variables that have contributed to reform efforts within Asia examining the significance of the sequencing of political and economic transition and the interplay between politics and the economy in determining variations in transition outcomes Comparing the real world experiences of transition nations in communist Asia with Eastern Europe prominent questions are brought to the fore will market capitalism or market socialism prevail after the grand failure of communism This book makes an important contribution to the political economy theory of comparative communist and post communist studies and provides detailed analytical insights that will prove influential in future theoretical work

Reshaping Poland's Community after Communism Helena Chmielewska-Szljajfer, 2018-06-14 Harnessing a cultural sociological approach to explore transformations in key social spheres in post 1989 Poland Chmielewska Szljajfer illuminates shifts in religiosity sympathy towards others and civic activity in post Communist Poland in the light of Western influence over elements of

Polish life Reshaping Poland's Community after Communism focuses on three major cases largely ignored in Polish scholarship 1 a hugely popular faux baroque Catholic shrine which illustrates new strategies adopted by the Polish Catholic Church to attract believers 2 Woodstock Station a widely known free charity music festival demonstrating new practices of sympathy towards strangers and 3 the emergence of national internet pro voting campaigns and small town watchdog websites which uncover changes in practical uses of civic engagement In exploring grass roots everyday negotiations of religiosity charity and civic engagement in contemporary Poland Chmielewska Szlajfer demonstrates how a country's cultural changes can suggest wider dramatic democratic transformation
