Theological Seminary **Constructions of Space III** Jorunn Økland, J. Cornelis de Vos, Karen J. Wenell, 2016-06-02

Constructions of Space III engages with the great variety of sacred spaces set out and given meaning in the texts of the Hebrew Bible early Jewish literature and the New Testament Spatial critical as well as anthropological philosophical and narrative perspectives are interacted with in creative ways and brought to bear on the spaces encountered within the texts Among the concepts and themes explored are oppositional aspects such as holiness and danger the profane fear and hope utopia and dystopia and purity and impurity The social and mythological significance of more grounded places such as Jerusalem and Egypt temples burial places and threshing floors is considered alongside more ethereal and symbolic spaces like those of heaven the last judgement and the kingdom of God What emerges is a dynamic and lively set of perspectives that illuminates relationships between texts spaces and communities **Ancient Laws and Contemporary Controversies**

Cheryl Anderson, 2009-11-16 The Ten Commandments condone slavery and Deuteronomy 22 deems the rape of an unmarried woman to injure her father rather than the woman herself While many Christians ignore most Old Testament laws as obsolete or irrelevant with others picking and choosing among them in support of specific political and social agendas it remains a basic tenet of Christian doctrine that the faith is contained in both the Old and the New Testament If the law is ignored an important aspect of the faith tradition is denied In Ancient Laws and Contemporary Controversies Cheryl B Anderson tackles this problem head on attempting to answer the question whether the laws of the Old Testament are authoritative for Christians today The issue is crucial some Christians actually believe that the New Testament abolishes the law or that the Protestant reformers Luther Calvin and Wesley rejected the law Acknowledging the deeply problematic nature of some Old Testament law especially as it applies to women the poor and homosexuals Anderson finds that contemporary controversies are the result of such groups now expressing their own realities and faith perspectives Anderson suggests that we approach biblical law in much the same way that we approach the U S Constitution While the nation's founding fathers all privileged white men did not have the poor women or people of color in mind when they referred in its preamble to We the people Subsequently the Constitution has evolved through amendment and interpretation to include those who were initially excluded Although it is impossible to amend the biblical texts themselves the way in which they are interpreted can and should change With previous scholarship grounded in the Old Testament as well as critical legal and feminist theory Anderson is uniquely qualified to apply insights from contemporary law to the interpretive history of biblical law and to draw out their implications for issues of gender class and race ethnicity In so doing she lays the groundwork for an inclusive mode of biblical interpretation O Mother, Where Art Thou? Julie Kelso, 2016-06-16 According to Kelso the Book of Chronicles silences women in specific ways most radically through their association with maternity Drawing on the work of two feminist philosophers Luce Irigaray and Michelle Boulous Walker she argues that we may discern two principal strategies of silencing women in Chronicles disavowal and repression of the maternal body In its simplest form the silencing of women takes place

through both an explicit and implicit strategy of excluding them from the central action Largely banished from the central action they are hardly able to contribute to the production of Israel's past On a more complex level however women are most effectively silenced through their association with maternity because the maternal body is both disavowed and repressed in Chronicles The association of women with maternity along with the disavowal and repression of the maternal body as origin of the masculine subject effects and guarantees the silence of the feminine enabling man to imagine himself as sole producer of his world These strategies of silencing the feminine need to be understood in relation to the relative absence of women from the narrative world of Chronicles Kelso argues that Chronicles depends on the absence and silence of women for its imaginary coherence This argument is enabled by Irigarayan theory But more importantly Kelso suggests that Irigaray also offers us a viable mode not method of reading writing listening and speaking as woman whatever that might mean in relation to the so called origins of western culture specifically the Hebrew Bible or Old Testament She argues that Irigaray enables a not only rigorous feminist critique of patriarchy and its many texts but also somewhat more charitably a mode of reading that enables women to read the past differently seeking out what remains to be discovered especially the forgotten future in the past

Atomic Fossils Stephen Dustin, 2000-10-17 *Atomic Fossils* is a fast paced thriller you won't be able to put down The U S government covertly excavates the wreckage of a mysterious ancient aircraft uncovering a baffling assortment of artifacts Half a world away nuclear war rages in the Middle East drawing the U S and Russia closer to global confrontation with each passing hour One man discovers a secret in the wreckage a secret so powerful it could avert the impending worldwide catastrophe To reveal the secret however he must not only place his own life on the line but also the lives of his family and there is no guarantee it will make any difference in the end

Prophetic Otherness Steed Vernyl Davidson, Daniel Timmer, 2021-05-06 This collection argues that the final form of prophetic texts attempts a picture of stability of a new world that emerges in the aftermath of the turbulent experiences of Israel Judah's history sustained by a coherent community and identity The essays within both describe and analyse the various categories of otherness in prophetic literature which threaten such an identity displaying the complex and contradictory nature of such depictions particularly given the reality that these texts emerge from communities considered other The contributors provide an interdisciplinary exploration of otherness that draws upon multiple insights into the conception and expression of the other beyond obvious examples traditionally examined in Biblical Studies Touching upon the rhetoric associated with identity markers such as space race ethnicity gender and religious activity *Prophetic Otherness* allows for further consideration of the ethics of the prophetic corpus and its understanding of fairness and justice in relation to broad communities

Patience—A Theological Exploration Paul Dafydd Jones, 2022-11-17 What does it mean to exercise patience What does it mean to endure to wait and to persevere and on other occasions to reject patience in favor of resistance haste and disruptive action And what might it mean to describe God as patient Might patience play a leading role in a Christian account

of God's creative work, God's relationship to ancient Israel, God's governance of history, and God's saving activity. The first instalment of *Patience: A Theological Exploration* engages these questions in searching, imaginative, and sometimes surprising ways. Following reflections on the biblical witness and the nature of constructive theological inquiry, its interpretative chapters engage landmark works by a number of ancient, medieval, modern, and contemporary authors, disclosing both the promise and peril of talk about patience. *Patience* stands at the center of this innovative account of God's creative work, God's relationship with ancient Israel, creaturely sin, scripture, and God's broader providential and salvific purposes.

Are We Not Men? Rhiannon Graybill, 2016-11-24. *Are We Not Men?* offers an innovative approach to gender and embodiment in the Hebrew Bible, revealing the male body as a source of persistent difficulty for the Hebrew prophets. Drawing together key moments in prophetic embodiment, Graybill demonstrates that the prophetic body is a queer body, and its very instability makes possible new understandings of biblical masculinity. Prophecy disrupts the performance of masculinity and demands new ways of inhabiting the body and negotiating gender. Graybill explores prophetic masculinity through critical readings of a number of prophetic bodies, including Isaiah, Moses, Hosea, Jeremiah, and Ezekiel. In addition to close readings of the biblical texts, this account engages with modern intertexts drawn from philosophy, psychoanalysis, and horror films. Isaiah meets the poetry of Anne Carson; Hosea is seen through the lens of possession films and feminist film theory; Jeremiah intersects with psychoanalytic discourses of hysteria; and Ezekiel encounters Daniel Paul Schreber's *Memoirs of My Nervous Illness*. Graybill also offers a careful analysis of the body of Moses. Her methods highlight unexpected features of the biblical texts and illuminate the peculiar intersections of masculinity, prophecy, and the body in and beyond the Hebrew Bible. This assembly of prophets' bodies and readings makes clear that attending to prophecy and to prophetic masculinity is an important task for queer reading. Biblical prophecy engenders new forms of masculinity and embodiment. *Are We Not Men?* offers a valuable map of this still uncharted terrain.
