Rediscovering Magical Realism In The Americas:

Rediscovering Magical Realism in the Americas Shannin Schroeder, 2004-10-30 Drawing from a variety of contemporary literature including such works as *One Hundred Years of Solitude*, *Beloved* and *Like Water for Chocolate* Schroeder explores magical realism as one of many common denominators in the literature of the Americas challenging the notion that magical realism should be defined merely in terms of geography or Latin American history By relying on an all encompassing vision of this unique mode of writing the author argues that the Americas share a literary tradition and validates the North American strain of the mode In addition she points to fundamentally similar approaches to fiction that illustrate the ways in which the Americas share a common literature and calls for increased Pan American scholarship Counteracting the critical tendency to label anything unreal or supernatural in literature as magical realism Schroeder traces the mode through a variety of contemporary works including well known and lesser known examples Through a carefully articulated history and description of the mode itself she is able to show that while Latin American and North American fiction share in common certain features of magical realism their distinctive approaches to it reflect Latin America's third world concerns and North America's preoccupation with popular culture and capitalism Tracing the forces of change at work on the mode in an effort to counter the tendency among scholars to apply the label without justification this book reclaims magical realism as a current and significant term for use in its application to literary works *Rediscovering the Americas* Shannin Schroeder, 1999

Magical Realism in Postcolonial British Fiction Taner Can, 2014-06-01 This study aims at delineating the cultural work of magical realism as a dominant narrative mode in postcolonial British fiction through a detailed analysis of four magical realist novels Salman Rushdie s *Midnight s Children* 1981 Shashi Tharoor s *The Great Indian Novel* 1989 Ben Okri s *The Famished Road* 1991 and Syl Cheney Coker s *The Last Harmattan of Alusine Dunbar* 1990 The main focus of attention lies on the ways in which the novelists in question have exploited the potentials of magical realism to represent their hybrid cultural and national identities To provide the necessary historical context for the

discussion the author first traces the development of magical realism from its origins in European Painting to its appropriation into literature by European and Latin American writers and explores the contested definitions of magical realism and the critical questions surrounding them He then proceeds to analyze the relationship between the paradigmatic turn that took place in postcolonial literatures in the 1980s and the concomitant rise of magical realism as the literary expression of Third World countries

Spectrality in the Novels of Toni Morrison Melanie R. Anderson, 2013-03-30 At first glance Beloved would appear to be the only ghost story among Toni Morrison s nine novels but as this provocative new study shows spectral presences and places abound in the celebrated author s fiction Melanie R Anderson explores how Morrison uses specters to bring the traumas of African American life to the forefront highlighting histories and experiences both cultural and personal that society at large too frequently ignores Working against the background of magical realism while simultaneously expanding notions of the supernatural within American and African American writing Morrison peoples her novels with what Anderson identifies as two distinctive types of ghosts spectral figures and social ghosts Deconstructing Western binaries Morrison uses the spectral to indicate power through its transcendence of corporality temporality and explication and she employs the ghostly as a metaphor of erasure for living characters who are marginalized and haunt the edges of their communities The interaction of these social ghosts with the spectral presences functions as a transformative healing process that draws the marginalized figure out of the shadows and creates links across ruptures between generations and between past and present life and death This book examines how these relationships become increasingly more prominent in the novelist s canon from their beginnings in The Bluest Eye and Sula to their flowering in the trilogy that comprises Beloved Jazz and Paradise and onward into A Mercy An important contribution to the understanding of one of America s premier fiction writers Spectrality in the Novels of Toni Morrison demonstrates how the Nobel laureate s powerful and challenging works give presence to the invisible voice to the previously silenced and agency to the oppressed outsiders who are refused a space in which to narrate their stories Melanie R Anderson is an Instructional Assistant Professor of American Literature at the University of Mississippi

Magical Realism Lois Parkinson Zamora, Wendy B. Faris, 1995 On magical realism in literature Lost Homelands Audrey Goodman, 2022-02-08

Before the 1930s landscapes of the American Southwest represented the migrant's dream of a stable and bountiful homeland. Around the time of the Great Depression, however, the Southwest suddenly became integrated into a much larger economic and cultural system. Audrey Goodman examines how, since that time, these southwestern landscapes have come to reveal the resulting fragmentation of identity and community. Through analyzing a variety of texts and images, Goodman illuminates the ways that modern forces such as militarization, environmental degradation, internal migration, and an increased border patrol presence have shattered the perception of a secure homeland in the Southwest. The deceptive natural beauty of the Southwest deserts shields a dark history of trauma and decimation that has remained as a shadow on the region's psyche. The first to really synthesize such wide-ranging material about the effects of the atomic age in the Southwest, Goodman realizes the value of combined visual and verbal art and uses it to put forth her own original ideas about reconstructing a new sense of homeland. *Lost Homelands* reminds us of the adversity and dislocation suffered by people of the Southwest by looking at the ways that artists, photographers, filmmakers, and writers have grappled with these problems for decades. In assessing the ruination of the region, however, Goodman argues that those same artists and writers have begun to reassemble a new sense of homeland from these fragments.
