## **Reed Field Guide To New Zealand Birds:**

The Reed Field Guide to New Zealand Birds Geoff Moon, 1996 New Zealand's most experienced bird photographer has now produced a splendid field guide to all the birds found on mainland New Zealand. The result of many years of painstaking fieldwork, the book contains more than 360 photographs and is the first photographic field guide to the birds of New Zealand. The information in the book includes both common and up-to-date scientific names together with descriptions of each bird's habitat, distribution, physical characteristics, voice, diet, and breeding habits. Where relevant, plumage differences between the sexes are illustrated. A glossary and a helpful section on bird watching equipment complete an invaluable field guide that no bird watcher, tramp, nature enthusiast, or photographer will want to be without. New Zealand Bird Views :

OYSTERCATCHERS Raewyn Adams, 2013 The New Zealand bird views series highlights the common birds in New Zealand, the birds we view every day but tend to take for granted because they are always there. This volume presents over 100 previously unpublished photographs of the two species of common oystercatcher in New Zealand: South Island pied oystercatcher and SIO Variable oystercatcher. The book shows birds flying, feeding, nesting, and raising their young. The text provides some background detail, and the photos are used to illustrate the birds' lives as much as possible.
