World Order, Black Power Politics Robert Vitalis, 2015-12-09 Racism and imperialism are the twin forces that propelled the course of the United States in the world in the early twentieth century and in turn affected the way that diplomatic history and international relations were taught and understood in the American academy Evolutionary theory social Darwinism and racial anthropology had been dominant doctrines in international relations from its beginnings racist attitudes informed research priorities and were embedded in newly formed professional organizations In White World Order Black Power Politics Robert Vitalis recovers the arguments texts and institution building of an extraordinary group of professors at Howard University including Alain Locke Ralph Bunche Rayford Logan Eric Williams and Merze Tate who was the first black female professor of political science in the country Within the rigidly segregated profession the Howard School of International Relations represented the most important center of opposition to racism and the focal point for theorizing feasible alternatives to dependency and domination for Africans and African Americans through the early 1960s Vitalis pairs the contributions of white and black scholars to reconstitute forgotten historical dialogues and show the critical role played by race in the formation of international relations Red Friends John Sexton, 2023-02-21 The story of the friends and allies

of the Chinese Revolution China's resistance to Imperial Japan was the other great internationalist cause of the red 1930s along with the Spanish Civil War These desperate and bloody struggles were personified in the lives of Norman Bethune and others who volunteered in both conflicts The story of Red Friends starts in the 1920s when encouraged by the newly formed Communist International Chinese nationalists and leftists united to fight warlords and foreign domination John Sexton has unearthed the histories of foreigners who joined the Chinese revolution He follows Comintern militants journalists spies adventurers Trotskyists and mission kids whose involvement helped and sometimes hindered China's revolutionaries Most were internationalists who while strongly identifying with China's struggle saw it as just one theatre in a world revolution The present rulers in Beijing however buoyed by China's powerhouse economy commemorate them as foreign friends who aided China's peaceful rise to great power status Founded on original research it is a stirring story of idealists struggling against the odds to found a better future The author's interviews with survivors and descendants add colour and humanity to lives both heroic and tragic **The Chinese Communist Party During the Cultural Revolution** P. Lubell, 2001-12-17 In

1936 a group of Chinese communists were released from jail after a humiliating renunciation of communism The Chinese Communist Party then secretly employed them to galvanise support in nationalist areas of the country It later condemned the

members of this group as renegades before finally rehabilitating them in 1978 Pamela Lubell uncovers the fascinating history of these communists known as the Sixty one and in doing so produces a revealing account of the tensions within the Chinese Communist Party

Facing Japan Parks M. Coble, 2020-03-17 In *Facing Japan* Parks M Coble focuses on how events that took place during the Japanese occupation of Manchuria from 1931 until war erupted in 1937 affected the Chinese government and public opinion Both in the places where incidents occurred and in other centres of power Japanese threats attacks and economic demands pressed Nationalist China relentlessly and aroused popular indignation Throughout most of the period Chiang kai Shek was trying to wrest control of China from all domestic rivals Aware that his army was inferior to Japan s his Nationalist government repeatedly made concessions in response to Japanese provocations Chiang busied himself with anti Communist campaigns leaving others to take public responsibility for his unpopular appeasement policies For such crises as the Mukden Incident and the Japanese attack on Shanghai Coble examines the tension that Chiang s policy caused within the Kuomintang and the alternatives put forward by other major leaders both inside and outside the government To further explore the political complexities of the day Coble traces the actions of regional leaders and their constantly changing relations to the central government in Nanking reviews editorials of various newspapers and chronicles the actions of student organizations and patriotic associations

The Black Pacific Narrative Etsuko Taketani, 2014-11-04 *The Black Pacific Narrative* Geographic Imaginings of Race and Empire between the World Wars chronicles the profound shift in geographic imaginings that occurred in African American culture as the United States evolved into a bioceanic global power The author examines the narrative of the black Pacific _the literary and cultural production of African American narratives in the face of America s efforts to internationalize the Pacific

and to institute a Pacific Community reflecting a vision of a hemispheric regional order initiated and led by the United States. The black Pacific was imagined in counterpoint to this regional order in the making which would ultimately be challenged by the Pacific War. The principal subjects of study include such literary and cultural figures as James Weldon Johnson, George S. Schuyler, artists of the black Federal Theatre Project, Langston Hughes, W. E. B. Du Bois, and Walter White, all of whom afford significant points of entry to a critical understanding of the stakes of the black Pacific narrative. Adopting an approach that mixes the archival and the interpretive, the author seeks to recover the black Pacific produced by African American narratives, narratives that were significant enough in their time to warrant surveillance and suspicion and hence are significant enough in our time to warrant scholarly attention and reappraisal. A compelling study that will appeal to a broad international audience of students and scholars of American studies, African American studies, American literature, and imperialism and colonialism.

Cosmopolitan Publics Shuang Shen, 2009-04-08 Early twentieth century China paired the local community to the world, a place and time when English dominated urban-centered higher and secondary education and Chinese edited English language magazines surfaced as a new form of translingual practice. *Cosmopolitan Publics* focuses on China's cosmopolitans: Western-educated intellectuals who returned to Shanghai in the late 1920s to publish in English and who ultimately became both cultural translators and citizens of the wider world. Shuang Shen highlights their work in publications such as *The China Critic* and *T'ien Hsia*, providing readers with a broader understanding of the role and function of cultural mixing, translation, and multilingualism in China's cultural modernity. Decades later, as nationalist biases and political restrictions emerged within China, the influence of the cosmopolitans was neglected, and the significance of cosmopolitan practice was underplayed. Shen's encompassing study revisits and presents the experience of Chinese modernity as far more heterogeneous, emergent, and transnational than it has been characterized until now.

Jewish Identities in East and Southeast Asia Jonathan Goldstein, 2015-11-13 The Jewish communities of East and Southeast Asia display an impressive diversity. Jonathan Goldstein's book covers the period from 1750 and focuses on seven of the area's largest cities and trading emporia: Singapore, Manila, Taipei, Harbin, Shanghai, Rangoon, and Surabaya. The book isolates five factors which contributed to the formation of transnational, multiethnic, and multicultural identity: memory, colonialism, regional nationalism, socialism, and Zionism. It emphasizes those factors which preserved specifically Judaic aspects of identity. Drawing extensively on interviews conducted in all seven cities, as well as governmental, institutional, commercial, and personal archives, censuses, and cemetery data, the book provides overviews of communal life and intimate portraits of leading individuals and families. Jews were engaged in everything from business and finance to revolutionary activity. Some collaborated with the Japanese while others confronted them on the battlefield. The book attempts to treat fully and fairly the wide spectrum of Jewish experience, ranging from that of the ultra-Orthodox to the completely secular.
