Reflections And Perspectives:

Fieldwork in Geography: Reflections, Perspectives and Actions Rod Gerber, Goh Kim Chuan, 2013-03-14

Geographers regard fieldwork as a vital instrument for understanding our world through direct experience for gathering basic data about this world and as a fundamental method for enacting geographical education The range of international geography and educational experts who contributed to this volume has demonstrated that the concept of fieldwork has a considerable history in the field of geography They have demonstrated that the theoretical aspects of fieldwork have been interpreted differently in regions around the world but the importance of fieldwork remains strong globally A fresh look at the pedagogic implications for fieldwork in formal education offers ideas both for promoting it in geographical education and for maintaining its place in the geography curriculum Audience Forward looking geographers and educators now recognise that alternative strategies especially those involving the use of information technology should be developed to reaffirm the centrality of fieldwork in geographical and wider education

Reflections and perspectives Elmer Daniel Klemke, 2019-01-29 No detailed description available for Reflections and perspectives *Discourses on Professional Learning* Christian Harteis, Andreas Rausch, Jürgen Seifried, 2014-06-30 This book analyses and elaborates on learning processes within work environments and explores professional learning It presents research indicating general characteristics of the work environment that support learning as well as barriers to workplace learning Themes of professional development lifelong learning and business organisation emerge through the chapters and contributions explore theoretical and empirical analyses on the boundary between working and learning in various contexts and with various methodological approaches Readers will discover how current workplace learning approaches can emphasise the learning potential of the work environment and how workplaces can combine the application of competence that is working with its acquisition or learning Through these chapters we learn about the educational challenge to design workplaces as environments of rich learning potential without neglecting business demands Expert authors explore how learning and working are both to be considered as two common aspects of an individual's activity Complexity significance integrity and variety of assigned work tasks as well as scope of action interaction and feedback within its processing turn out to be crucial work characteristics amongst others revealed in these chapters Part of the Professional and Practice based Learning series this book will appeal to anyone with an interest in workplaces as learning environments those within government community or business agencies and within the research communities in education psychology sociology and business management will find it of great interest
