Control and Cure Mark E. Jemy, 2025-10-13 *Mirrors of Madness* is a historical investigation into the strange and unsettling use of mirrors within the asylums of the 19th and early 20th centuries. The book argues that mirrors in these institutions were not for vanity but were integral parts of a grand terrifying experiment. It explores how asylum architects and doctors used reflections as tools for control, cure, and a strange form of psychological warfare from using them for surveillance (The Unblinking Eye) to applying them in therapeutic theories like the Narcissus Cure. The narrative delves into the patient's experience, treating the asylum as a theater of the mind where one's own reflection could become a prison or a path to a fragile cure.

Reflections on / of Dickens Ewa Kujawska-Lis, Anna Krawczyk-Łaskarzewska, 2014-07-24 This collection of new essays draws attention to the various and complex ways in which scholars and critics have reflected upon and reacted to Charles Dickens's texts, including his novels, short fiction, and journalism. Subsequent to the initial publication of Dickens's works, writers, visual artists, and filmmakers have reimagined, transposed, and transformed them from the mid-nineteenth century to the present. Although *Reflections on / of Dickens* recognizes the writer's importance as first and foremost a major figure in literature, it nevertheless offers a uniquely vast array of approaches to his literary output, ranging from intertextual and generic strategies through gender studies, translation studies, and comparative literary studies to issues connected with reception, popular culture, visual culture, and performing arts. The diverse thematic preoccupations present in this highly interdisciplinary volume attest to Dickens's central position in the British canon and his global appeal, while at the same time narrowing the gap between traditional textual analysis and more contextualised readings of his oeuvre, taking into account the socio-cultural and historical circumstances thanks to which his literary reputation continues to flourish.

The Walking Dead and Philosophy Wayne Yuen, 2012 *The Walking Dead* is both a hugely successful comics series and a popular TV show. This epic story of a zombie apocalypse is unique. It focuses on the long-term individual, social, and moral consequences of survival by small groups of humans in a world overrun by infected zombies. Guns, chainsaws, and machetes are not enough for survival; humans also need agreement on rules of conduct. Can equality or fairness have any place in the post-apocalyptic world? Do theft or even assault and murder become okay under desperate circumstances? Who should be recognized as having political authority? What about eating human flesh? Should survivors have children?

Learning As Self-organization Karl H. Pribram, Joseph S. King, 2013-06-17 A year before his death, B. F. Skinner wrote that "There are two unavoidable gaps in any behavioral account: one between the stimulating action of the environment and the response of the organism, and one between consequences and the resulting change in behavior. Only brain science can fill those gaps. In doing so, it completes the account; it does not give a different account of the same thing." This declaration ended the epoch of radical behaviorism to the extent that it was based on the doctrine of the empty organism, the doctrine that a behavioral science must be

constructed purely on its own level of investigation However Skinner was not completely correct in his assessment Brain science on its own can no more fill the gaps than can single level behavioral science It is the relation between data and formulations developed in the brain and the behavioral sciences that is needed This volume is the result of The Fourth Appalachian Conference on Behavioral Neurodynamics the first three of which were aimed at filling Skinner s first gap Taking the series in a new direction the aim of the fourth and subsequent conferences is to explore the second of the gaps in the behavioral account noted by Skinner The aim of this conference was to explore the aphorism The motivation for learning is self organization In keeping with this aim and in the spirit of previous events this conference s mission was to acquaint scientists working in one discipline with the work going on in other disciplines that is relevant to both As a result it brought together those who are making advances on the behavioral level mainly working in the tradition of operant conditioning and those working with brains mainly amygdala hippocampus and far frontal cortex

The Face Dean Koontz, 2007-06-29 Acknowledged as America s most popular suspense novelist Rolling Stone and as one of today s most celebrated and successful writers Dean Koontz has earned the devotion of millions of readers around the world and the praise of critics everywhere for tales of character mystery and adventure that strike to the core of what it means to be human Now he delivers the page turner of the season an unforgettable journey to the heart of darkness and to the pinnacle of grace at once chilling and wickedly funny a brilliantly observed chronicle of good and evil in our time of illusion and everlasting truth He s Hollywood s most dazzling star whose flawless countenance inspires the worship of millions and fires the hatred of one twisted soul His perfectly ordered existence is under siege as a series of terrifying enigmatic messages breaches the exquisitely calibrated security systems of his legendary Bel Air estate The boxes

arrive mysteriously one by one at Channing Manheim's fortified compound. The threat implicit in their bizarre disturbing contents seems to escalate with each new delivery. Manheim's security chief, ex-cop Ethan Truman, is used to looking beneath the surface of things. But until he entered the orbit of a Hollywood icon, he had no idea just how slippery reality could be. Now this good man is all that stands in the way of an insidious killer and forces that eclipse the most fevered fantasies of a city where dreams and nightmares are the stuff of daily life. As a seemingly endless and ominous rain falls over southern California, Ethan will test the limits of perception and endurance in a world where the truth is as thin as celluloid and answers can be found only in the illusory intersection of shadow and light. Enter a world of marvelous invention, enchantment, and implacable intent populated by murderous actors and the walking dead, hit men and heroes, long buried dreams and never-dying hope. Here a magnificent mansion is presided over by a Scottish force of nature known as Mrs. McBee, before whom all men tremble. A mad French chef concocts feasts for the mighty, and the malicious Ming du Lac, spiritual adviser to the stars, has a direct line to the dead. An aptly named cop called Hazard will become Ethan's ally; an anarchist will sow discord and despair; and a young boy named Fric, imprisoned by celebrity and loneliness, will hear a voice telling him of the approach of something unimaginably evil. Traversing this extraordinary landscape, Ethan will face the secrets of his own tragic past and the unmistakable premonition of his impending violent death as he races against time to solve the macabre riddles of a modern-day beast. A riveting tour de force of suspense, mystery, and miraculous revelation, *The Face* is that rare novel that entertains, provokes, and uplifts at the same time. It will make you laugh. It will give you chills. It will fill you with hope.
