Reflections Of The Great Spirit:

How the Great Spirit Shaped My Life Tommy S W Wong, 2022-10-14 In spirituality there is a theory that a Great Spirit hovers around us It sees what we are doing It guides us and protects us It also creates opportunities for us to meet the right people and participate in the right events so that we grow spiritually Is this theory true I don't know I'm an ordinary human being without any spiritual power However by looking at the events that happened in my present incarnation for the past 70 years I believe that there were many occasions in which the Great Spirit was active in my life In this book in nine chapters I share the people and events which I believe the Great Spirit has used to shape my life and moved me in directions which I had never dreamt of The chapters are 1 On my parents 2 On my studies 3 On my working life as an engineer and on my wife 4 On my working life as an academic 5 On my sporting achievements 6 On my working life as an editor and a consultant 7 On my working life as an author and a speaker 8 On my life mission and other life stories and 9 On the Great Spirit After living this life for seven decades and believing that it has been shaped by the Great Spirit I like to say that it's been a truly blessed life a life that is filled with meaning and fulfilment I hope this sharing enables you to be more aware of the Great Spirit in your life and you too will see your life as blessed meaningful and fulfilling May the Great Spirit be with you **Awaken the**

Teaching Spirits Joseph Epes Brown,2010-03-12 Teaching Spirits offers a thematic approach to Native American religious traditions Through years of living with and learning about Native traditions across the continent Joseph Epes Brown learned firsthand of the great diversity of the North American Indian cultures Yet within this great multiplicity he also noticed certain common themes that resonate within many Native traditions These themes include a shared sense of time as cyclical rather than linear a belief that landscapes are inhabited by spirits a rich oral tradition visual arts that emphasize the process of creation a reciprocal relationship with the natural world and the rituals that tie these themes together Brown illustrates each of these themes with in depth explorations of specific native cultures including Lakota Navajo Apache Koyukon and Ojibwe Brown was one of the first scholars to recognize that Native religions rather than being relics of the past are vital traditions that tribal members shape and adapt to meet both timeless and contemporary needs Teaching Spirits reflects this view using examples from the present as well as the past For instance when writing about Plains rituals he describes not only building an impromptu sweat lodge in a Denver hotel room with Black Elk in the 1940s but also the struggles of present day Crow tribal members to balance Sun Dances and vision quests with nine to five jobs In this groundbreaking work Brown suggests that Native American traditions demonstrate how all components of a culture can be interconnected how the presence of the sacred can permeate all lifeways to such a degree that what we call religion is integrated into all of life's activities Throughout the book Brown draws on his extensive personal experience with Black Elk who came to symbolize for many the richness of the imperiled native cultures This volume brings to life the themes

that resonate at the heart of Native American religious traditions **Letters of Helena Roerich. 1935-1939.
