To America Stephen E. Ambrose, 2002-11-11 Completed shortly before Ambrose s untimely death *To America* is a very personal look at our nation s history through the eyes of one of the twentieth century s most influential historians Ambrose roams the country s history praising the men and women who made it exceptional He considers Jefferson and Washington who were progressive thinkers while living a contradiction as slaveholders and celebrates Lincoln and Roosevelt He recounts Andrew Jackson s stunning defeat of a superior British force in the battle of New Orleans with a ragtag army in the War of 1812 He brings to life Lewis and Clark s grueling journey across the wilderness and the building of the railroad that joined the nation coast to coast Taking swings at political correctness as well as his own early biases Ambrose grapples with the country s historic sins of racism its ill treatment of Native Americans and its tragic errors such as the war in Vietnam which he ardently opposed He contrasts the modern presidencies of Eisenhower Kennedy Nixon and Johnson He considers women s

and civil rights immigration philanthropy and nation building Most powerfully in this final volume Ambrose offers an accolade to the historian s mighty calling *MasterClass in History Education* Christine Counsell, Katharine Burn, Arthur Chapman, 2016-10-06 *MasterClass in History Education* draws on international research and practice to present effective and engaging approaches for history teachers who want to explore the ways in which reading research and reflection can support the development of history teaching and learning in the classroom At the heart of the book is a series of professional enquiries carried out by experienced history teachers working in a range of contexts Each history teacher addresses clear questions arising from their practice and together they illustrate various approaches to data collection data analysis and argument These history teachers also show how they drew on diverse scholarship in history and history education including many publications by other history teachers In eight further chapters other experts ranging from practitioner scholars to researchers in diverse fields such as history history education teacher education teacher research and curriculum theory reflect on the distinctive insights that these teachers offer and explore connections with their own fields The combination of perspectives and the depth of knowledge of the varied contributors reveal the importance of different kinds of relationship between theory and practice The links between classroom realities and research and the critical use of different kinds of text will support history teachers in developing their practice and professional voice **Conversations with History** Susan Lander, 2014-08-11 We followed the ups and downs of their lives in the media We know about their mistakes their struggles and their joys But have you ever wondered how celebrities and public figures would reflect on their lives since they passed In an unprecedented reading experience *Conversations with History* sheds some light Channeled by a psychic medium and written in interview format this book takes readers on a unique journey with 22 spirits who were famous or infamous during their time on earth Renowned personalities from 600 BC to 2011 AD from Charlemagne Ben Franklin and Gandhi to the Notorious B I G Kurt Vonnegut and Steve Jobs have returned to share their most important messages with us Their passing led them to understand their life lessons and the ramifications of their choices And now with the clear eyed vision gained only from the Other Side they re taking centre stage one last time to offer us insights into their lives that they didn t possess while they were here These famous spirits open up to share the lessons they ve learned since their passing in order to help us live our lives better lessons in abundance and prosperity love and relationships creativity and art personal responsibility for the world around us and the legacy we will leave for future generations In every interview there are simple but powerful lessons that readers can use to improve their lives every day **Friday Reflections** Anand Shah, 2007-04-05 This book is a compilation of inspirational and educational stories for working professionals Visit fridayreflections.com [The Cambridge History of English Literature: From Steele and Addison to Pope and Swift](#) Sir Adolphus William Ward, Alfred Rayney Waller, 1912 **Catalogue of the McAlpin Collection of British History and Theology** Union Theological Seminary (New York, N.Y.).
