Reformation Of The Twelfth Century:

The Reformation of the Twelfth Century Giles Constable, 1996 A study of the changes in religious thought and institutions c 1180 c 1280 **Reform and Renewal in the Middle Ages and the Renaissance** ,2022-04-19 Reform is one of the most significant themes spiritual and intellectual of the Middle Ages and it has both institutional and individual dimensions The Reformation crisis led to further variations on this crucial theme This volume examines the theme of Reform from a variety of viewpoints while covering more than four centuries Some contributions look at Apocalyptic dimensions in writings on reform Another focuses on the influence of Gerhart Ladner on the study of reforming themes and reform movements These articles will be useful for the study of intellectual history ecclesiastical history the history of spirituality and the study of Apocalypticism Contributors include Gregory S Beirich Christopher M Bellitto Gerald Christianson Thomas C Giangreco William V Hudon Lawrence F Hundersmarck Thomas M Izbicki Daniel Marcel La Corte Thomas E Morrissey Francis Oakley Joseph F O Callaghan Gilbert Ouy Robert Somerville Phillip H Stump and Morimichi Watanabe Publications by Louis B Pascoe S J Jean Gerson Principles of Church Reform ISBN 978 90 04 03645 1 Out of print Church and Reform Bishops Theologians and Canon Lawyers in the Thought of Pierre d Ailly 1351 1420 ISBN 978 90 04 14062 2 *A Companion to the Great Western Schism (1378-1417)* ,2009-09-30 The division of the Church or Schism that took place between 1378 and 1417 had no precedent in Christianity No conclave since the twelfth century had acted as had those in April and September 1378 electing two concurrent popes This crisis was neither an issue of the authority claimed by the pope and the Holy Roman Emperor nor an issue of authority and liturgy The Great Western Schism was unique because it forced upon Christianity a rethinking of the traditional medieval mental frame It raised question of personality authority human fallibility ecclesiastical jurisdiction and taxation and in the end responsibility in holding power and authority This collection presents the broadest range of experiences center and periphery clerical and lay male and female Christian and Muslim Theology including exegesis of Scripture diplomacy French literature reform art and finance all receive attention *A Companion to Observant Reform in the Late Middle Ages and Beyond* James Mixson, Bert Roest, 2015-06-02 The Observant Movement was a widespread effort to reform religious life across Europe It took root around 1400 and for a century and more thereafter it inspired or shaped much that became central to European religion and culture The Observants produced many of the leading religious figures of the later Middle Ages Catherine of Siena Bernardino of Siena and Savonarola in Italy Francisco Jim nez de Cisneros in Spain and in Germany Martin Luther himself This volume provides scholars with a current synthetic introduction to the Observant Movement Its essays also seek collectively to expand the horizons of our study of Observant reform and to open new avenues for future scholarship Contributors are Michael D Bailey Pietro Delcorno Tamar Herzig Anne Huijbers James D Mixson Alison More Carolyn Muessig Maria Giuseppina Muzzarelli Bert Roest Timothy Schmitz and Gabriella Zarri *Balaam's Ass: Vernacular Theology Before the English Reformation* Nicholas Watson, 2022-06-21 For over seven hundred

years bodies of writing in vernacular languages served an indispensable role in the religious and intellectual culture of medieval Christian England yet the character and extent of their importance have been insufficiently recognized A longstanding identification of medieval western European Christianity with the Latin language and a lack of awareness about the sheer variety and quantity of vernacular religious writing from the English Middle Ages have hampered our understanding of the period exercising a tenacious hold on much scholarship Bringing together work across a range of disciplines including literary study Christian theology social history and the history of institutions Balaam s Ass attempts the first comprehensive overview of religious writing in early England s three most important vernacular languages Old English Insular French and Middle English between the ninth and sixteenth centuries Nicholas Watson argues not only that these texts comprise the oldest continuous tradition of European vernacular writing but that they are essential to our understanding of how Christianity shaped and informed the lives of individuals communities and polities in the Middle Ages This first of three volumes lays out the long post Reformation history of the false claim that the medieval Catholic Church was hostile to the vernacular It analyzes the complicated idea of the vernacular a medieval innovation instantiated in a huge body of surviving vernacular religious texts Finally it focuses on the first long generation of these writings in Old English and early Middle English *Luther and the Reformation of the Later Middle Ages* Eric Leland Saak,2017-04-19 Saak re interprets Martin Luther as an Augustinian Hermit whose 95 Theses came as the culmination of the late medieval Reformation

Mind, Soul and the Cosmos in the High Middle Ages Jack P. Cunningham,Adam Foxon,Rosamund M. Gammie,2025-01-24 This is a unique volume in which a critical introduction and multiple chapters offer a wide ranging discussion of medieval conceptions of the nature of humankind its relationship with the universe and the processes of thinking by which both are conceptualized Concentrating on the centuries spanning the High Middle Ages chapters include in depth analyses of such ideas as the habit as the ultimate dwelling place of the soul the Soul of the Universe and its relation to humanity and the Agent Intellect s part in the functions of the mind regarding abstraction and intuition This book explores how metaphysical Intelligences interact with our movements how the desires of our minds affect the acquisition of knowledge as well as asking how and why analysis of the makeup of animal souls took place The High Middle Ages was a crucially important epoch in the history of intellectual endeavor This volume appeals to students and researchers it discusses and evaluates the contributions on the subjects of mind soul and the cosmos of some of the finest Christian Jewish and Moslem intellects in the twelfth and thirteenth centuries Theologians philosophers and cosmologists include Aquinas Grosseteste Avicenna Gersonides Buridan the School of Chartres as well as many others The overarching theme of this collection of essays is that vitally new conceptions of what it meant to be a rational Human the purpose of thought in relation to the journey of the soul and the metaphysical character of our universe contributed enormously to the paradigm shifting nature of this age **Crusading Spirituality in the Holy Land and Iberia, C.1095-c.1187** William J. Purkis,2008 For much of the twelfth century the

ideals and activities of crusaders were often described in language more normally associated with a monastic rather than a military vocation This book argues that the significance of these descriptions has yet to be fully appreciated

Church and People in the Medieval West, 900-1200 Sarah Hamilton, 2015-08-12 During the middle ages belief in God was the single more important principle for every person and the all powerful church was the most important institution It is impossible to understand the medieval world without understanding the religious vision of the time and this new textbook offers an approach which explores the meaning of this in day to day life as well as the theory behind it Church and People in the Medieval West gets to the root of belief in the Middle Ages covering topics including pastoral reform popular religion monasticism heresy and much more throughout the central middle ages from 900 1200 Suitable for undergraduate courses in medieval history and those returning to or approaching the subject for the first time

Reassessing Jewish Life in Medieval Europe Robert Chazan, 2010-09-27 This book re evaluates the prevailing notion that Jews in medieval Christian Europe lived under an appalling regime of ecclesiastical limitation governmental exploitation and expropriation and unceasing popular violence Robert Chazan argues that while Jewish life in medieval Western Christendom was indeed beset with grave difficulties it was nevertheless an environment rich in opportunities the Jews of medieval Europe overcame obstacles grew in number explored innovative economic options and fashioned enduring new forms of Jewish living His research also provides a reconsideration of the legacy of medieval Jewish life which is often depicted as equally destructive and projected as the underpinning of the twentieth century catastrophes of antisemitism and the Holocaust Dr Chazan s research proves that although Jewish life in the medieval West laid the foundation for much Jewish suffering in the post medieval world it also stimulated considerable Jewish ingenuity which lies at the root of impressive Jewish successes in the modern West

Before the Gregorian Reform John Howe, 2016-04-01 Historians typically single out the hundred year period from about 1050 to 1150 as the pivotal moment in the history of the Latin Church for it was then that the Gregorian Reform movement established the ecclesiastical structure that would ensure Rome s dominance throughout the Middle Ages and beyond In Before the Gregorian Reform John Howe challenges this familiar narrative by examining earlier pre Gregorian reform efforts within the Church He finds that they were more extensive and widespread than previously thought and that they actually established a foundation for the subsequent Gregorian Reform movement The low point in the history of Christendom came in the late ninth and early tenth centuries a period when much of Europe was overwhelmed by barbarian raids and widespread civil disorder which left the Church in a state of disarray As Howe shows however the destruction gave rise to creativity Aristocrats and churchmen rebuilt churches and constructed new ones competing against each other so that church building like castle building acquired its own momentum Patrons strove to improve ecclesiastical furnishings liturgy and spirituality Schools were constructed to staff the new churches Moreover Howe shows that these reform efforts paralleled broader economic social and cultural trends in Western Europe including the revival of long distance trade the rise

of technology and the emergence of feudal lordship The result was that by the mid eleventh century a wealthy unified better organized better educated more spiritually sensitive Latin Church was assuming a leading place in the broader Christian world Before the Gregorian Reform challenges us to rethink the history of the Church and its place in the broader narrative of European history Compellingly written and generously illustrated it is a book for all medievalists as well as general readers interested in the Middle Ages and Church history *Women and Monastic Reform in the Medieval West, C. 1000-1500* Julie Hotchin, Jirki Thibaut, 2023 New approaches to understanding religious women s involvement in monastic reform demonstrating how women s experiences were more ambiguous and multi layered than previously assumed Over the last two decades scholarship has presented a more nuanced view of women s attitude to and agency in medieval monastic reform challenging the idea that they were by and large unwilling to accept or were necessarily hostile towards reform initiatives Rather it has shown that they actively participated in debates about the ideas and structures that shaped their religious lives whether rejecting embracing or adapting to calls for reform contingent on their circumstances Nevertheless fundamental questions regarding the gendered nature of religious reform are ripe for further examination This book brings together innovative research from a range of disciplines to re evaluate and enlarge our knowledge of women s involvement in spiritual and institutional change in female monastic communities over the period c 1000 c 1500 Contributors revise conventional narratives about women and monastic reform and earlier assumptions of reform as negative or irrelevant for women Drawing on a diverse array of visual material and textual sources it presents snapshots of reform from western Europe stretching from Ireland to Iberia Case studies focussing on a number of different topics from tenth century female saints lives to fifteenth century liturgical books from the tenth century Leominster prayerbook to archaeological remains in Ireland from embroideries and tapestries to the rebellious nuns of Sainte Croix in Poitiers offer a critical reappraisal of how monastic women and their male associates reflected individually and collectively on their spiritual ideals and institutional forms Reforming the Church before Modernity Christopher M. Bellitto, 2016-04-08 Reforming the Church before Modernity considers the question of ecclesial reform from late antiquity to the 17th century and tackles this complex question from primarily cultural perspectives rather than the more usual institutional approaches The common themes are social change centres and peripheries of change monasticism and intellectuals and their relationship to reform This innovative approach opens up the question of how religious reform took place and challenges existing ecclesiological models that remains too focussed on structures in a manner artificial for pre modern Europe Several chapters specifically take issue with the problem of what constitutes reform reformations and historians notions of the periodization of reform while in others the relationship between personal transformation and its broader social political or ecclesial context emerges as a significant dynamic Presenting essays from a distinguished international cast of scholars the book makes an important contribution to the debates over ecclesiology and religious reform stimulated by the anniversary of Vatican II *Ordo et*

Letters of Peter of Celle Peter (of Celle, Bishop of Chartres), 2001 Peter of Celle was a figure of great authority and influence in twelfth century France His letters offer unique insight into the ideals and values of the monastic world at a critical turning point for western religion This is the first translation of his correspondence and the first complete modern edition *The First Crusade* Edward Peters, 2011-06-03 The First Crusade received its name and shape late To its contemporaries the event was a journey and the men who took part in it pilgrims Only later were those participants dubbed Crusaders those signed with the Cross In fact many developments with regard to the First Crusade like the bestowing of the cross and the elaboration of Crusaders privileges did not occur until the late twelfth century almost one hundred years after the event itself In a greatly expanded second edition Edward Peters brings together the primary texts that document eleventh century reform ecclesiology the appearance of new social groups and their attitudes the institutional and literary evidence dealing with Holy War and pilgrimage and most important the firsthand experiences by men who participated in the events of 1095 1099 Peters supplements his previous work by including a considerable number of texts not available at the time of the original publication The new material which constitutes nearly one third of the book consists chiefly of materials from non Christian sources especially translations of documents written in Hebrew and Arabic In addition Peters has extensively revised and expanded the Introduction to address the most important issues of recent scholarship Martin

Luther Alberto Melloni, 2017-12-20 The three volumes present the current state of international research on Martin Luther s life and work and the Reformation s manifold influences on history churches politics culture philosophy arts and society up to the 21st century The work is initiated by the Fondazione per le scienze religiose Giovanni XXIII Bologna in cooperation with the European network Refo500 This handbook is also available in German **Church History, Volume One: From Christ to the Pre-Reformation** Everett Ferguson, 2013-11-26 Church History Volume One offers a unique contextual view of how the Christian church spread and grew from its development in the days of Jesus to the years leading up to the Reformation Looking closely at the integral link between the history of the world and that of the church Church History paints a portrait

of God's people within its setting of times, cultures and events that both influenced and were influenced by the church

FEATURES Maps, charts and illustrations spanning the time from the first through the thirteenth centuries. Overviews of the Roman, Greek and Jewish worlds and how they developed or declined. Insights into the church's relationship to the Roman Empire with glimpses into pagan attitudes toward Christians. Explanations of the role of art, architecture, literature and philosophy both sacred and secular in the Church. Details on the major theological controversies of the periods. Each chapter also contains callout passages from Scripture to assist in understanding the narrative of the Church even to the present day as part of the greater narrative of the Bible.

AUTHOR'S PERSPECTIVE Scholar and writer Everett Ferguson wrote this history of the church from the perspective that such a history is the story of the greatest movement and community the world has known. It's a human story of a divinely called people who wanted to live by a divine revelation. It's a story of how they succeeded and how they failed or fell short of their calling. From the Apostle Paul to the apologists and martyrs of the second century to Martin Luther, the historical figures detailed are people who have struggled with the meaning of the greatest event in history: the coming of the Son of God and with their role in that event and in the lives of God's people.

The Theology of Hugh of St. Victor Boyd Taylor Coolman, 2010-04-15. A comprehensive study which highlights the practical nature of Hugh of St. Victor's pioneering program of spiritual reformation.

The Oxford Handbook of Medieval Christianity John Arnold, 2014. The Oxford Handbook of Medieval Christianity takes as its subject the beliefs, practices and institutions of the Christian Church between 400 and 1500 AD. It addresses topics ranging from early medieval monasticism to late medieval mysticism, from the material wealth of the Church to the spiritual exercises through which certain believers might attempt to improve their souls. Each chapter tells a story but seeks also to ask how and why Christianity took particular forms at particular moments in history, paying attention to both the spiritual and otherworldly aspects of religion and the material and political contexts in which they were often embedded. This Handbook is a landmark academic collection that presents cutting edge interpretive perspectives on medieval religion for a wide academic audience, drawing together thirty key scholars in the field from the United States, the UK and Europe. Notably, the Handbook is arranged thematically and focusses on an analytical rather than narrative approach, seeking to demonstrate the variety, change and complexity of religion throughout this long period and the numerous different ways in which modern scholarship can approach it. While providing a very wide ranging view of the subject, it also offers an important agenda for further study in the field.
