Reforming Sex The German Movement For Birth Control And Abortion Reform 1920 195:

Reforming Sex Atina Grossmann, 1995 This study analyzes a mass movement of doctors and laypeople that demanded women's right to abortion and public access to birth control and sex education in Germany Their story sheds light on current controversies about abortion and the role of doctors and the state in controlling women's rights *Reforming Sex* Atina Grossmann, 1995-05-11 *Reforming Sex* reconstructs the complicated history of a movement that has been romanticized as the harbinger of 1960s sexual radicalism and demonized as a precursor to Nazi racial policy but mostly buried and obscured by Nazi bookburnings and repression Relying on a broad range of sources from police reports films and personal interviews to sex manuals unearthed from library basements and secondhand bookstores the book analyzes a remarkable mass mobilization during the turbulent and innovative Weimar years of doctors and laypeople for women's right to abortion and public access to birth control and sex education *The Politics of Fertility in Twentieth-Century Berlin* Annette F. Timm, 2010-08-30 How a declining population influenced reproductive and sexual health policy in Germany *Cultures of Abortion in Weimar Germany* Cornelie Usborne, 2007-12-01 Abortion in the Weimar Republic is a compelling subject since it provoked public debates and campaigns of an intensity rarely matched elsewhere It proved so explosive because populationist ecclesiastical and political concerns were heightened by cultural anxieties of a modernity in crisis Based on an exceptionally rich source material e.g. criminal court cases doctors case books personal diaries feature films plays and literary works this study explores different attitudes and experiences of those women who sought to terminate an unwanted pregnancy and those who helped or hindered them It analyzes the dichotomy between medical theory and practice and questions common assumptions i.e. that abortion was a necessary evil which needed strict regulation and medical control or that all back street abortions were dangerous and bad Above all the book reveals women's own voices frequently contradictory and ambiguous having internalized medical ideas they often also adhered to older notions of reproduction which opposed scientific approaches *Women in the Holocaust* Zoë Waxman, 2017 Despite some pioneering work by scholars historians still find it hard to listen to the voices of women in the Holocaust Learning more about the women who both survived and did not survive the Nazi genocide through the testimony of the women themselves not only increases our understanding of this terrible period in history but makes us rethink our relationship to the gendered nature of knowledge itself *Women in the Holocaust* is about the ways in which socially and culturally constructed gender roles were placed under extreme pressure yet also about the fact that gender continued to operate as an important arbiter of experience Indeed paradoxically enough the extreme conditions of the Holocaust even of the death camps may have reinforced the importance of gender Whilst Jewish men and women were both sentenced to death gender nevertheless operated as a crucial signifier for survival Pregnant women as well as women accompanied by young children or those deemed incapable of hard labor were sent straight to the gas chambers The very qualities which made them women were manipulated and exploited by the Nazis

as a source of dehumanization Moreover women were less likely to survive the camps even if they were not selected for death Gender in the Holocaust therefore became a matter of life and death The Totalitarian Experiment in Twentieth Century Europe David Roberts,2006-04-27 By developing a long term supranational perspective this ambitious multi faceted work provides a new understanding of totalitarianism the troubling common element linking Soviet communism Italian fascism and German Nazism The book s original analysis of antecedent ideas on the subject sheds light on the common origins and practices of the regimes Through this fresh appreciation of their initial frame of mind Roberts demonstrates how the three political experiments yielded unprecedented collective mobilization but also a characteristic combination of radicalization myth making and failure Providing deep historical analysis the book proves that totalitarianism best characterizes the common features in the originating aspirations the mode of action and even the outcomes of Soviet communism Italian fascism and German Nazism By enhancing our knowledge of what totalitarianism was and where it came from Roberts affords important lessons about the ongoing challenges possibilities and dangers of the modern political experiment

Sex between Body and Mind Katie Sutton,2019-11-25 Ideas about human sexuality and sexual development changed dramatically across the first half of the 20th century As scholars such as Magnus Hirschfeld Iwan Bloch Albert Moll and Karen Horney in Berlin and Sigmund Freud Wilhelm Stekel and Helene Deutsch in Vienna were recognized as leaders in their fields the German speaking world quickly became the international center of medical scientific sex research and the birthplace of two new and distinct professional disciplines sexology and psychoanalysis This is the first book to closely examine vital encounters among this era s German speaking researchers across their emerging professional and disciplinary boundaries Although psychoanalysis was often considered part of a broader sexual science sexologists increasingly distanced themselves from its mysterious concepts and clinical methods Instead they turned to more pragmatic interventionist therapies in particular to the burgeoning field of hormone research which they saw as crucial to establishing their own professional relevance As sexology and psychoanalysis diverged heated debates arose around concerns such as the sexual life of the child the origins and treatment of homosexuality and transgender phenomena and female frigidity This new story of the emergence of two separate approaches to the study of sex demonstrates that the distinctions between them were always part of a dialogic and competitive process It fundamentally revises our understanding of the production of modern sexual subjects

Screening War Paul Cooke, Marc Silberman, 2010 Re examines German cinema s representation of the Germans as

victims during the Second World War and its aftermath The recent discovery of German wartime suffering has had a particularly profound impact in German visual culture Films from Margarethe von Trotta's *Rosenstrasse* 2003 to Oliver Hirschbiegel's Oscar nominated *Downfall* 2004 and the two part television mini series *Dresden* 2006 have shown how ordinary Germans suffered during and after the war Such films have been presented by critics as treating a topic that had been taboo for German filmmakers However the representation of wartime suffering has a long tradition on the German screen For decades filmmakers have recontextualized images of Germans as victims to engage shifting social and ideological discourses By focusing on this process the present volume explores how the changing representation of Germans as victims has shaped the ways in which both of the postwar German states and the now unified nation have attempted to face the trauma of the past and to construct a contemporary place for themselves in the world Contributors: Sean Allan Tim Bergfelder Daniela Berghahn Erica Carter David Clarke John E Davidson Sabine Hake Jennifer Kapczynski Manuel Kopp Rachel Palfreyman Brad Prager Johannes von Moltke Paul Cooke is Professor of German Cultural Studies at the University of Leeds and Marc Silberman is Professor of German at the University of Wisconsin
