Van Brabant, 2012-12-06 This book is designed as a modest contribution to the ongoing deliberations about how to ease the fairly tight constraints on the external payments of many countries of the eastern part of Europe In the first instance this inquiry is addressed to those that have embarked on wide ranging systemwide reforms External constraints have been markedly hampering the introduction of market oriented economic mutations thereby raising the cost of transition far above levels expected at the outset of the present wave of uniquely restructuring the countries involved I explore here several angles of this discussion But three stand out One is the disintegration of the postwar framework for economic cooperation in that part of the world Another is the disarray brought about by incisive economic transformations in the area Finally various national regional and international interest groups are at work there hoping to mold somehow the drift of the reform or at least key components thereof in their own image In the process it is often forgotten as Ralf Dahrendorf 1990 p 41 so pointedly remarked that all systems mean serfdom including the natural system of a total market order in which no one tries to do anything other than guard certain rules of the game discovered by a mysterious sect of economic advisers East European Economies: Country studies on Eastern Europe and Yugoslavia ,1985 **The European Economy 1914-1990** Derek Aldcroft, George Penelis, 1993-05-27 This new edition of The European Economy 1914 1980 has been updated and revised to take account of the decade 1980 90 and as such covers some of the most dramatic and profound economic events of the twentieth century The European Economy 1914 1990 includes two additional chapters one dealing with the Western European economies and in particular *Growth, Innovation and Reform in Eastern Europe* Stanislaw Gomulka, 1986 Research papers on economic growth Innovation and economic reform in the socialist countries of Eastern Europe part I Hungary Poland the USSR and Yugoslavia covers issues relating to the impact of the political system on economic development research and development industrialization industrial growth choice of technology trade with advanced capitalist countries etc comments on socialist and Western economic theories includes economic analysis methodology Graphs references statistical tables **The Political Economy of Fiscal Reform in Central-Eastern Europe** Frank Bönker, 2006-01-01 Frank Bönker has done a masterful job This is probably the best book available on this important subject and its significance is not limited to studies of postcommunist societies It has important theoretical implications for everyone interested in the Political Economy of Policy Reform perspective within the field of comparative political economy John L Campbell Slavic Review
