Cornea and Refractive Surgery New Orleans Academy of Ophthalmology. Session, 1998 Preface From Friday morning February 21 1997 through Sunday February 23 at noon members and guests of the New Orleans Academy of Ophthalmology heard presentations and discussions of the latest techniques and trends in the study of corneal diseases and surgery including refractive surgery This was the subject of the Forty Sixth Annual Symposium of the Academy The speakers comprised a group of eight clinician surgeons with a wealth of experience and a well respected talent for innovation in their areas of expertise From trends in bacterial keratitis to ocular surface disease and healing to the latest opinions on anterior segment reconstruction and refractive surgery the topics covered were diverse and timely Especially interesting were the discussions generated by the panelists presentations and by the question and answer sessions The demands placed on the speakers at the Annual Meeting of the New Orleans Academy of Ophthalmology are large and multiple and probably greater than for most other educational conferences Each speaker commits to preparing several lectures and usually a panel discussion for presentation and all speakers are asked to participate in the panel discussions and question and answer periods The topics are chosen by the program committee and we sometimes ask speakers to present a subject that is not in their area of research or primary interest This usually means researching and preparing a completely new lecture And last but not least all speakers commit to preparing chapters and completing panel discussions for this book And these duties are added to already busy practice and speaking schedules in fact the speakers are selected because they have new ideas and useful things to say that everyone wishes to hear Not all

invited speakers are up to the task but this year we were fortunate that all of our first choices accepted the challenge. Because of the rapidity of change in both refractive surgery and anterior segment treatment we have attempted to provide the transactions as rapidly as possible. This urgency has again added more demands on the time and energy of the speakers. And this group of authors has responded admirably to our requests. Because of their efforts the reader can use this publication as an update and as a gauge to his/her present practice guidelines. I wish to thank all eight speaker authors for their efforts on behalf of the New Orleans Academy of Ophthalmology and the readers of this publication. The information presented here was put on paper by the authors but we readers are the ones who benefit. In addition they have added to a forty year tradition of publications by the New Orleans Academy of Ophthalmology. I hope that readers consider this book as timely and as useful as previous issues of the Transactions. I also wish to thank Monica L. Monica MD, President of the NOAO and the Executive Committee for supporting the program and this publication. As always a considerable amount of time and effort came from Emily Busby, executive secretary of the NOAO and my thanks go to her as well. Lastly Marguerite McDonald MD deserves much credit in the organization of the meeting and the program. Her knowledge and experience were truly indispensable. Daniel A. Long MD

Contemporary Scleral Lenses: Theory and Application Melissa Barnett, Lynette K. Johns, 2017-11-03. Contemporary Scleral Lenses: Theory and Application provides comprehensive information about scleral lenses. Chapters of this volume have been contributed by renowned scleral lens experts and cover a variety of interesting topics. These topics include the history and evolution of scleral lenses, basic scleral lens structure, optics, and customizable features of scleral lenses, analysis of ocular surface shape, ocular surface topography, and advances in optometry technology. These topics give readers an explanation of how to utilize diagnostic equipment in optometry practice and enables practitioners to employ a scientific and objective approach to scleral lens fitting. Key features of this volume include: A straightforward approach to ophthalmic examination, flow evaluation, and documentation; A review of Scleral lens care and handling; Descriptions of a variety of complex medical and ocular indications for scleral lenses; Strategic tips to promote your own scleral lens practice; A unique perspective of esteemed corneal specialists regarding the collaborative care of the patient. This textbook is a suitable reference for ophthalmology students and practitioners. This text will assist practitioners in enhancing their scleral lens practice by providing them useful information for improving patient vision, ocular surface rehabilitation, and quality of life.

Myopia Updates Takashi Tokoro, 2013-06-29. The first International Conference on Myopia was sponsored by the Myopia International Research Foundation in New York City in 1964. The second conference was held in San Francisco in 1984, the third in Rome in 1986, the fourth in Singapore in 1990, and the fifth in Toronto in 1994. The conferences were held every four years as satellite meetings within the International Congress of Ophthalmology. In recent years, however, the incidence of myopia throughout the world and the mechanisms of myopia have been studied rapidly by many researchers using animal models. Against this background, at the fifth conference held in Toronto in

1994 it was decided to hold the International Conference on Myopia every two years I am honored that the organizing committee selected me as the host for the sixth International Conference on Myopia Progress in the field in the two years between the fifth and the sixth International Conferences on Myopia has been astounding Although the mechanisms of myopia have not been clarified many questions concerning myopia are arising from disciplines representing the entire spectrum from clinical findings to molecular biology Thus in the sixth International Conference on Myopia the program provided for discussion of a wide variety of subjects including epidemiology pathogenesis experimental myopia and treatment A number of doctors from Asian countries where the incidence of myopia is especially high reported on recent epidemiology in their countries
