Reframing The Renaissance:

Reframing the Renaissance Claire J. Farago, 1995 How did the extensive cultural exchange that took place between the Old and New Worlds in the sixteenth century affect the artistic practice and discussions of art at that time With contributions from distinguished Renaissance art historians this volume reevaluates the Eurocentrism of Italian Renaissance art history by envisioning how the history of Renaissance art would look if cultural interaction and the conditions of reception were to become the primary focus Scholars such as Anthony Cutler Thomas DaCosta Kaufmann Martin Kemp Cecelia Klein and Claudia Lazzaro look at the function reception and influence of specific kinds of images and other manufactured objects as they were disseminated around the globe particularly between Renaissance Italy and Latin America

Judaism and Christian Art Herbert L. Kessler, David Nirenberg, 2012-10-08 Christian cultures across the centuries have invoked Judaism in order to debate represent and contain the dangers presented by the sensual nature of art By engaging Judaism both real and imagined they explored and expanded the perils and possibilities for Christian representation of the material world The thirteen essays in *Judaism and Christian Art* reveal that Christian art has always defined itself through the figures of Judaism that it produces From its beginnings Christianity confronted a host of questions about visual representation Should Christians make art or does attention to the beautiful works of human hands constitute a misplaced emphasis on the things of this world or worse a form of idolatry Thou shalt make no graven image And if art is allowed upon what styles motifs and symbols should it draw Christian artists theologians and philosophers answered these questions and many others by thinking about and representing the relationship of Christianity to Judaism This volume is the first dedicated to the long history from the catacombs to colonialism but with special emphasis on the Middle Ages and the Renaissance of the ways in which Christian art deployed cohorts of Jews more figurative than real in order to conquer defend and explore its own territory

Architecture and Urbanism in Viceregal Mexico Juan Luis Burke, 2021-05-30 *Architecture and Urbanism in Viceregal Mexico* presents a fascinating survey of urban history between the sixteenth and eighteenth centuries It chronicles the creation and development of Puebla de los Angeles a city located in central south Mexico during its viceregal period Founded in 1531 the city was established as a Spanish settlement surrounded by important Indigenous towns This situation prompted a colonial city that developed along Spanish colonial guidelines but became influenced by the native communities that settled in it creating one of the most architecturally rich cities in colonial Spanish America from the Renaissance to the Baroque periods This book covers the city's historical background investigating its civic and religious institutions as represented in selected architectural landmarks Throughout the narrative Burke weaves together sociological anthropological and historical analysis to discuss the city's architectural and urban development Written for academics students and researchers interested in architectural history Latin American studies and the Spanish American viceregal period it will make an important contribution to the field

Reformation and Early Modern Europe David M. Whitford, 2007-11-01 Continuing the

tradition of historiographic studies this volume provides an update on research in Reformation and early modern Europe Written by expert scholars in the field these eighteen essays explore the fundamental points of Reformation and early modern history in religious studies European regional studies and social and cultural studies Authors review the present state of research in the field new trends key issues scholars are working with and fundamental works in their subject area including the wide range of electronic resources now available to researchers Reformation and Early Modern Europe A Guide to Research is a valuable resource for students and scholars of early modern Europe Medieval or Early Modern Ronald Hutton,2015-06-18 For half a millennium it has been customary for many historians to refer to the period between the fall of Rome and the end of the fifteenth century as medieval a tradition which hardened into a professional orthodoxy during the nineteenth century In the late twentieth century it also seemed convenient to many to describe the first half of a steadily lengthening modern period as early modern which also hardened into an orthodoxy among English speakers at least by the 1980s Both ter **Western Art and the Wider World** Paul Wood,2013-12-23 Western Art and the Wider World explores the evolving relationship between the Western canon of art as it has developed since the Renaissance and the art and culture of the Islamic world the Far East Australasia Africa and the Americas Explores the origins influences and evolving relationship between the Western canon of art as it has developed since the Renaissance and the art and culture of the Islamic world the Far East Australasia Africa and the Americas Makes the case for world art long before the fashion of globalization Charts connections between areas of study in art that long were considered in isolation such as the Renaissance encounter with the Ottoman Empire the influence of Japanese art on the 19th century French avant garde and of African art on early modernism as well as debates about the relation of contemporary art to the past Written by a well known art historian and co editor of the landmark Art in Theory volumes **Artistic Practices and Cultural Transfer in Early Modern Italy** Allison Sherman,2017-07-05 For too long the centre of the Renaissance has been considered to be Rome and the art produced in or inspired by it This collection of essays dedicated to Deborah Howard brings together an impressive group of internationally recognised scholars of art and architecture to showcase both the diversity within and the porosity between the centre and periphery in Renaissance art Without abandoning Rome but together with other centres of art production the essays both shift their focus away from conventional categories and bring together recent trends in Renaissance studies notably a focus on cultural contact material culture and historiography They explore the material mechanisms for the transmission and evolution of ideas artistic training and networks as well as the dynamics of collaboration and exchange between artists theorists and patrons The chapters each with a wealth of groundbreaking research and previously unpublished documentary evidence as well as innovative methodologies reinterpret Italian art relating to canonical sites and artists such as Michelangelo Titian Tintoretto Veronese and Sebastiano del Piombo in addition to showcasing the work of several hitherto neglected architects painters and an inimitable engineer inventor **A World**

History of Art Hugh Honour, John Fleming, 2005 Over two decades this art historical tour de force has consistently proved the classic introduction to humanity's artistic heritage From our paleolithic past to our digitised present every continent and culture is covered in an articulate and well balanced discussion In this Seventh Edition the text has been revised to embrace developments in archaeology and art historical research while the renowned contemporary art historian Michael Archer has greatly expanded the discussion of the past twenty years providing a new perspective on the latest developments The insight elegance and fluency that the authors bring to their text are complemented by 1458 superb illustrations half of which are now in colour These images together with the numerous maps and architectural plans have been chosen to represent the most significant chronological regional and individual styles of artistic expression **Piero Di Cosimo** Dennis

Geronimus, 2006-01-01 Inverting rules with obvious relish Florentine artist Piero di Cosimo 1462 1522 is known today as he was in his own time for his highly personal visual language one capable of generating images of the most mesmerizing oddity In this book Dennis Geronimus overcomes the scarcity of information about the artist's life and works only one of the nearly sixty known works by Piero is actually signed and dated and pieces together from extensive archival research the most complete and accurate account of Piero's life and career ever written Unfettered imagination was the sign under which Piero exercised his pictorial invention and yet the complicated artist was also a product of his culture The book fills gaps in the artist's biography and provides intensive analysis of Piero's protean imagery discusses his various patrons and commissions and lists his extant lost and uncertainly attributed works **Italian and Spanish Sculpture** Peggy Fogelman, Peter

Fusco, Marietta Cambareri, 2002-12-26 The catalogue is abundantly illustrated including multiple views of each sculpture
