In light of the radical transformations and changes that the world witnesses on all levels research in the field of social issues is gaining increased prominence particularly amid different sources of danger that threaten social security in countries primarily due changes in the nature of warfare and conflicts the spread of extremism and terrorism and the emergence of religious sectarian doctrinal and racial tensions Moreover the unprecedented technological transformations in light of the fourth industrial revolution 4IR with its social effects can compromise the stability and security of societies Therefore in this book I focus on studying UAE society in an ever changing world from a comprehensive perspective that encompasses political security economic social cultural and technological aspects From an early stage in my academic career I have given special attention in my books research papers and studies to issues of national security at the forefront of which is social security This stems from my belief that social security is one of the most important and critical aspects of national security in its comprehensive sense Furthermore social security is also closely associated with all other political economic cultural and stability aspects of national security This book includes seven chapters along with an introduction and a conclusion Chapter One deals with the experience of the Union of the UAE and how it has affected UAE society Chapter Two deals with UAE society in a changing regional and international environment Chapter Three examines the UAE s economic vision to prepare for the post oil era which is based primarily on knowledge and innovation Chapter Four addresses education and its importance in building national human capacities and resources Chapter Five discusses national identity its significance and sources of threat Chapter Six examines balanced political development and the guarantee it gives to enable political stability in the UAE The last chapter Chapter Seven discusses UAE society and global technological changes in terms of challenges and opportunities The book ends with a conclusion in which I call for more attention to studies pertaining to UAE society in the coming years because the current changes in the local regional and global environments have several implications for this society Therefore it is important to study these implications and anticipate their future trajectories **Diversity of Law**

in the United Arab Emirates Kristin Kamøy,2020-12-16 This book examines the law and its practice in the United Arab Emirates UAE The objective is to understand the logic of the legal system in the UAE through a rounded analysis of its laws in context It thus presents an understanding of the system on its own terms beyond the accepted Western model The book shows how the Emirati law differs from the conventional rule of law The first section of the book deals with the imperial

international and cultural background of the Emirati legal system and its influences on some of the elements of the legal system today It maps the state s international legal obligations according to core human rights treaties showing how universal interpretations of rights may differ from Emirati interpretations of rights This logic is further illustrated through an overview of the legal system in federal local and free zones and how the UAE s diversity of legal sources from Islamic and colonial law provides legal adaptability The second section of the book deals mainly with the contemporary system of the rule of law in the UAE but at times makes a detour to the British administration to show how imperial execution of power during the British administration created forerunners visible today Finally the debut of the UAE on the international scene contributed to an interest in human rights investigations having manifestations in UAE law The work will be a valuable resource for researchers and academics working in the areas of Comparative Constitutional Law Legal Anthropology Legal Pluralism and Middle Eastern Studies *Federal Register* ,2004-12 Managing Organizations in the United Arab Emirates V. Bodolica,M. Spraggon,2014-07-24 Managing Organizations in the United Arab Emirates seeks to familiarize readers with the nature of doing business and managing organizations in the Middle East by bringing together case studies on United Arab Emirate UAE organizations one of the most dynamic and rapidly growing economies in the world

Multilateral Environmental Agreements and Compliance Anna Huggins,2017-11-27 The adoption of administrative procedures in global governance has the potential to foster proper consideration of marginalized actors interests yet risks entrenching the dominance of the well resourced and powerful Accordingly this book proposes a new framework for evaluating the extent to which administrative procedures in the compliance systems of multilateral environmental agreements constrain power and promote regard for the interests of affected states which are frequently developing and transition countries This framework is applied to the compliance systems under the Montreal Protocol the Kyoto Protocol and CITES which address critical global environmental issues of ozone layer depletion climate change and trade in endangered species respectively The analysis shows that under certain conditions administrative procedures limit the influence of states asymmetric power on compliance deliberations Furthermore systematic adoption of these procedures increases the opportunities for affected states interests to be voiced and considered in compliance decision making processes *Islamic Banks and Financial Institutions* Fayaz Ahmad Lone,2016-04-29 This book is a study of the objectives of Islamic Finance in the modern banking space and offers insight into the effects of changes and developments occurring in Islamic banking products and services Universality in the Interpretation of International Human Rights Treaties Olivia Serrano Núñez,2025-02-07 This book seeks to analyze the legitimacy of the non jurisdictional control of the United Nations Human Rights System UNHRS and the legal criteria that support it The central question is To what extent is this form of control legitimate and what legal principles support it The book focuses on the principle of universality of human rights exploring how this principle interacts with the need for intercultural dialogue The main hypothesis suggests that there is a tension

between the principle of universality and non jurisdictional control which requires constant interpretation of norms to ensure effective oversight The interpretation of the right to health by treaty bodies is used as a case study Colonialism, Neo-Colonialism, and Anti-Terrorism Law in the Arab World Fatemah Alzubairi, 2019-01-10 Providing a legal history of counter terrorism in colonial and neo colonial eras this book examines the relationship between Western influence and counter terrorism law *Certain Steel Nails from China and the United Arab Emirates, Invs. 731-TA-1114 and 1115 (Preliminary)* ,
