biographies of the explorers describing for the first time several almost unknown figures with emphasis on their expeditions and under the following headings The Approach to Australia Exploration before Settlement 1606 1788 From Botany Bay to the Blue Mountains 1788 1813 Land and Sea Expeditions 1813 1901 This section of the book is very fully illustrated with 18 full colour plates and some 150 black and white photographs mostly reproductions of early prints Concluding the book are bibliographies of sources and references a list of illustrations and an index of explorers and ships The comprehensive nature of this work will ensure that it becomes a valuable reference book for students while the text and illustrations will appeal to all who are interested in our history Collectors of Australiana will welcome this most attractive addition to the ever increasing number of available publications
