EU External Relations Law and the European Neighbourhood Policy Bart Van Vooren, 2012-07-26 The European Neighbourhood Policy ENP is a recent example of an external EU policy drawn up explicitly with the objective of achieving coherence in the

external policies of the EU and its Member States Positioning the ENP in the legal historical context of political union this book explains why coherence has become a substantive issue in EU external relations and why law is integral to attaining the ever enigmatic single voice of the European Union The text examines the role of EU external relations law in attaining a coherent neighbourhood policy and goes on to undertake an in depth analysis of the ENP arguing that the innovative nature of the ENP in regard to coherence lies beyond the narrowly defined legal sphere and stems primarily from its hybrid composition of hard legal soft legal and non legal policy instruments Adopting an interdisciplinary approach by integrating elements of law history and political science EU External Relations Law and the European Neighbourhood Policy is unique in its approach to the subject This book will be of particular interest to academics and students of EU Law Political Science History and International Relations as well as to practitioners engaged in the process of drafting coherent external policy

Democratizing Europe A. Vauchez, 2016-02-09 Drawing from recent streams of scholarship *Democratizing Europe* provides a renewed portrait of EU government that point at the enduring leading role of independent powers the European Court Commission and Central Bank Vauchez suggests that we recognize this centrality and adjust our democratization strategies accordingly [The History of Cartography, Volume 6](#) Mark Monmonier, 2015-05-18 For more than thirty years the History of Cartography Project has charted the course for scholarship on cartography bringing together research from a variety of disciplines on the creation dissemination and use of maps Volume 6 Cartography in the Twentieth Century continues this tradition with a groundbreaking survey of the century just ended and a new full color encyclopedic format The twentieth century is a pivotal period in map history The transition from paper to digital formats led to previously unimaginable dynamic and interactive maps Geographic information systems radically altered cartographic institutions and reduced the skill required to create maps Satellite positioning and mobile communications revolutionized wayfinding Mapping evolved as an important tool for coping with complexity organizing knowledge and influencing public opinion in all parts of the globe and at all levels of society Volume 6 covers these changes comprehensively while thoroughly demonstrating the far reaching effects of maps on science technology and society and vice versa The lavishly produced volume includes more than five hundred articles accompanied by more than a thousand images Hundreds of expert contributors provide both original research often based on their own participation in the developments they describe and interpretations of larger trends in cartography Designed for use by both scholars and the general public this definitive volume is a reference work of first resort for all who study and love maps
