How to Write Fiction (And Think About It) Robert Graham, 2006-10-29 If you are a writer of fiction, this practical handbook will teach you how to acquire your own writer's tool box. Here you will learn all about developing your craft. The wide-ranging exploration of fiction writing skills contains many unique features, such as the focus on reflective learning and tuition on advanced skills, including foreshadowing, transitions, and producing short story cycles. Throughout, the approach is centred on three kinds of activity: examining the theory of particular fiction writing skills; analysing the practice of these skills in examples of published work; practising the use of skills in fiction writing exercises. The Ekphrastic Encounter in Contemporary British Poetry and Elsewhere David Kennedy, 2016-03-23 Examining a wide range of ekphrastic poems David Kennedy argues that contemporary British poets writing out of both mainstream and avant garde traditions challenge established critical models of ekphrasis with work that is more complex than representational or counter representational responses to paintings in museums and galleries Even when the poem appears to be straightforwardly representational it is often selectively so producing a virtual work that doesn t exist in actuality Poets such as Kelvin Corcoran Peter Hughes and Gillian Clarke Kennedy suggests relish the ekphrastic encounter as one in which word and image become mutually destabilizing Similarly other poets engage with the source artwork as a performance that participates in the ethical realm Showing that the ethical turn in ekphrastic poetry is often powerfully gendered Kennedy also surveys a range of ekphrastic poets from the Renaissance and nineteenth century to trace a tradition of female ekphrastic poetry that includes Pauline Stainer and Frances Presley Kennedy concludes with a critique of ekphrastic exercises in creative writing teaching proposing that ekphrastic writing that takes greater account of performance spectatorship may offer more fruitful models for the classroom than the narrativizing of images **Higher Education** , 2023-11-02 COVID wrought havoc on the world s economic systems Higher education did not escape the ravages brought on by the pandemic as

institutions of higher education around the world faced major upheavals in their educational delivery systems Some institutions were prepared for the required transition to online learning Most were not Whether prepared or not educators rose to the challenge The innovativeness of educators met the challenges as digital learning replaced the face to face environment In fact some of the distance models proved so engaging that many students no longer desire a return to the face to face model As with all transitions some things were lost while others were gained This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century The book is organized into four sections on Perils and Promises The State of Online Education Goals and Challenges of Online Learning and Innovations in the Age of COVID It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process These discussions shed light on the impact of the pandemic and the future of higher education post COVID Higher education has been forever changed and higher education as it once was may never return While many questions arise the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic The Place and the Writer Marshall

Moore,Sam Meekings,2021-04-08 The combined experience of authors throughout the ages offers a wealth of valuable information about the practice of creative writing However such lore can also be problematic for students and practitioners as it can be inherently additive making it difficult to abandon processes that do not work This adherence to lore also tends to be a US centric endeavor In order to take a nuanced approach to the uses and limitations of lore The Place and the Writer offers a global perspective on creative writing pedagogy that has yet to be fully explored Featuring a diverse array of cultural viewpoints from Brazil to Hong Kong Finland to South Africa this book explores the ongoing international debate about the best approaches for teaching and practicing creative writing Marshall Moore and Sam Meekings challenge areas of perceived wisdom that persist in the field of creative writing including aesthetics and politics in institutionalized creative writing the process of workshoping tuition and talent anxiety in the classroom unifying theory and lore and teaching creative writing in languages other than English **Writing** Celia Hunt,Fiona Sampson,2018-03-24 Exploring the writing
