Roads Of Excess Palaces Of Wisdom:

Roads of Excess, Palaces of Wisdom Jeffrey J. Kripal, 2001-12 William Blake once wrote that The road of excess leads to the palace of wisdom Inspired by these poetic terms Jeffrey J Kripal reveals how the works of scholars of mysticism are often rooted in their own mystical experiences roads of excess which can both lead to important insights into these scholars works and point us to our own palaces of wisdom In his new book Kripal addresses the twentieth century study of mysticism as a kind of mystical tradition in its own right with its own unique histories discourses sociological dynamics and rhetorics of secrecy Fluidly combining autobiography and biography with scholarly exploration Kripal takes us on a tour of comparative mystical thought by examining the lives and works of five major historians of mysticism Evelyn Underhill Louis Massignon R C Zaehner Agehananda Bharati and Elliot Wolfson as well as relating his own mystical experiences The result Kripal finds is seven palaces of wisdom the religious power of excess the necessity of distance in the study of mysticism the relationship between the mystical and art the dilemmas of male subjectivity and modern heterosexuality a call for ethical criticism the paradox of the insider outsider problem in the study of religion and the magical power of texts and their interpretation An original and penetrating analysis of modern scholarship and scholars of mysticism Roads of Excess Palaces of Wisdom is also a persuasive demonstration of the way this scholarly activity is itself a mystical phenomenon **Mysticism and the**

Margins David M. Odorisio, 2025-10-29 Centering African Diasporic traditions the margins of mainstream mystical traditions and the intersection between mysticism and psychedelics the essays in this volume offer several diverse and unique contemporary approaches to the study of mysticism In a time when the word mystic or mysticism appears as often in popular and even scientific settings as it does in academic or religious discourse a critical study of these terms and traditions becomes ever more relevant This volume challenges normative notions of who counts as a mystic and questions the definitions and interpretive frames underlying the field of comparative mysticism itself This is an important text for students and scholars of comparative mysticism and those interested in what traditions texts communities rituals persons and practices have been marginalized in the development of what counts as mysticism today **The New Big Book of**

Christian Mysticism Carl McColman, 2023-08-29 This revised and expanded edition offers a big possibility the hope of achieving real experiential union with God The Christian of the future will be a mystic or will not exist This word of warning from theologian Karl Rahner was uttered half a century ago and today Christianity is indeed in crisis Is mysticism necessary for the survival of Christianity What exactly is Christian mysticism How can it be relevant in our crisis ridden world Questions like these inspire The New Big Book of Christian Mysticism a newly updated edition from beloved spiritual teacher and bestselling author Carl McColman The New Big Book of Christian Mysticism serves as both introduction and practical instruction for a living contemplative practice today In addition to the overview of mysticism spiritual and prayer practices in mysticism the various types of mysticism in Christian tradition and influential mystics through the millennia this second

edition offers an embodied understanding of the mystic life with a more diverse range of voices and perspectives from Howard Thurman to Pauli Murray. It also includes new chapters and themes that address embodied mysticism, contemplation and social justice, and the ongoing relevance of Jesus's message of radical equality and inclusivity. This bigger book introduces both Christians and non-Christians to the contemplative tradition within Christianity, a tradition that has often been marginalized or cloistered to the church's detriment. As a practice-oriented book, this is an invitation to embrace the mystical element within Christianity, a practice that can equip faithful persons with a joyful sense of divine intimacy, not just for personal benefit but as a foundation to a life of service and activism in the interest of justice. McColman's overview of mysticism shows how it has been practiced and lived through the centuries and will prove inspirational for today's seekers regardless of their faith tradition. At its heart, Christian mysticism is an ancient practice that incorporates meditation, contemplation, worship, philosophy, the quest for enlightenment, the thirst for a better world, and the experience of divine presence.

Gnosticism and the History of Religions David G. Robertson, 2021-08-12. Building on critical work in biblical studies which shows how a historically bounded heretical tradition called Gnosticism was invented, this work focuses on the following stage in which it was essentialised into a sui generis universal category of religion. At the same time, it shows how Gnosticism became a religious self-identifier with a number of sizable contemporary groups identifying as Gnostics today, drawing on the same discourses. This book provides a history of this problematic category and its relationship with scholarly and popular discourse on religion in the twentieth century. It uses a critical historical method to show how and why Gnosis, Gnostic, and Gnosticism were taken up by specific groups and individuals, practitioners and scholars at different times. It shows how ideas about Gnosticism developed in late nineteenth and twentieth century scholarship, drawing from continental phenomenology, Jungian psychology, and post-Holocaust theology to be constructed as a perennial religious current based on special knowledge of the divine in a corrupt world. David G. Robertson challenges how scholars interact with the category Gnosticism and contributes to our understanding of the complex relationship between primary sources, academics, and practitioners in category formation.

Who Owns Religion? Laurie L. Patton, 2019-11-27. *Who Owns Religion* focuses on a period, the late 1980s through the 1990s, when scholars of religion were accused of scandalizing or denigrating the very communities they had imagined themselves honoring through their work. While controversies involving scholarly claims about religion are nothing new, this period saw an increase in vitriol that remains with us today. Authors of seemingly arcane studies on subjects like the origins of the idea of Mother Earth or the sexual dynamics of mysticism have been targets of hate mail and book-banning campaigns. As a result, scholars of religion have struggled to describe their own work to their various publics and even to themselves. Taking the reader through several compelling case studies, Patton identifies two trends of the 80s and 90s that fueled that rise: the growth of multicultural identity politics, which enabled a form of volatile public debate she terms eruptive public space, and the advent of the internet, which offered new ways for religious groups to read

scholarship and respond publicly These controversies she shows were also fundamentally about something new the very rights of secular Western scholarship to interpret religions at all Patton's book holds out hope that scholars can find a space for their work between the university and the communities they study Scholars of religion she argues have multiple masters and must move between them while writing histories and speaking about realities that not everyone may be interested in hearing

In the Beginning was the Spirit Diarmuid O'Murchu, 2012-09 This title provides an astonishing synthesis of humankind's understanding of the Great Spirit that energizes and runs through all creation

Christian Mysticism's Queer Flame Michael Bernard Kelly, 2018-09-03 Is the Christian mystical tradition a relic of another time shaped by celibates for celibates unable to engage meaningfully with people of our time who embrace their corporeality and sexuality as crucial aspects of their journey towards union with God This book reflects in serious theological depth and detail on the spiritual and sexual journeys of gay men of mature and committed Christian faith employing the Christian mystical tradition as the lens and the interlocutor in this process This study examines the major themes and stages of the mystical tradition as outlined by Evelyn Underhill but also including more recent work by Ruth Burrows Thomas Merton and Constance Fitzgerald Using methods of qualitative research it then considers the texts of in depth interviews conducted with men most of whom are theologians or spiritual leaders with a deep Catholic faith and all of whom are openly self affirmingly gay Finally it employs Ricoeur's hermeneutical theory to engage in a creative theological conversation between the traditional mystical stages and themes and these men's lives as described in their interviews This is a unique study that brings together ancient spirituality with contemporary lived religion As such it will be of interest to scholars of religious studies theology Christian mysticism and spirituality and queer studies It will be of particular interest to those teach spiritual direction and to all who seek new ways to engage with the spiritual lives of LGBTIQ people

The Eloquent Blood Manon Hedenborg White, 2020 The Eloquent Blood focuses on the changing construction of femininity and feminine sexuality in interpretations of the goddess Babalon A central deity in Thelema the religion founded by the notorious British occultist Aleister Crowley 1875 1947 Babalon is based on Crowley's favorable reinterpretation of the biblical Whore of Babylon and is associated with liberated female sexuality and the spiritual ideal of passionate union with existence Combining research on historical and contemporary Western esotericism with feminist and queer theory the book sheds light on the ways in which esoteric movements and systems of thought have developed over time in relation to political movements

Authors of the Impossible Jeffrey J. Kripal, 2024-05-31 Outstanding and almost certainly controversial Kripal has promise to revitalize and extend the reach of religious studies Choice Most scholars dismiss research into the paranormal as pseudoscience a frivolous pursuit for the paranoid or gullible Even historians of religion whose work naturally attends to events beyond the realm of empirical science have shown scant interest in the subject But the history of psychical phenomena Jeffrey J Kripal contends is an untapped source of insight into the sacred and by tracing that history through the last two centuries of Western thought

we can see its potential centrality to the critical study of religion Kripal grounds his study in the work of four major figures in the history of paranormal research: psychical researcher Frederic Myers, writer and humorist Charles Fort, astronomer, computer scientist and ufologist Jacques Vallee, and philosopher and sociologist Bertrand Russell. Through incisive analyses of these thinkers, Kripal ushers the reader into a beguiling world somewhere between fact, fiction, and fraud. The cultural history of telepathy, teleportation, and UFOs, a ghostly love story, the occult dimensions of science fiction, cold war psychic espionage, galactic colonialism, and the intimate relationship between consciousness and culture all come together in *Authors of the Impossible*, a dazzling and profound look at how the paranormal bridges the sacred and the scientific. An excellent book, engaging, witty, and thoughtful. Christopher Partridge, Lancaster University. Kripal demands nothing short of a paradigm shift in order to make sense of the odd, the anomalous, and the inexplicable. Catherine L. Albanese, University of California, Santa Barbara. Quietly earth shattering. Victoria Nelson, author of *The Secret Life of Puppets*. [An Indian Tantric Tradition and Its Modern Global Revival](#). D.E. Ostro, 2020-03-06. This book analyzes the contemporary global revival of Nondual aivism, a thousand-year-old medieval Hindu religious philosophy. Providing a historical overview of the seminal people and groups responsible for the revival, the book compares the tradition's medieval Indian origins to modern forms which are situated within distinctively contemporary religious, economic, and technological contexts. The author bridges the current gap in the literature between insider, emic, and outsider, etic perspectives by examining modern Nondual aivism from multiple standpoints as both a critical scholar of religion and an empathetic participant observer. The book explores modern Nondual aivism in relation to recent scholarly debates concerning the legitimacy of New Age, consumptive spirituality, the global spiritual marketplace, and the contemporary culture of narcissism. It also analyzes the dark side of the revived tradition and investigates contemporary teachers accused of sexual abuse and illegal financial activities in relation to unique features of Nondual aivism's theosophy and modern scholarship on new religious movements (NRMs) and cults. This book shows that although Kashmiri aivism has been adopted by certain teachers and groups to market their own brand of High Tantra, some contemporary practitioners have remained true to the system's fundamental tenets and teach authentic, albeit modern forms of Nondual aivism. This book will be of interest to academics in the fields of religion and Asian philosophies, especially South Asian, tantric, neo-tantric, and yoga philosophies, alternative and New Age spiritualities, religion and consumerism, and NRMs and cults. Winner of the inaugural 2021 New Zealand Asia Society Book Award, second prize. **Women and Interreligious Dialogue**. Catherine Cornille, Jillian Maxey, 2013-09-26. Though women have been objects more often than subjects of interreligious dialogue, they have nevertheless contributed in significant ways to the dialogue, just as the dialogue has also contributed to their own self-understanding. This volume, the fifth in the *Interreligious Dialogue Series*, brings together historical, critical, and constructive approaches to the role of women in the dialogue between religions. These approaches deal with concrete examples of women's involvement in dialogue, critical reflections on the representation of women in dialogue,

and the important question of what women might bring to the dialogue Together they open up new avenues for reflection on the nature and purpose of interreligious dialogue

Savoring God Gloria Maité Hernández,2021 Savoring God is at comparative study featuring the Christian C ntico espiritual Spiritual Canticle by the sixteenth century Spanish poet and theologian Saint John of the Cross and the Hindu Sanskrit R sa L l Dance of Love which originated in the oral tradition The poems are examined alongside theological commentaries The comparisons examine the interactions between poetical language and theological discourse

The Mystic Experience Jordan Paper,2012-02-01 The mystic zero or void experience the ecstatic disappearance of self along with everything else is considered by those who have had it to be the most beautiful blissful positive profound and significant experience of their lives Offering both a descriptive and a comparative perspective this book explores the mystic experience across cultures as both a human and cultural event The book begins and ends with descriptions of the author s own mystical experiences and looks at self reported experiences by individuals who do not link their experiences to a religious tradition to determine characteristics of this universal human experience These characteristics are compared to statements of acknowledged mystics in diverse religious traditions The mystic experience is also situated within other ecstatic religious experiences to distinguish it from similar but distinct experiences such as lucid dreams shamanism and mediumism Jordan Paper goes on to look at how the mystic experience has been considered in various fields such as sociology psychology anthropology biology and comparative religious studies

Incarnation O'Murchu, Diarmuid,2017-05-18

Psychedelic Mysticism Morgan Shipley,2015-11-12 Concerned with scholarly popular and religious backdrops that understand the connection between psychedelics and mystical experiences to be devoid of moral concerns and ethical dimensions a position supported empirically by the rise of acid fascism and psychedelic cults by the late 1960s Psychedelic Mysticism Transforming Consciousness Religious Experiences and Voluntary Peasants in Postwar America traces the development of sixties psychedelic mysticism from the deconditioned mind and perennial philosophy of Aldous Huxley to the sacramental ethics of Timothy Leary Richard Alpert and Ralph Metzner to the altruistic religiosity practiced by Stephen Gaskin and The Farm Building directly off the pioneering psychedelic writing of Huxley these psychedelic mystics understood the height of psychedelic consciousness as an existential awareness of unitive oneness a position that offered worldly alternatives to the maladies associated with the postwar moment e g vapid consumerism and materialism lifeless conformity unremitting racism heightened militarism In opening a doorway to a common world Morgan Shipley locates how psychedelics challenged the coherency of Western modernity by fundamentally reorienting postwar society away from neoliberal ideologies and toward a sacred understanding of reality defined by mutual coexistence and responsible interdependence In 1960s America psychedelics catalyzed a religious awakening defined by compassion expressed through altruism and actualized in projects that sought to ameliorate the conditions of the least advantaged among us In the exact moments that historians and cultural critics often locate as signaling the death knell of the counterculture

Gaskin and The Farm emerged not as a response to the perceived failures of the hippies nor as an alternative to sixties politicians but in an effort to fulfill the religious obligation to help teach the world how to live more harmoniously. Today as we continue to confront issues of socioeconomic inequality, entrenched differences, widespread violence, and the limits of religious pluralism, Psychedelic Mysticism serves as a timely reminder of how religion in America can operate as a tool for destabilization and as a means to actively reimagine the very basis of how people relate. Such a legacy can aid in our own efforts to build a more peaceful, sustainable, and compassionate world.

Identity and the Politics of Scholarship in the Study of Religion Jose Cabezon, Sheila Greeve Davaney, 2004-12-15 The relationship of a scholar's identity to the scholarship he or she produces is a central concern in the academy, and this volume is the first attempt to approach the special problems it presents for religious studies.

The Serpent's Gift Jeffrey J. Kripal, 2008-09-15 Because thou hast done this, thou art cursed above all cattle, and above every beast of the field. With those words in Genesis, God condemns the serpent for tempting Adam and Eve, and the serpent has shouldered the blame ever since. But how would the study of religion change if we looked at the Fall from the snake's point of view? Would he appear as a bringer of wisdom, more generous than the God who wishes to keep his creation ignorant? Inspired by the early Gnostics who took that startling view, Jeffrey J. Kripal uses the serpent as a starting point for a groundbreaking reconsideration of religious studies and its methods. In a series of related essays, he moves beyond both rational and faith-based approaches to religion, exploring the erotics of the gospels and the sexualities of Jesus, John, and Mary Magdalene. He considers Feuerbach's Gnosticism, the untapped mystical potential of comparative religion, and even the modern mythology of the X-Men. Ultimately, *The Serpent's Gift* is a provocative call for a complete reorientation of religious studies aimed at a larger understanding of the world, the self, and the divine.

Esalen Jeffrey J. Kripal, 2011-09-07 Jeffrey Kripal here recounts the spectacular history of Esalen, the institute that has long been a world leader in alternative and experiential education and stands today at the center of the human potential movement. Forged in the literary and mythical leanings of the Beat Generation, inspired in the lecture halls of Stanford by radical scholars of comparative religion, the institute was the remarkable brainchild of Michael Murphy and Richard Price. Set against the heady backdrop of California during the revolutionary 1960s, Esalen recounts in fascinating detail how these two maverick thinkers sought to fuse the spiritual revelations of the East with the scientific revolutions of the West, or to combine the very best elements of Zen Buddhism, Western psychology, and Indian yoga into a decidedly utopian vision that rejected the dogmas of conventional religion. In their religion of no religion, the natural world was just as crucial as the spiritual one; science and faith, not only commingled but became staunch allies, and the enlightenment of the body could lead to the full realization of our development as human beings. An impressive new book, Kripal has written the definitive intellectual history of the ideas behind the institute. *San Francisco Chronicle* Kripal examines Esalen's extraordinary history and evocatively describes the breech birth of Murphy and Price's brainchild. His real achievement, though, is effortlessly synthesizing a

dizzying array of dissonant phenomena Cold War espionage ecstatic religiosity incongruous pairings Darwinism Tantric sex and otherwise schizy ephemera psychedelic drugs spaceflight into a cogent satisfyingly complete narrative Atlantic Monthly Kripal has produced the first all encompassing history of Esalen its intellectual social personal literary and spiritual passages Kripal brings us up to date and takes us deep beneath historical surfaces in this definitive elegantly written book Playboy
