Service Solutions:

Marketing High Profit Product/Service Solutions Roger More, 2016-05-06 Marketing High Profit Product Service Solutions addresses one of the most exciting and growing strategic marketing opportunities facing product and service companies bundling. Many customers want bundled products and services which represent integrated solutions to their problems rather than buying individual products and services piecemeal and if you become that supplier it can transform a company. There are many outstanding examples. Magna International grew in several stages from a supplier of basic individual auto parts to a company manufacturing a product service super bundle ultimately sourcing and assembling the entire car itself. GE developed their business involving the supply of medical imaging machines to hospitals to become a super bundler of complete hospital radiological floor imaging operations planning installation and integration. IBM transformed their position as a supplier of individual hardware software and peripherals to companies into a product service solution bundler of increasing complexity and finally into the super bundle of BPO Business Process Outsourcing representing an outsourced and complete integrated IT solution set for clients entire global operations. Roger More explores what was learned by these leading companies amongst others when they transformed their market strategies to become bundlers of complex integrated customer solutions. Over many years the author has developed and tested new concepts maps and tools for use by a wide variety of managers in developing strategies for these bundled product service solutions. His book now offers these maps and tools to all who invest in a copy. *Product-Service Integration for Sustainable Solutions* Horst Meier, 2013-03-14 An Industrial Product Service System is characterized by the integrated and mutually determined planning development provision and use of product and service shares including its immanent software components in Business to Business applications and represents a knowledge intensive socio technical system. Meier Roy Seliger 2010 Since the first conference in 2009 the CIRP International Conference on Industrial Product Service Systems has become a well established international forum for the review and discussion of advances research results and industrial improvements. Researchers from all over the world have met at previous IPS2 conferences in Cranfield 2009 Link ping 2010 Braunschweig 2011 and Tokyo 2012. In 2013 the 5th CIRP International Conference on Industrial Product Service Systems is held in Bochum. Digital Disruptive Innovation Joe Tidd, 2019-08-21 Its focus is the major theme of digital innovation and it tries to go beyond the hype associated with much of the discussion of this important area The discussion in the book stresses the need to move our thinking about innovation beyond the level of enterprise to consider ecosystems and complementary assets Overall this is a useful book not least because in addition to opening up key lines for further research enquiry the book also has a strong international flavour with contributions from a wide and diverse set of contexts

International Journal of Innovation Management There is no doubt that digital technologies have the potential for disruptive innovation in a wide range of sectors both in manufacturing and services and the commercial and social domains However popular commentaries on the potential of digital innovation to disrupt have suffered from two extreme positions either simplistic technological determinism often promoted by technology vendors claiming that the impending widespread automation of products and services will provide step changes in productivity and new products and services or alternatively very high level broad discussions of business model innovation in traditional sectors private and public However the impacts will not be universal and the outcomes will be highly differentiated More fundamentally neither a narrow technological perspective or broad business view adequately captures the appropriate level of granularity necessary to understand the potential and challenges presented by digital innovation In this book Digital Disruptive Innovation we apply innovation

concepts models and research to provide greater insights into strategies for and management of digital innovation
