Service Delivery In The 90s Altern:

Service Delivery in the 90s Cheryl A. Farr, 1989 **Sharing Power** Donald F. Kettl, 2011-07-01 In the flush of enthusiasm to make government work better reformers from both left and right have urged government to turn as many functions as possible over to the private sector and to allow market competition instill efficiency and choice In fact government has been doing just this for years every major policy initiative launched since World War II has been managed by public private partnerships Yet such privatization has not solved government s problems While there have been some positive results there has been far less success than advocates of market competition have promised In a searching examination of why the competition prescription has not worked well Donald F Kettl finds that government has largely been a poor judge of private markets Because government rarely operates in truly competitive markets contracting out has not so much solved the problems of inefficiency but has aggravated them Government has often not proved to be an intelligent consumer of the goods and services it has purchased Kettl provides specific recommendations as to how government can become a smart buyer knowing what it wants and judging better what it has bought Through detailed case studies Kettl shows that as market imperfections increase so do problems in governance and management He examines the A 76 program for buying goods and services the FTS 2000 telecommunications system the Superfund program the Department of Energy s production of nuclear weapons and contracting out by state and local governments He argues that government must be more aggressive in managing contracts if it is to build successful partnerships with outside contractors Kettl maintains that the answer is not more government but a smarter one which requires strong political leadership to refocus the bureaucracy s mission and to change the bureaucratic culture **Intergovernmental Perspective** , 1990 Each issue concentrates on a different topic

Civil Service Reform in the States J. Edward Kellough, Lloyd G. Nigro, 2012-02-01 Civil Service Reform in the States examines the critical importance of civil service systems in modern government and popular efforts to reform those systems The book provides an up to date analysis and assessment of public personnel reforms undertaken by various state governments since 1990 and the extent to which these reforms have been implemented or resisted With chapters written by nationally recognized experts on civil service and civil service reform this book will appeal to public policy makers practitioners and students alike

Public Services and Market Mechanisms Kieron Walsh, 1995-05-10 The introduction of market mechanisms and a new public management are transforming government and public service throughout the world Drawing on the experience of a number of countries but focusing in particular on the UK where change has progressed furthest and on the broadest front this is the first comprehensive account of the impact of a whole range of innovations such as charging contracting internal markets and the creation of devolved agencies

Encyclopedia of Government and Politics M. E. Hawkesworth, Maurice Kogan, 1992 **Improving Public Sector Productivity** Ellen D. Rosen, 1993-07-22

The productivity of America s public agencies has never been more closely scrutinized Taxpayers have drawn the line on

what they are and are not willing to pay for governmental programs Both public servants and their clients have an equal stake in making public agencies more productive and respected Public agencies can be made more efficient effective and humane and Improving Public Sector Productivity shows how Ellen Rosen provides practical guidance to enhance both the service quality and client satisfaction of public agencies at the local state and national level A wealth of current cases and examples focuses on the issues of quality management improving service delivery job reorganization and worker empowerment The author also details methods for measuring public productivity Policymakers public sector managers researchers and students of public administration will find Improving Public Sector Productivity an indispensable toolkit of ideas strategies and applications for making better use of taxpayers money This book is a welcome addition to the literature because it offers practical solutions as well as discussing theoretical issues The book is aimed at the serious student and practitioner of public administration and because it is written in a way that combines theory with practice it is accessible to this audience Urban Studies Managers and elected officials will find a tool kit of ideas strategies and applications for making better use of taxpayers money all based on sound rationale and of proven worth The productivity concerns provided in the book can help improve service quality and client satisfaction while being sensitive to employee concerns and asking them to contribute to the enterprise Beverly A Cigler The Pennsylvania State University Ellen Doree Rosen s book Improving Public Sector Productivity Concepts and Practice provides some very useful information and ideas on how to attain higher levels of productivity The book succeeds however in clearly explaining the many constraints on public administration which militate against achieving high levels of focus and efficiency Improving the Public Sector Productivity et al is thought provoking intelligent and one of the more practical public administration texts I ve read I recommend it to professors and students for its clear eyed description of the issues practitioners must deal with in attempting to improve the way public business is conducted It is a superior guide for those in the field who could often use a conceptual framework to help assess where we are and to mark a path in the direction we need to go Mark Miller Orange County Chapter of the American Society of Public Administration The Changing Organisation and Management of Local Government Steve Leach,Kieron Walsh,John Stewart,1994-09-19 Local government organisation and management in Britain is in the throes of a major transformation brought about by changing economic social and political circumstances and central government legislation This book outlines the major pressures for change and analyses and assesses local government s response in terms of role culture structure and internal process Particular attention is paid to the consequences of new decentralised competitive regulatory and enabling models of what local authorities should be like in the mid 1990s Public Sector Volunteer Management Aminata Sillah,2022-09-23 In order to effectively and consistently provide services to citizens local governments have had to come up with creative ways for offering services demanded by their citizens One popular approach became the creation of volunteer programs as local governments became increasingly reliant on volunteers Volunteers are one means by which local

governments help to increase meaningful engagement with citizens and help meet the increasing needs for public services with limited resources On a broader scale volunteers in public agencies provide a variety of services to fill gaps in creating and sustaining collective societal goods that otherwise might have been limited due to fiscal stress on local governments or eliminated Public Sector Volunteer Management Best Practices and Challenges adds to the understanding of how management practices may affect retention of volunteers It provides an opportunity to add much needed data to any discussion concerning volunteering at the local government level from the perspective of volunteer coordinators and aims to provide in depth research on local government volunteer management practices This book focuses on best practices identified as necessary for successful volunteer management in the public sector specifically in a local government setting making it a valuable text for researchers academics and students in the fields of public and nonprofit management leadership and human resource management *Public Human Resource Management* Richard C.
