Seurat and the Making of La Grande Jatte Robert L. Herbert, Neil Harris, Georges Seurat, Art Institute of Chicago, 2004

The origins development execution and influence on artist Georges Seurat s greatest work A Sunday in La Grande Jatte is examined in a study that reveals a compositional process that used Old Master traditions and methods **The Work of Art** Anthea Callen, 2015-02-15 In *The Work of Art* Anthea Callen analyzes the self portraits portraits of fellow artists photographs prints and studio images of prominent nineteenth century French Impressionist painters exploring the emergence of modern artistic identity and its relation to the idea of creative work Landscape painting in general she argues and the plein air oil sketch in particular were the key drivers of change in artistic practice in the nineteenth century leading to the Impressionist revolution Putting the work of artists from Courbet and C zanne to Pissaro under a microscope Callen examines modes of self representation and painting methods paying particular attention to the painters touch and mark making Using innovative methods of analysis she provides new and intriguing ways of understanding material practice within its historical moment and the cultural meanings it generates Richly illustrated with 180 color and black and white images *The Work of Art* offers fresh insights into the development of avant garde French painting and the concept of the modern artist **Georges Seurat** Michelle Foa, 2015-07-14 This revelatory study of Georges Seurat 1859 1891 explores the artist s profound interest in theories of visual perception and analyzes how they influenced his celebrated seascape urban and suburban scenes While Seurat is known for his innovative use of color theory to develop his pointillist technique this book is the first to underscore the centrality of diverse ideas about vision to his seascapes figural paintings and drawings Michelle Foa highlights the importance of the scientist Hermann von Helmholtz whose work on the physiology of vision directly shaped the artist s approach Foa contends that Seurat s body of work constitutes a far reaching investigation into various modes of visual engagement with the world and into the different states of mind that visual experiences can produce Foa s analysis also brings to light Seurat s sustained exploration of long standing and new forms of illusionism in art Beautifully illustrated with more than 140 paintings and drawings this book serves as an essential reference on Seurat *Archibald Motley Jr. and Racial Reinvention* Phoebe Wolfskill, 2017-08-10 An essential African American artist of his era Archibald Motley Jr created paintings of black Chicago that aligned him with the revisionist aims of the New Negro Renaissance Yet Motley s approach to constructing a New Negro a dignified figure both accomplished and worthy of respect reflected the challenges faced by African American artists working on the project of racial reinvention and uplift Phoebe Wolfskill demonstrates how Motley s art embodied the tenuous nature of the Black Renaissance and the wide range of ideas that structured it Focusing on key works in Motley s oeuvre Wolfskill reveals the artist s complexity and the variety of influences that informed his work Motley s paintings suggest that the racist problematic image of the Old Negro was not a relic of the past but an influence that pervaded the Black Renaissance Exploring Motley in relation to works by notable black and non black contemporaries

Wolfskill reinterprets Motley's oeuvre as part of a broad effort to define American cultural identity through race class gender religion and regional affiliation *James McNeill Whistler and France* Suzanne Singletary, 2016-11-18 James McNeill Whistler and France A Dialogue in Paint Poetry and Music is the first full length and in depth study to position this painter within the overall trajectory of French modernism during the second half of the nineteenth century and to view the artist as integral to the aesthetic projects of its most original contributors Suzanne M Singletary maintains that Whistler was in a unique situation as an insider within the emerging French avant garde thereby in an enviable position to both absorb and transform the innovations of others and that until now his widespread influence as a catalyst among his colleagues has been neither investigated nor appreciated Singletary contends that Whistler's importance rivals that of Manet whose multi layered and often unexpected interconnections with Whistler are the focus of one chapter In addition Whistler's pivotal role in linking the legacies of Baudelaire Delacroix Gautier Wagner and other mid century innovators to the later French Symbolists has previously been largely ignored Courbet Degas Monet and Seurat complete the roster of French artists whose dialogue with Whistler is highlighted **A Theory of the Tache in Nineteenth-Century Painting** Stein Sj?ad, 2017-07-05 Without question the tache blot patch stain is a central and recurring motif in nineteenth century modernist painting Manet's and the Impressionists rejection of academic finish produced a surface where the strokes of paint were presented directly as patches or blots then indirectly as legible signs C?nne Seurat and Signac painted exclusively with patches or dots Through a series of close readings this book looks at the tache as one of the most important features in nineteenth century modernism The tache is a potential meeting point between text and image and a pure trace of the artist's body Even though each manifestation of tacheism generates its own specific cultural effects this book represents the first time a scholar has looked at tacheism as a hidden continuum within modern art With a methodological framework drawn from the semiotics of text and image the author introduces a much needed fine tuning to the classic terms index symbol and icon The concept of the tache as a crossing of sign types enables finer distinctions and observations than have been available thus far within the Peircean tradition The sign crossing theory opens onto the whole terrain of interaction between visual art art criticism literature philosophy and psychology **15th Triennial Conference, New Delhi, 22-26 September 2008** ICOM Committee for Conservation. Meeting, ICOM Committee for Conservation, 2008 **Brushstroke and Emergence** James D. Herbert, 2015-11-16 Analyzing ten paintings by Courbet Manet C?zanne Monet Seurat and Picasso exposes vital relationships between intension and habit the singular and the complex In doing so it uncovers a space worthy of historical and aesthetic analysis between the brushstroke and the self *Paris and the Musical* Olaf Jubin, 2021-03-18 Paris and the Musical explores how the famous city has been portrayed on stage and screen investigates why the city has been of such importance to the genre and tracks how it has developed as a trope over the 20th and 21st centuries From global hits An American in Paris Gigi Les Mis rables Moulin Rouge and The Phantom of the Opera to the less widely known Bless the Bride Can Can Irma la Douce

and Marguerite the French capital is a central character in an astounding number of Broadway Hollywood and West End musicals This collection of 18 essays combines cultural studies sociology musicology art and adaptation theory and gender studies to examine the envisioning and dramatisation of Paris and its depiction as a place of romance hedonism and libertinism or as the capital of the arts The interdisciplinary nature of this collection renders it as a fascinating resource for a wide range of courses it will be especially valuable for students and scholars of Musical Theatre and those interested in Theatre and Film History more generally

Modern Art & the Remaking of Human Disposition Emmelyn Butterfield-Rosen, 2021-11-09 How artists at the turn of the twentieth century broke with traditional ways of posing the bodies of human figures to reflect modern understandings of human consciousness With this book Emmelyn Butterfield Rosen brings a new formal and conceptual rubric to the study of turn of the century modernism transforming our understanding of the era's canonical works Butterfield Rosen analyzes a hitherto unexamined formal phenomenon in European art how artists departed from conventions for posing the human figure that had long been standard In the decades around 1900 artists working in different countries and across different media began to present human figures in strictly frontal lateral and dorsal postures The effect both archaic and modern broke with the centuries old tradition of rendering bodies in torsion with poses designed to simulate the human being's physical volume and capacity for autonomous thought and movement This formal departure destabilized prevailing visual codes for signifying the existence of the inner life of the human subject Exploring major works by Georges Seurat Gustav Klimt and the dancer and choreographer Vaslav Nijinsky replete with new archival discoveries *Modern Art and the Remaking of Human Disposition* combines intensive formal analysis with inquiries into the history of psychology and evolutionary biology In doing so it shows how modern understandings of human consciousness and the relation of mind to body were materialized in art through a new vocabulary of postures and poses
