**Proceedings of the Parliament of South Australia** South Australia. Parliament,1928      **Seeds of Western Culture: Universal Chronology, the Exoduses and Archilochus' Odyssey** Graham Peter Scott,2025-01-01 The book rediscovers two of the main seeds of Western Culture the Exodus and the Odyssey which are entwined within the book by both a common link with Egypt and a review of ancient chronology They were both antecedents to the rise of Christianity which is at the heart of Western Culture It was inspired by a desire to understand the spiritual message of the Odyssey which required both geographical and spiritual interpretations of the poem Linked to this was a desire to understand the political context of the Trojan story which required resolving the false hiatus in the archaeology of Troy This resulted in a new paradigm for understanding ancient chronology which revealed the stories behind the Exodus and the location of the Garden of Eden Writing the book has been a long and eventful journey longer than Odysseus 19 years away from home The book is written in five parts Universal Chronology Based on the identification of Menophres with Thutmose III and of the Bubastite Portal s reference to Shoshenq s participation in the Battle of Qarqar the Egyptian Third Intermediate Period is shortened by 120 years with a pharaoh ruling from Tanis and subordinate kings at Bubastis and Thebes The Exodus Using the Universal Chronology and genealogical information and dates provided by the Bible it is demonstrated that the story of the Exodus is a combination of two events being the exodus of the Hyksos led by Abraham in 1406 BC following the eruption of Thera and the exodus of the Atenist Levite priests led by Moses in about the first year of Tutankhamun 1204 BC The story of Abraham also reveals the location of the Garden of Eden in the heartland of the Levant Radiocarbon Dating The process that created the dendrochronology based radiocarbon calibration curve is demonstrated to be a flawed non scientific process that relied upon circular arguments The Odyssey By comparing the life and work of Archilochus to both the Odyssey and the Iliad it is shown that Archilochus must have been the author of the Odyssey The allegory within the Odyssey is also discussed to provide both geographical and spiritual interpretations of the poem Western Culture The two main streams of Western Culture Ancient Greece and Christianity are shown to have had their foundations in the stories surrounding the Trojan War the spiritual message of the Odyssey and the influences of Egypt on Greece and Judaism It is shown how Greek and Jewish religions were fused to create the Gospels and contributed towards modern astrology      **Thomas Mann in English** David Horton,2013-04-11 Thomas Mann owes his place in world literature to the dissemination of his works through translation Indeed it was the monumental success of the original English translations that earned him the title of the greatest living man of letters during his years in American exile 1938 52 This book provides the first systematic exploration of the English versions illustrating the vicissitudes of literary translation through a principled discussion of a major author The study illuminates the contexts in which the translations were produced before exploring the transformations Mann s work has undergone in the process of transfer An exemplary analysis of selected textual dimensions demonstrates the multiplicity of factors which impinge upon literary translation leading far beyond the traditional preoccupation with issues of equivalence

Thomas Mann in English thus fills a gap both in translation studies where Thomas Mann serves as a constant but ill defined point of reference and in literary studies which has focused increasingly on the author's wider reception

### **Sacred Text**

Juan Pedro Monferrer Sala, Angel Urbán, 2009 This book which gathers seventeen contributions investigates some lexical and textual aspects in the sacred texts like the Bible in its several textual traditions and the Qur'an particularly those elements that serve to provide the textual structure with a lexical semantic framework These contributions have been focused on several linguistic aspects etymologies loanwords the symbolic or figurative values of the terms used in the text the syntagmatic potential of the words and the literary reflection of the terms like the basic reading of the text and its subsequent comprehension

**How Does it Feel? Point of View in Translation** Charlotte Bosseaux, 2007-01-01 Narratology is concerned with the study of narratives but surprisingly it does not usually distinguish between original and translated texts This lack of distinction is regrettable In recent years the visibility of translations and translators has become a widely discussed topic in Translation Studies yet the issue of translating a novel's point of view has remained relatively unexplored It seems crucial to ask how far a translator's choices affect the novel's point of view and whether characters or narrators come across similarly in originals and translations This book addresses exactly these questions It proposes a method by which it becomes possible to investigate how the point of view of a work of fiction is created in an original and adapted in translation It shows that there are potential problems involved in the translation of linguistic features that constitute point of view deixis modality transitivity and free indirect discourse and that this has an impact on the way works are translated Traditionally comparative analysis of originals and their translations have relied on manual examinations this book demonstrates that corpus based tools can greatly facilitate and sharpen the process of comparison The method is demonstrated using Virginia Woolf's *To The Lighthouse* 1927 and *The Waves* 1931 and their French translations

L. Harriss,Rowena E. Archer,Simon Walker,1995-01-01 How power was distributed and exercised is a key issue in understanding attitudes and assumptions in late medieval England The essays in this volume all deal with those who had the power to make political decisions whether kings nobles or gentry courtiers or clergy While ultimately power rested on force it was enshrined in the law and more usually exercised by influence and by the dangling of reward Most

disputes were settled without violence if often with recourse to prolonged struggles in the courts but those who offended against established interests could be punished severely as the cases of Sir John Mortimer and of Bishop Reginald Pecock show These essays presented to Gerald Harriss who has done so much to illuminate the history of the period show not only how power was exercised but also how men of the time thought about it Contributors Rowena E Archer Christine Carpenter Jeremy Catto Rosemary Horrox R W Hoyle Maurice Keen Dominic Lockett Philippa Maddern S J Payling Edward Powell Anthony Smith Simon Walker Christopher Woolgar Edmund Wright *House of Commons Debates, Official Report* Canada.
