Australian Book Review .2003 Proof & Truth Iain McCalman, Ann Margaret McGrath, 2003 Lawyers historians anthropologists and literary scholars draw heavily on the concepts of evidence proof and truth but these crucial terms generally carry distinct and incommensurate meanings for each discipline or professional practice The consequences of these differences are more than academic Divergent understandings of proof and truth have serious practical implications when humanists present themselves as expert witnesses in court cases involving vital contemporary issues such as indigenous land ownership cultural heritage social policy and legal administration With reference to controversial and landmark cases this collection of cross disciplinary essays probes the convergences and incompatibilities between legal and humanistic understandings and opens the way for a more constructive and informed courtroom role for experts of all kinds **Feargus** O'Connor Paul A. Pickering, 2008 Written for both a general and academic audience this full length biography of Feargus O Connor 1795 1855 provides an overview of a turbulent and active political career from positions in journalism and the House of Commons to mass demonstrations for the People's Charter and working for the Chartist Land company At the height of his popularity as a leader of the Chartists campaign for democratic reform O Connor enjoyed the support of millions of working people But more than any other popular leader of his generation he sought to bring the working Saxon and Celt together in a common struggle an aspiration that had its roots deep in the Irish past Uniquely this account restores the Irish dimension of O Connor's career to its proper place by offering for the first time an evaluation of his heritage his ideas and his public life on both sides of the Irish Sea The Bulletin .2003 The Seven Ordeals of Count Cagliostro Iain McCalman, 2017-01-12
