A New Handbook of Christian Theologians Donald W. Musser, 1996-09-01 In recent years the flow of Christian theology has been channeled in diverse streams represented by such trends and movements as black theology liberation theology feminist theology and womanist theology To survey this abundance and diversity of current Christian theology this book examines the theologies of representative theologians Particularly to help students navigate the sea of information the editors have identified various routes for reading and have traced several threads or issues common to many of the essays thus demarcating such recurrent concerns as the ways in which the theologians consider the sources and goals for theology their variant assumptions and conclusions about the nature of God their divergent approaches to understanding the person and purpose of the Christ and their distinct expectations for the destiny of history and faith

The Rise of Liberal Religion Matthew Hedstrom, 2013 Winner of the Frank S and Elizabeth D Brewer Best First Book Prize of the American Society of Church History Society for U S Intellectual History Notable Title in American Intellectual History The story of liberal religion in the twentieth century Matthew S Hedstrom contends is a story of cultural ascendancy This may come as a surprise most scholarship in American religious history after all equates the numerical decline of the Protestant mainline with the failure of religious liberalism Yet a look beyond the pews into the wider culture reveals a more complex and fascinating story one Hedstrom tells in *The Rise of Liberal Religion* Hedstrom attends especially to the critically important yet little studied arena of religious book culture particularly the religious middlebrow of mid century as the site where religious liberalism was most effectively popularized By looking at book weeks book clubs public libraries new publishing enterprises key authors and bestsellers wartime reading programs and fan mail among other sources Hedstrom is able to provide a rich on the ground account of the men women and organizations that drove religious liberalism s cultural rise in the 1920s 1930s and 1940s Critically by the post WWII period the religious middlebrow had expanded beyond its Protestant roots using mystical and psychological spirituality as a platform for interreligious exchange This compelling history of religion and book culture not only shows how reading and book buying were critical twentieth century religious practices but also provides a model for thinking about the relationship of religion to consumer culture more broadly In this way *The Rise of Liberal Religion* offers both innovative cultural history and new ways of seeing the imprint of liberal religion in our own times

Catholic Discordance Massimo Borghesi,2021-11-15 One element of the church that Pope Francis was elected to lead in 2013 was an ideology that might be called the American model of Catholicism the troubling result of efforts by intellectuals like Michael Novak George Weigel and Richard John Neuhaus to remake Catholicism into both a culture war colossus and a prop for ascendant capitalism After laying the groundwork during the 1980s and armed with a selective and

manipulative reading of Pope John Paul II's 1991 encyclical *Centesimus Annus* these neoconservative commentators established themselves as authoritative Catholic voices throughout the 1990s viewing every question through a liberal conservative ecclesial political lens The movement morphed further after the 9/11 terror attacks into a startling amalgamation of theocratic convictions which led to the troubling theopoliticism we see today The election of the Latin American pope represented a mortal threat to all of this and a poisonous backlash was inevitable bringing us to the brink of a true American schism This is the drama of today's Catholic Church In *Catholic Discordance: Neoconservatism vs the Field Hospital Church of Pope Francis* Massimo Borghesi who masterfully unveiled the pope's own intellectual development in his *The Mind of Pope Francis* analyzes the origins of today's Catholic neoconservative movement and its clash with the church that Francis understands as a field hospital for a fragmented world

The Naked God Vincent Strudwick, Jane Shaw, 2020-04-28 Every generation puts clothes onto God to help their understanding but the underlying reality of God still lies beneath those garments If we go on clothing God only with garments that are suitable for medieval Christendom or any other age then we can hardly expect that God will be understood in the twenty first century We live in an age in which many people are interested in spirituality but have been disillusioned by the Church and are unaware of what lies behind institutional religion There is little knowledge of historical attempts to understand and to clothe God and it is more difficult for twenty first century generations to find the tools with which to wrestle with the big questions about who we are and how we relate both to God and to each other Vincent Strudwick in collaboration with theologian historian and priest Jane Shaw invites all readers to become wrestlers to explore difficult questions about God the Bible spirituality and the Church
