Tales of the Punjab Told by the People Flora Annie Webster Steel, 1894 **Philosophical Perspective on Cinema** Pedro Blas González, 2022-05-17 The main premise of *Philosophical Perspective on Cinema* is simple Can a visual medium such as cinema put in greater perspective diverse aspects of human experience Films are usually sorted by genres but by applying metaphysical existential categories to cinema the author enables readers to reflect on the nature and essence of existence by making life appear less transparent to itself Undoubtedly the connection between sensual reality and philosophical reflection is often glossed over when the emphasis is placed on theoretical abstractions and not life itself While this work is a reflection on the philosophy of existence the author embraces a practical approach to the metaphysical existential foundation of human existence *Tales of the Punjab, Told by the People* Steel, 1894 **Coming Back to a Theater Near You** Brian

Dirck, 2015-06-19 As Savior of the Union and the Great Emancipator Abraham Lincoln has been lauded for his courage wisdom and moral fiber Yet Frederick Douglass's assertion that Lincoln was the white man's president has been used by some detractors as proof of his fundamentally racist character Viewed objectively Lincoln was a white man's president by virtue of his own whiteness and that of the culture that produced him Until now however historians have rarely explored just what this means for our understanding of the man and his actions Writing at the vanguard of whiteness studies Brian Dirck considers Lincoln as a typical American white man of his time who bore the multiple assumptions prejudices and limitations of his own racial identity He shows us a Lincoln less

willing or able to transcend those limitations than his more heroic persona might suggest but also contends that Lincoln's understanding and approach to racial bigotry was more enlightened than those of most of his white contemporaries. Blazing a new trail in Lincoln studies, Dirck reveals that Lincoln was well aware of and sympathetic to white fears, especially that of descending into white trash, a notion that gnawed at a man eager to distance himself from his own coarse origins. But he also shows that after Lincoln crossed the Rubicon of black emancipation, he continued to grow beyond such cultural constraints as seen in his seven recorded encounters with nonwhites. Dirck probes more deeply into what white meant in Lincoln's time and what it meant to Lincoln himself, and from this perspective, he proposes a new understanding of how Lincoln viewed whiteness as a distinct racial category that influenced his policies. As Dirck ably demonstrates, Lincoln rose far enough above the confines of his culture to accomplish deeds still worthy of our admiration, and he calls for a more critically informed admiration of Lincoln that allows us to celebrate his considerable accomplishments while simultaneously recognizing his limitations. When Douglass observed that Lincoln was the white man's president, he may not have intended it as a serious analytical category. But as Dirck shows, perhaps we should do so the better to understand not just the Lincoln presidency but the man himself.

Sacred Plunder David M. Perry, 2015-06-18 In *Sacred Plunder*, David Perry argues that plundered relics and narratives about them played a central role in shaping the memorial legacy of the Fourth Crusade and the development of Venice's civic identity in the thirteenth century. After the Fourth Crusade ended in 1204, the disputes over the memory and meaning of the conquest began. Many crusaders faced accusations of impiety, sacrilege, violence, and theft. In their own defense, they produced hagiographical narratives about the movement of relics, a medieval genre called *translatio* that restated their own versions of events and shaped the memory of the crusade. The recipients of relics commissioned these unique texts in order to exempt both the objects and the people involved from their theft from broader scrutiny or criticism. Perry further demonstrates how these narratives became a focal point for cultural transformation and an argument for the creation of the new Venetian empire as the city moved from an era of mercantile expansion to one of imperial conquest in the thirteenth century.

The Arabian Nights II, 1996 From the critically acclaimed translator of *The Arabian Nights* comes a volume of the four most popular later stories: Sindbad the Sailor, Ali Baba and the Forty Thieves, Ala al-Din Aladdin and the Magic Lamp, and Qamar al-Zaman. Readers will discover in each a world of high flamboyance and startling beauty, humor, and magic, and lessons of loyalty and love's endurance.

Arthur Koestler's Fiction and the Genre of the Novel Zénó Vernyik, 2021-09-17 Featuring a selection of brand new essays by a group of accomplished scholars, *Arthur Koestler's Fiction and the Genre of the Novel* covers all of Koestler's novels published in his lifetime, the first book to attempt this in English since Mark Levene's *Arthur Koestler* published thirty-seven years ago. The team of contributors, with research backgrounds in history, political science, religious studies, law, linguistics, and journalism, besides literature, offers a truly multidisciplinary take on how Koestler's novels utilize and at times transcend the genre of the novel and argues for their enduring relevance and

appeal in the twenty first century inviting the reader to revisit and reassess them With the topics of Koestler s novels including terrorism massive migration espionage rape trauma war trauma the crisis of faith propaganda fake news and the role and responsibility of intellectuals in major international crises as the volume aims to show these texts are just as topical today as they were at the time of their publication **The Encyclopedia of Film Composers** Thomas S.
