**International Case Studies in Mental Health** Senel Poyrazli, Chalmer E. Thompson, 2012-04-30 Senel Poyrazli s and

Chalmer Thompson's International Case Studies in Mental Health presents a variety of global cases from both developed and developing countries detailing descriptions of the people who are seeking help to eliminate their distress and of the exceptional practitioners who provide the help. In most of the cases the practitioner is someone who shares a similar heritage with her or his help seeker and who is influenced at least partly by Western psychotherapy traditions. Each chapter also is a showcase of how scholars pair up with mental health practitioners to create a work that weaves together contextual and individual qualities to inform an understanding of the help seeker and the intervention. This book aims to help prepare both mental health trainees and practicing professionals to be effective in the provision of healing in their work with people in different regions of the world. Consequently the authors hope to offer practitioners a glimpse of what can be achieved in these regions by people whose reputations within the respective communities are strong.

Encyclopedia of Human Relationships Harry T. Reis, Susan Sprecher, 2009-03-15 Library Journal Best Reference 2009 An excellent gateway to further examination of any of the subdisciplines of relationship science or as a research tool in its own right. Library Journal Relationships are fundamental to nearly all domains of human activity from birth to death. When people participate in healthy satisfying relationships they live, work, and learn more effectively. When relationships are distressed or dysfunctional people are less happy, less healthy, and less productive. Few aspects of human experience have as broad or as deep effects on our lives. The Encyclopedia of Human Relationships offers an interdisciplinary view of all types of human associations: friends, lovers, spouses, roommates, coworkers, teammates, parents and children, cousins, siblings, acquaintances, neighbors, business associates, and so forth. Although each of these connections is unique in some respect, they share a common core of principles and processes. These three volumes provide a state-of-the-art review of the extensive theories, concepts, and empirical findings about human relationships.
