and the increasing repression of sexuality throughout the nineteenth century Contraception became a viable option in the early twentieth century The book charts the resulting slow relaxation of attitudes to sexuality and the remaking of heterosexual physical behaviour culminating in the sexual revolution of the 1960s **Ritual Remembering**, 2021-11-15

Most of the essays in *Ritual Remembering* History Myth and Politics in Anglo Irish Drama in part or in whole frequently allude or directly concern themselves with the dramatic representation of the opposition or the collusion of myth and history and the uses and abuses of both Equally they celebrate and critically analyse the politics of the social conscience and social consciousness which pervades Irish drama in its rituals of forgetfulness and memory Perhaps myth is above all to be understood as the conscience and consciousness of history and politics is the projection of that myth into present social action on the hustings nowadays more frequently the television hustings at the ballot box in writing and on the stage Most of the articles in this volume revolve around these gravely portentous and ambivalent themes which nobody who is as much concerned with Anglo Irish relations as with Anglo Irish literature can disregard or evade **Elizabeth Wolstenholme**

Women's Activism Francisca de Haan, 2013 *Women's Activism* brings together twelve innovative contributions from feminist historians from around the world to look at how women have always found ways to challenge or fight inequalities and hierarchies as individuals in international women's organizations as political leaders and in global forums such as the United Nations. The book is divided into three parts. Part one brings together four essays about organized women's activism across borders. The chapters in part two focus on the variety of women's activism and explore women's activism in different national and political contexts. And part three explores the changing relationships and inequalities among women. This book addresses women's internationalism and struggle for their rights in the international arena; it deals with racism and colonialism in Australia, India, and Europe; women's movements and political activism in South Africa, Eastern Bengal, Bangladesh, the United Kingdom, Japan, and France. Essential reading for anyone interested in women's history and the history of activism more generally.

Women Making News Michelle Elizabeth Tusan, 2005 Starting in the mid nineteenth century female editors and journalists created a new genre of political journal they proclaimed to be both for and by women. Specialized periodicals like *Women's Penny Paper* and *Shafts* fostered the proliferation of diverse political agendas aimed at reimagining women's status in society. At the same time the institutional infrastructure of the women's press provided women with job opportunities in a nontraditional field. Michelle Tusan tells two stories. First she examines alternative print based political cultures that women developed during the late nineteenth and early twentieth centuries. Second she explores how British female subjects forged a wide range of new political identities through the pages of their press. Tusan employs social and cultural historical analysis in the reading of popular printed texts as well as rare and previously unpublished personal correspondence and business records from archives throughout Britain. Insightful and filled with fascinating detail *Women Making News* uncovers how the relationship between print culture and gender politics provided a vehicle for women's mobilization in the political culture of modern Britain.

A Social History of England 1851-1990 Francois Bedarida, 2013-06-17 In this the second edition of *A Social History of England* Francois Bedarida has added a new final chapter on the last fifteen years. The book now traces the evolution of English society from the height of the British Empire to the dawn of the single European market. Making full use of the Annales school of French historiography Bedarida takes his inquiry beyond conventional views to penetrate the attitudes, behaviour, and psychology of the British people.

Knowledge of Evil Alyson Brown, David Barrett, 2013-01-11 This book documents the enduring involvement of children in the commercial sex trade in twentieth century England. The authors argue that child prostitution needs to be understood within a broader context of child abuse and provide evidence that indicates the circumstances which have led young people into prostitution over the last hundred years amount at worst to physical or psychological abuse or neglect and at best as the result of limited choice.
