Understanding Faith Stephen R.L. Clark, 2011-12-12 Militant atheists often mirror the worst kind of ignorance and hostility that they condemn in traditional believers Writing both as a philosopher and an Anglican Christian Professor Clark explores this initial perception considering such topics as the alleged openness of scientists compared with the dogmatism of believers the difficulty of reading scripture outside the community of faith that has selected and elaborated it the problems of

moral realism and the problem with abandoning it why Darwinian and neo Darwinian Theory has been unpopular with some believers and what if anything can still be affirmed from it what can be learnt from modern biology especially about our relations with other creatures the nature of God the metaphor of waking up as applied to our hopes of heaven the varieties of possible world orders founded on differing religious schemata including some atheistical ones and the place of religion in the State He concludes appropriately with some remarks about the End **How the West Was Lost** Patrick Michael Murphy, 2005-05-18 His premise is that civilizations have life spans and the Western civilization that produced America and Europe has been replaced in our lifetime and before our very eyes To people whose minds were made by the West the civilization we now find ourselves in often feels wrong evil even but we also find ourselves feeling oddly affectionate toward this strange new world And the more time that passes the more normal the New Civ gets to feel We sometimes have to pinch ourselves to remember that society once had roots in a universe that knew something of moral absolutes where the horrible behaviors we now read about in every morning newspaper were so rare that one such event in a year would have felt like the world is just about to end But these things are what passes for normalcy today We are still able to be reminded of what we know in our bones although it gets harder all the time something has gone terribly wrong That s what this book is about
