Sex Is as Sex Does Paisley Currah, 2022-05-31 Winner Sexuality and Politics Book Award American Political Science Association Finalist PROSE Award Government and Politics What the evolving fight for transgender rights reveals about government power regulations and the law Every government agency in the United States from Homeland Security to Departments of Motor Vehicles has the authority to make its own rules for sex classification Many transgender people find themselves in the bizarre situation of having different sex classifications on different documents Whether you can change your legal sex to F or M or more recently X depends on what state you live in what jurisdiction you were born in and what government agency you're dealing with In Sex Is as Sex Does noted transgender advocate and scholar Paisley Currah explores this deeply flawed system showing why it fails transgender and non binary people Providing examples from different states government agencies and court cases Currah explains how transgender people struggle to navigate this confusing and contradictory web of legal rules definitions and classifications Unlike most gender scholars who are concerned with what the concepts of sex and gender really mean Currah is more interested in what the category of sex does for governments What does sex do on our driver's licenses in how we play sports in how we access health care or in the bathroom we use Why do prisons have very different rules than social service agencies Why is there such resistance to people changing their sex designation Or to dropping it from identity documents altogether In this thought provoking and original volume Sex Is as Sex Does reveals the hidden logics that have governed sex classification policies in the United States and shows what the regulation of transgender identity can tell us about society's approach to sex and gender writ large Ultimately Currah demonstrates that because the difficulties transgender people face are not just the result of transphobia but also stem from larger injustices an identity based transgender rights movement will not by itself be up to the task of resolving them

Anscombe's Moral Philosophy Duncan Richter, 2010-11-19 G E M Anscombe 1919 2001 was one of the most important outspoken and misunderstood philosophers of the twentieth century More than anyone else she revived virtue ethics and the philosophy of action She was also almost alone in publicly opposing Oxford University's decision to award an honorary degree to President Truman She regarded his decision to authorize bombing Hiroshima and Nagasaki as murderous Some liberals admire her for this stand but conservatives also admire her for her opposition to abortion contraception and same sex marriage Clearly her values were not those of her times This led her to reflect on the differences producing such works as *Modern Moral Philosophy* in which she rejected all modern theories of ethics In this paper she coins the term consequentialism to describe the dominant view which she rejects that what matters morally is the results of what one does Put crudely the ends can justify the means If enough lives can be saved by targeting civilians then civilians should be targeted Against this Anscombe insisted that certain actions are forbidden which prompted her interest in the nature of action and its relation to a person's character Whether one agrees with her or not these are all issues that continue to be relevant and on which Anscombe's views are always strong and intelligently defended Her presentation of these views

unfortunately is often dense and they are often badly misunderstood even by some very able minds Anscombe's Moral Philosophy clarifies what Anscombe thought about ethics showing how her different ideas connect and how she supported them It also evaluates her reasoning showing that it is stronger in some parts than in others The five main chapters of the book deal in turn with her work on military ethics including the so called doctrine of double effect her rejection of consequentialism her attack on the modern atheist notion of moral obligation her analysis of intention and its relevance for ethics and
